This is the first in-stance since 1852 of a Conservative candidate being elected for that borough. The result, which was not altogether unexpected, caused great depression in the Liberal ranks. In well informed circles, it is accepted as virtually decid-ing the political compaign. It is almost a certain indication that the Conservatives will return to power after the ap-proaching general election, with a fair working majority. It is already stated, on good authority, that Gladstone will not seek re-election at the hands of his Greenwich constituents, and that he man. contemplates retiring finally from Parliamentary life.

OFF FOR THE PROMISED LAND .-- We understand from reliable authority that one day last week abont fifty negroesmen, women and children + passed np the Buncombe Road, on their way, as they said, to the Promised Land. It seems that these poor creatures, who hailed from the Southern portion of this County, had been so deluded by a negro preacher who claimed to be inspired and commissioned to lead them to the "Promised Land," that they hastily sold overything that they had, including their growing crops, and with their families took up the line of march under the leadership of this selfstyled Moses, for the land flowing with milk and honey. This new prophet told them that the land of Caanan was about 160 miles distant, but as far as our informant goes, he failed to locate it exactly. These "Zion Travelers," as they called themselves, will travel a great ways, wo fear, before they find the Paradise promised land.

FIRES .- We are sorry to chronicle another flagrant act of incendiarism, for the burning of Mr. Wallace Cline's stables, baru, & ... was a pure act of incendiarism. The fire originated in the very centre of the loft of the stables, amongst straw. Besides it was nearly 4 o'clock A. M. Also, another act of incendiarism occurred near Kinard's Turn-Out, the same night. The farily had gone visiting that evening at 4 o'clock, and were not to be home until next day, therefore, there was no fire on the premises. The fire originated in a house used as a workshop. At the first alarm, the house was falling in, therefore, nothing could be saved.
