A visit to the asylum for the deaf, Springs, will well repay any one. It is an institution which, next to the Lunation Asylum, should be liberally instained by the State. Mr. N. F. His requests and directions are promptly complied with by the afflicted inmates; and they appear to entertain the greatest fondness and respect for him. It is train Springs, will well repay any one. It is Hon. fondness and respect for him. It is truly wonderful to see those bereft of sight walking about the premises, ascending and descending stairs, opening doors, closing windows, finding their own desks in the study rooms, etc., with as great facility, apparently, as though endowed with the greatest of all blessings, sight. One young man was asked to see if he could find one of the scholars, when he immediately started off, and after hunting through several stories of the build-ing, returned with the object of his One girl, whose father, mother, sisters and brothers are deaf and dumb, exhibited her skill in writing and arithmetic; and when asked by the principal if she knew the PHENIX, replied in the affirmative, with a pleasant nod and a rapid movement of the fingers. Lindsay H. Cromer, a young man of twenty-one years of age, and totally blind, is regarded as one of the best scholars in the institution. He can read with great repidity, write remarkably well, prove diffieth geometrical propositions, and is now studying Latin successfully. The blind pupils are particularly fond of music, and many of them sing and play well. They are quick and sharp, as evinced by one or two amusing instances. Oromer was playing the piano and sing-ing "The Lords of Oreation," and when he finished the enlogy on woman, he was asked whether he believed in the senti-ment of the song—if he "voted that ticket." His immediate reply was, he "was not old enough to vote at the last election." [He is just twenty-one.] [He is just twenty-one.] Isaac P. Tinsley, also blind, was asked to read a verse in the Bible, and a copy of the stored volume was handed to him he quickly ran his fingers over the raised letters heading the 84th Psalm, and added that he knew that by heart, and at our request, proceeded to recite it. When concluded, "we" put in, "Oh, I know a verse in the Bible by heart, too." "Yes," replied Tinsley, "I suppose it is 'Jesus wept!" The corn was acknowledged Superintendent Jillson, during a recent visit, asked a little six-year older a number of questions, which were satisfactorily answered. Among others, what was a quadruped. "An animal with four legs," was the reply. "Did you ever see an animal with more than four legs?"
"No, sir," was the instant response but auntie says she saw a calf with six legs in a show." Mr. Jillson was greatly amused at the apt reply. The institution is in a flourishing condition. The building is well constructed, with large rooms, broad passages, etc. One wing, however, remains incomplete, and as ap plications are being constantly made, present fifty-two inmates-many of them beneficiaries. Four teachers, with the principal, are engaged in the work of imparting instruction to the afflicted ones. THE CONGRESSIONAL BACK PAY .- Senator Robertson and Representative Wallace, of this State, put a different construction on the refusal of certain members of Congress to receive the increased back pay voted at the last session. They say that as mileage, stationery and some other expenses are to be deducted, that the members from Oregon, Colorado. Nevada, etc., would likely be in debt to the Government-one of them about \$1,000; while another would only be entitled to \$114, after the deductions are made; and that very few of the members would receive the full amount. As the Act, however, embraced increased pay for the President and other high officials, who have heretofore been too poorly paid, it was voted for. The voters may draw their own conclusions.
