The Common Council of Chicago meate to-day to pass an ordinance allowing dummy engines on the street roads. The noted trotting horse Springfield Bay, died in Springfield, Mass. Such conduct, we learn from good anthority, has characterized some of the arrests recently made in this County.

We have little hope that anything, we might say could cause those who are prompting and encouraging this oppression to pause in the exercise of their unnatural pleasure, yet while we are permitted (no knowing how long) to enjoy the pure air of freedom, and the privi-lege of free speech, we feel constrained, as an humble advocate of right and a suppliant for justice, to enter our pro-test against such procedures as those under consideration. Justice is all we want, justice we have a birth right to, and that justice we demand. If there be those in our midst that are guilty of orime, we say punish them. We would not screen the perpetrator of any deed, be the orime high or low; but for the sake of justice and humanity, by all that is sacred, let the guilt be established by ruthful testimony not by hired duese manager and secondant; of the British North American Back was drowned, by the upsetting of a boat. It is a fact too patent to be successfully It is a fact too patent to be successfully controverted, that the arresting now go-ing on is for a four-fold purpose: First, for political effect; second, the veuting of personal hatred—the pouring out of pent-up spleen against certain individu-als, (of whom the number seems not a four) bird to correct a concertain individufew;) third, to create a general stampede; fourth, to let it be seen and feit that a mighty power—the strong arm of the Government itself—can be called to the aid, (or rather to do the dirty work.) of a revengeful spirit, and deal out the poisonous wrath thet lurks in the bosoms of a few unmanly, userupulous, or shall we say cowardly, persons who fancy that they have beau ill used. If

they hope by such tyrauny to force the innocent into a nean and oringing sub-mission to their nefarious designs-to extort false confessions and oriminations, they mistake the spirit of a proud and honorable though sorely oppressed people. They for once have reckoned without their host.

The ring-leaders of this oppression labor under another delusion, equally vain, if they hope for a general stam-pede. A few may "hide out," but we ening weather and rain. AFFAIRS IN LAUBENS. -The Herald, of he let, says:

We regret to announce the deaths of the following citizens of this County: Mr. Silas M. Bailey died on the 23d alt., at Greenwood, S. O., while on a visit at the residence of his son. Ho was an aged and highly respected citizen. Miss

tion with the recent deaths of Mr. James Copeland and wife, mentioned elsewhere, is as follows: While Mrs. Copeland was dying, a United States marshal went to the house of Mr. O. to arrest him. He was not taken away, however, at the time, and a second visit was made for a similar purpose. In the meantime, Mrs. O. had died, and the said officer found Mr. Copeland himself, on his second visit, in a dying condition. Death soon relieved the sufferer of all his troubles. Thus we see that not even the couch of the dying is any bar to the "red right hand of the law," and greedy cormorants for Government pap. Since our last issue, the following citizens of this County have been ar-rested by deputy United States marshale. The work goes "bravely" on: Capt. W. J. Leak, A. B. Byrd, A. M. Copeland, Jas. M. Clark, O. C. Ferguson, C. J. Workman, Elihu Cunningham, M. C. Cunningham, Robert A. Canningham, W. F. Cunningham, Augustus Wallace, W. L. Fowler, Drayton Barksdate, R. C. Watts, O. M. Miller, J. F. Bamage, S. P. Teagae. The above prisoners, who had been in juil for some time, were brought before 'Commissioner. Rankle, on last Wedneeday, and bailed in bonds greedy cormorants for Government pap. on last Wednesday, and bailed in bonds of \$5,600 each, to appear for trial at the next term of the United States Court, at Columbia, on the 4th Monday in this month. Hence, Mr. DeBerry's hotel at this writing is empty of military prison-ers. How long this will be the case, "nobody knows but Joseph."

THE HORSE MALADY. - There is a great deal being said in this city about the horse disease, whose abominable titles tre too numerous and outlandish to mention. There are some people who seem to take pleasure in foretalling its arrival, and circulating the amount of damage it will do to the poor equine, trade and commerce generally; while others throw out ominous remarks with a leer of the eye that are well designed to lead to the impression that they know more than they are willing to ex-plain. Any number of persons can be heard of who are said to have animals undergoing the malady, and that the reason why the afflicted beasts cannot be seen is because they are hid away in box stalls, and so enveloped in blankets as to make the object you are in quest of invisible. Our reporter has had conver-sations with a number of experienced horse dealers, two in particular, who have made the care and sale of live stock the business of their lives, and from neither one of these was he able to learn anything of the existence of the epi-zoolic, or any other name it may be designated by, in this city.

US MEN BADLY BURNED -The Goldsboro Messenger says a most distressing affair oconrred on Wednesday night last, he evening of the performance of John Robinson's Circus. There was an old well near the place of the exhibition, and while the people were leaving the pavilions, a negro woman walked into the well. Mr. Clark, of the circus em-ployees, jumped in after the woman. A large crowd collected around the spot, and Nicheles Ashe amother of the circus and Nicholas Ashe, another of the circos men, was pushed into the well. A large hamp, which had been placed near the well, was upset and knocked into the well. The woman was soon enveloped in a flame that destroyed life. The men

were badly but not serionsly burned. A colored man was also slightly burned. The woman was the wife of Silas White, and had no children. Mr. John Robinson, as soon as he heard of the heart-rending affair, called at the MessenA Card.

OPPOSITE THE OLD STAND,

NEW YORK, November 4.-Stephen Pearl Audrews has been arrested for complicity in the Woodhull-Claffin indeconcies.

The malady is abating, and it is believed it will not last more than a week.

At 12 o'clock to day the United States graud jury found indictments against Victoria Woodbull and Tennie C. Ciaffin, who were arrested on Saturday, charged with mailing indecent printed matter through the post. The prisouers were taken from Ludlow juil at 1 o'clock, and brought before Commissioner Osborne, who said the indictments relieved him of the necessity of holding an examination. The accused were visibly affected on hearing of the indiotments-Woodhull almost to tears, but Claffin looked some-what defiant. Counsel for the prisoners complained of the conduct of the Government in pressing the indictments and they were removed to jail in default of \$8,000 bail each.

The exodus of emigrants from Hamburg is of such enormous proportions as to cause serious uncasiness and alarm to verninent in pressing the indictments to cause serious uneasiness and marm to pending examination, as a most arbitrary proceeding.
