The physicians say there were born in this city in the month of August 546 children, and in September 790. Gentlemen, this will not do. How long do you suppose "the metropolis of the Western world" would retain its distinctive character as a highly-respectable city, if only 1,336 boys and girls are brought into its "breathing world" in two months—less than 8,000 per annum? Messieurs and dames, it is right that you should be informed that the registrar is greatly troubled at this exhibit, and, like "Little Oliver," asks for more.—New York Herald.

A man named Evans recently informed Col. Moore, the President's secretary, that one Himebur, the captain of a negro company, had asserted that Gen. Butler, during the impeachment trial, had given him a flag as one of a company of conspirators organized for the assassination of President Johnson. Evans, who is a brother-in-law of Himebur, says that his wife will testify to the truth of the statement.

When the women in the Madrid segar factories recently mutinied, they went in a mob to the office of one of the directors, demanding to be heard. He agreed to admit a committee of them, adding that they must be the three oldest and ugliest of the lot. The deputation was never sent.

SPECIAL NOTICES.

A MISERABLE SHAKER IS THE Victim to Fever and Ague. This tedious and enervating disease is, unfortunately, too well known to need a description. It is strictly a malarious disease, caused by exhalations from the soil, especially from marshes, swamps and newly cleared lands encumbered with decomposing vegetable matter. The chills is one of the most troublesome of maladies, as the patient, though he may not be confined to his bed, is incapable of action. The experience of years has demonstrated the fact that HOSTETTER'S STOMACH BITTERS is a sure means of fortifying the system against all atmospheric poison, breaking up the paroxysms and rapidly restoring the strength. Quinine, which has so long been the great remedy for chills, has been superseded by this powerful and harmless agent; while as a preventive it is unequalled, as its use will certainly exempt all who may live in unhealthy localities, from the ravages of this disease. Hostetter's Stomach Bitters is now among the most popular, and, at the same time, valuable specifics in the medical world. In recommending it to the public, we are fully conscious of doing them a great service, knowing, as we do, their many excellent qualities, and sure and speedy action in all cases where the disease is caused by irregularity of the digestive organs. As a tonic it is both mild and agreeable to the taste, and stimulating in its action upon the system.

"MANHOOD."—Another New Medical Pamphlet from the pen of Dr. Curtis. The Medical Times says of this work: "This valuable treatise on the cause and cure of premature decline shows how health is impaired through secret abuses of youth and manhood, and how easily regained. It gives a clear synopsis of the impediments to marriage, the cause and effects of nervous debility, and the remedies therefor." A pocket edition of the above will be forwarded on receipt of 25 Cents, by addressing Dr. Curtis, No. 58 North Charles street, Baltimore, Md. May 27 1y
