The news from Mexico tells of the existence of an extraordinary condition of affairs among a detachment of the Mexican army—that is, it would be extraordinary in any army not Mexican. The garrison of Coahuila mutinied on account of ill treatment and want of pay. The men deserted in a body. They dragged the guns of the fort out of position and discharged them. The mutineers were pursued by cavalry, but it may be that the cavalry will be made prisoners by the infantry, and be thus unable, if willing, to return. We may hear of a provincial pronunciamento at any moment.

The New York Commercial Advertiser pertinently says: "It is reported that many of our most respectable merchants are interfering with Gov. Dix for the commutation of Foster's sentence to imprisonment for life. Gentlemen who, in this era of crime, yield to such benevolent imbecility, shouldn't complain when it comes their turn to be 'brained' by some ruffian, while defending the ladies in their company from his insults."

The New York Commercial Advertiser remarks: "If you had avoided rum," said a wealthy though not intelligent grocer to his neighbor, "your early habits, industry and intellectual abilities would now have permitted you to ride in your carriage." "And if you had never sold rum for me to buy," replied the baehanal, "you would have been my driver."

A SAD AFFLICTION.—We are pained to record a very sad affliction in the death of two promising children—a son and daughter—of Mr. Thomas Gallaher, aged respectively eleven and seven years. They were attacked with meningitis on Sunday night, and the boy died on Monday night, and the girl on Tuesday afternoon.—Augusta Chronicle.

The engineers in charge of the experimental survey of the Greenwood and Augusta Railroad, have completed their survey on the Carolina side of the Savannah River, and are now engaged in running lines from some point near Furys Ferry to the city of Augusta, Ga.

The Swiss authorities beg to inform the Pope that they are not such calves as to be cowed by a bull, and that all bishops officiating in that part of the world will be expected to mind their eyes, if they don't mind the instructions of the Government.

A Missouri matron, with a taste for surgery, recently repeated the operation of Sam Weller's friend, who cut off his little boy's head to cure him of squinting, by amputating her baby's cranium to cure it of club feet.

The bill to provide for the purchasers of lands that have been sold for taxes was received from the House, passed and amended, was concurred in, and the bill was ordered to be enrolled for ratification.

A communication was received from the State Treasurer stating that about \$8,000 of old certificates had been presented for payment.

The Senate concurred in Mr. Hurley's resolution to make proper preparation for receiving the President of the United States, should he visit here, and the President appointed as the committee Messrs. S. A. Swails, J. L. Jamison and Robert Smalls.

Mr. Owens, from Committee on Finance, to whom was referred the House concurrent resolution to appoint a committee to examine the Treasurer's account, reported the same favorably.

The Roads, Bridges and Ferries Committee, by Mr. Cain, reported favorably a bill to establish a road in Colleton County.

The Senate passed to a third reading the bill to amend Chapter 50, Section 4, of the Revised Statutes.

The special order was called up, being a bill to charter the Charleston Water and Canal Company. A debate followed, in which a number of Senators participated.

The Senate concurred in a resolution to adjourn sine die on the 26th.

HOUSE OF REPRESENTATIVES.

The Committee on the Judiciary, by Mr. Meetez, reported favorably bills to require County Coroners to report to the Governor in capital cases, and to amend Section 3, Chapter CXI, of General Statutes.

Since the snow began to melt in Kansas City the teams are kept very busy hauling away babies that were thrown away during the recent cold snap.

FLOODS.

The Savannah River at Libon, on the road to Washington, Ga., was on Monday last, about thirty feet above low water mark—the water extending from bill to bill. Two cotton flat boats and some fifty bales of cotton, also rafts and floating timbers, were seen to pass at different times during the day.

At the same time Little River, at Calhoun's Mills, was in the mill and running about the stores and Captain D. M. Rogers' kitchen.

At Cade's Mill, on the same stream, the water was four feet deep at the foot of the bridge. The abutment of the bridge was entirely washed away.

The bridge and mill-dam at Searle's Mill, on the same stream, was washed away.

The bridge at Winterseat, on Hard Labor Creek, has been much damaged.

At Lowndesville, Rocky River was very high. The bridge at Young & Oliver's Mill, we learn, is impassable. The bridge one mile above, on the same stream, was also injured.

Along the Savannah, the heaviest loss was perhaps in cotton, which was scattered along the banks of the river awaiting shipment.

On the smaller streams, miles of fencing have been carried away, and vast bodies of low lands have been overflowed. [Abbeville Press and Banner.]

HIGH WATER—BRIDGES GONE.

For some ten days past we have had a very extraordinary amount of rain, which culminated in a regular flood on Saturday last. The streams being already greatly swollen, the very heavy rains Saturday and Sunday night have caused all the low grounds to be over-flowed and many of the bridges to be washed away.

The impassable condition of the water courses makes it impossible, as yet, to hear from many portions of our County, but we fear that great destruction has been done by the high water in all sections of the County. Various reports have reached us, but we prefer to have them better authenticated before publishing them.—Carolina Spartan.

DEATHS.

We learn that a son of Mr. Charles Teague died quite suddenly on Friday night last, of meningitis. He had been at work all the day before, and attended a social party the same evening.

Mr. Daniel Jones, well known as an efficient engineer, and at one time in service of the Greenville and Columbia Railroad, died at his residence in Helena, on Friday last. His death was caused by a complication of dropsy, liver complaint and dyspepsia. He leaves a family. He was buried with Masonic honors on Monday afternoon, at Rosemont Cemetery.—Newberry Herald.

BARN-BURNING.

On the night of Sunday, the 16th instant, Mrs. Emily Weeks, who resides near Manchester, in this County, had her barn and its contents entirely consumed by an incendiary fire. Thus the work goes bravely on. Widows and orphans lose their all by the hand of the cowardly mid-night incendiary, and nobody goes to the Albany Penitentiary for such foul deeds. [Sumter News.]

A colored man, named Sam Perry, shot and instantly killed his wife, at Burgaw, near Wilmington, N. C., last Monday. The murderer made his escape. Perry is about forty years of age. He is a native of South Carolina, having left this State with Sherman's army, and is dark complexioned, of medium size, and about five feet four inches high.

A CHANGE.—Guignard Richardson, Esq., on last Thursday, resigned the position of Intendant of this town, and at a meeting of Council, on the same date, A. W. Suder, Esq., one of the Wardens, was chosen by his colleagues to serve in that capacity for the unexpired term. Mr. Suder will, doubtless, make an efficient and acceptable Chief Magistrate. [Sumter News.]
