THE PRESIDENT'S INTENTION TO REsign.—A few days ago, a lady teacher in the city here, who has among her pupils two little daughters of Mrs. Stover, who, it will be remembered, is a daughter of President Johnson, requested each of her pupils to ascertain at home whether they would continue in her school the next quarter, which commences again within a couple of weeks. The little Misses Stover returned the next day, and promptly told the lady that they were not coming to school any they were not coming to school any more. When questioned as to the reason, they, with child-like simpli-

city, said:

"Grand-pa says we are going to move back to Tennessee, in April."

"I shall insist," says Mr. Bingham, "if the President transmit his resignation to the Senate, properly certified by the Secretary of State, that the Board of Managers has at once the Board of Managers be at once instructed by the House of Representatives to discontinue all proceedings against the President, and that they be discharged from all further consideration of the subject."

In this view Mr. Wilson concurred.

Mack—Cincinnati Commercial.

At Helena, Arkansas, on Thursday, a negro killed the Sheriff, Bart. Turner, who was attempting to ar-rest him for the murder of three colored men. The negro then mounted the Sheriff's horse, and escaped to the hills by the aid of some colored people. He was followed by officers and citizens, and he fired upon them, wounding Mr. Sebastian Pope. A squad of soldiers arrived, and wounded the negro, who died in a short time. died in a short time.

FIRE.—We are sorry to learn that, on Saturday night last, about 12 o'clock, the barn of John G. Brice, Esq., of this District, with a quantity of corn therein, was destroyed by fire. Mr. Brice states that it was unquestionably the work of an incendiary. There was no fire anywhere in the There was no fire anywhere in the vicinity of the barn, and Mr. Brice visited it only an hour before it was discovered in tlames.

A mongrel sheet, of Boston, says:
"The truth is, that we have not yet whipped the rebels enough." Well, poor ass, you have whipped the "rebels" enough to pauperize your own people. 20,000 men and women are daily fed on panper soin in Boston. In the whole North there are over 200,000 men and women ont of employment—whipped out of employment by this business of "whipping the Southern pages."

A cerdental Killing.—On Monday last, Malcolm Cameron, a seaman on board the brig Rosolind, lying at Accommodation Wharf, fell into the hold of that vessel, and sustained such injuries that he died at 20 clock yesterday morning.

[Charleston Courier.]

A persistent attempt has been made, by some one unknown, to murder Mr. Burdell, an engine road.

THE ELECTION IN NORTH CAROLINA. Gen. Canby yesterday issued an order in reference to the coming election in North Carolina, under the provisions of the Reconstruction Acts. Its details are similar to those of the order in reference to this State, recently published. The election is to commence on the 21st and end on the 23d proximo.

HUMAN MONSTROSITY-A CHILD HUMAN MONSTROSITY—A CHILD WITH THREE ARMS.—In Lincoln County, Tennessee, is a well developed white child of some ten years of age, walking, talking, eating, &c., in the most approved juvenile manner, with a third arm growing from its back, immediately between its shoulders. This arm, as it is called, is no flabby, useless excrescence as is common in useless excrescence, as is common in such freaks of nature; but a healthy, well-defined limb, with separate and appropriate bones, joints, muscles, etc., and applied by its little owner to a number of strange uses. In the centre of a plate of bone permanently uniting the shoulder blades, is the socket or first joint, permitting the limb to be moved freely in all directions, by means of several powerful and strangely complicated muscles. From the socket extends a triangular bone—or three small bones comuseless excrescence, as is common in bone—or three small bones com-bined—perfectly straight, and about eight inches in length, terminating in a short, flexible wrist, upon which closely fits the hand. This hand is somewhat in the shape and about the size of an ordinary funnel, with four finger-like weigetions at equal the size of an ordinary funnel, with four finger-like projections at equal distances about the rim. The fingers have claw-like nails, joints, &c., and possess the power of opening and closing as in the ordinary hand, their grip, however, being much more powerful. The palm, which seems already hardened by the respect to the power of the power of the power of the power of the powerful the power of the power already hardened by use, recedes into the wrist, leaving a small opening, from which constantly oozes a dark mucous discharge, entirely devoid of smell. At a word from its mother, the child lifted and carried about with its strange member a small chair, and other unwieldy articles; suspended itself from a walking-stick—in fact, went through evolutions which would put to blush a well-trained monkey. The limb, being perfect and harmonizing with the entire body, is nothing more nor less than a designed addition to it by its great Author, and this little boy's birth has created a blank in natural history.—Nashville Union.

The following are the names of the candidates nominated, at the meeting held on the 25th instant, for ing held on the 25th instant, for the purpose of hearing the new Constitution read, &c.: For Senate—Lucius Windbush For Representatives—Rev. GREENVILLE.—A meeting of the "Loyal Leaguers" was held at Mountain Creek, on the 20th, for the purpose of nominating State officers under the Reconstruction Constitution. The following nominations were made: State Senator—J. M. Allen. Representatives—S. Tinsley, Wylie Bishop, John Hyde, (whites,) and Wilson Cook, (colored.)

The Anderson Intelligencer says

The Anderson Litelligencer says that Mr. E. J. McClure, of that District, committed suicide by drowning himself in Seneca River, on the 21st instant. His mind had been affected for some days, and there is no reason to doubt that he ended his life in a fit of insanity. He was about sixty years of age.

PANKNIN'S HEPATIC BITTERS are rapidly gaining in public esteem. They are decidedly the most excellent Vegetable Tonic yet discovered for the cure of general debility and disorders of the stomach or liver. Those who have used them pro-nounce them to be all that is claimed for them. For sale by all druggists. April 12 fty Dr. C. H. MIOT, Agent.

NO HEALTH WITHOUT VIGOR .-The wear and tear of life tells upon us all more or less. What are we but mechines? The vital principle is the motive power that keeps the human engine in motion; but as beams, pistons, connection pipes, condensers and boilers wear out, so do organs, muscles, tissues and all the com-pound parts of that marvellous piece of

work called man. The mechanism of the body requires to be repaired and strengthened just as much as the mechanism employed to grind corn, or spin cotton, or weave cloth. Steam cannot drive a broken shaft, or impel a drum or a wheel that is out of gear; ncither can the vital force act through a paralyzed limb, or an inert organ.

Are you wearing out? Do you feel that any one of your organs—your stomach, liver, bowels, nervous system, or any other essential part of your organization, falters in its work? If so, repair the damage with the most powerful, yet harmless, of invigorants, HOSTETTER'S STOMACH BITTERS. Remember that debility is the "beginning of the end"—that the climax of all weakness is a universal paralysis of the system, and that sucl. paralysis is the immediate precursor of death.

Don't wait for disease to commit its ravages before you commence the strengthening process. Keep the whole body in a vigorous condition by preventing, as far as possible, the inroads of decay. Repair the waste of nature with nature's best tonic, Hostetter's Bitters.
