Telegraphic-American Matters.

NEW YORK, August 14.—The Police Commissioners to-day adopted a resolution allowing the Legion of St. Patrik to parade with arms, as well as the Knights Templar, and will furnish a police escort.

Testimonials for O. S. Nichols, the mate, and for other officers of the ship General McClellan, from the British Government, for the rescue of the crew of the British bark Crusader, have been distributed by Collector Arthur.

John Schuler and Clarence S. Wayne, formerly salesman and traveling agent, respectively, for Eugene J. Jaired, jeweler, of St. Louis, have been arrested for stealing \$8,000 worth of property from him. They left his employ about two months ago to go into business themselves, and perpetrated the robbery at that time.

NEW YORK, August 15.—The New York World's special from London, 14th August, says it is stated upon the highest authority, that Count Chambord has announced his resolution to accept the Constitution for France prepared by the members of the Right of the Assembly and himself, and will rule both by the will of God and the good will of the people. A proclamation of the monarchy will be made in about six weeks.

A London letter of July 31, says: "Mr. Motley's friends have for some time known that his health was delicate, and will not be surprised to learn that he is confined to his hotel by a somewhat serious attack. He has had a slight paralytic stroke. It occurred as Mr. Motley was taking lady Margaret Beaumont down to dinner. His right arm suddenly fell powerless by his side, and the side itself was also somewhat affected. He was carried to his hotel in Dover street, and has not since left his room. The physicians agree in regarding the paralysis as by no means serious, nor likely to trouble him for any time. On inquiry, yesterday, it was ascertained that he had been going on favorably, with the exception of considerable neuralgic pain."

Mr. Mowbray Morris, for many years manager of the London Times, is exceedingly ill, with but little hopes of recovery.

WASHINGTON, August 15.—Yesterday afternoon papers came on time from New York. The rain has resumed.

BROOKLYN, August 15.—Three women—one of them the alleged widow of a murdered man, whose name and residence are unknown—have been arrested.

WASHINGTON, August 15.—The Treasury Department recently, in the re-examination of various documents, discovered one or two cases of alleged customs fraud, said to have been committed in 1867, and a few days ago sent Mr. Vanderbilt, of the department, to New York, for the purpose of examining into the case; the names of several custom house officers now in office having been mentioned in that connection.

The chief object of his visit to that city was to ascertain whether they were implicated in fraud or improper transactions. Mr. Vanderbilt, having returned to Washington to-day, reported to the Secretary that there was nothing whatever to implicate those officers in wrongdoing. This was the only matter which occupied his attention while in New York. His visit had no connection whatever with the removal of anybody, nor had any orders been previously issued for that purpose, or for examining into the conduct of officers and employees connected with any branch of the custom house.

CHICAGO, August 15.—The Times, of this morning, says the fact is one that need not longer be concealed, that cholera prevails in this city. There have been forty-two deaths from that disease.

PHILADELPHIA, August 15.—Hon. Wm. M. Meredith is seriously sick. Elias Darand is dead; aged eighty. He was born in France, and served under the first Napoleon as pharmacian. The herbarium, embracing 10,000 American plants, presented by him, occupies a gallery in the Jardin des Plantes in Paris.

NEWCASTLE, DEL., August 15.—Wm. Foster, a boy, was run over by a gravel train at noon, and killed.

WASHINGTON, August 15.—The Wasset investigation shows that the cause of the fire was unknown. It raged amidship. Only one (Mrs. Reed) was lost from the fore part of the ship. She jumped overboard. Nearly all aft were lost. The bow was in shallow and the stern in deep water. The evidence indicates that every officer was at his post. The death list has reached eighty-four.

Sr. LOUIS, August 15.—Advices from the Pawnee reservation, in Nebraska, say the Pawnees are preparing for war with the Sioux, in retaliation for the attack on them some days ago. They are said to have 600 warriors among

themselves, and have invited the Ojoes, Omahas, Yanktons and Ponces to join them, nearly all of whom have accepted the invitation; and at last accounts the braves of these tribes were either at or on their way to the Pawnee reservation. The Pawnees expect to muster 1,600 warriors, and propose to prosecute a relentless war against the Sioux.

BOSTON, August 15.—It is reported the underwriters will soon increase largely the rates of insurance throughout the city, because of the hesitancy of the city authorities in increasing the efficiency of the fire department. Four of the largest English insurance companies, it is understood, have received orders from the home office to suspend taking Boston risks for one month, in order to see what action is taken with regard to strengthening the fire department.

SARATOGA, August 15.—In the mile race for two year olds, the winner was Dublin; time 1.43 1/2. Yellow Craft won the three year stakes; the others forfeited.

In the mile and a half race, Allages Merodac was the winner; time 2.45 1/2.

NEW YORK, August 15.—John Grey, of Brooklyn, was beaten unseemly and left lying on the sidewalk last night, by his son, Peter. The old man was sent to the hospital. The son was arrested.

ALEXANDRIA, VA., August 15.—Wm. Jackson, convicted of the murder of his wife in February last, after having been twice respited, to-day suffered the extreme penalty of the law in the jail yard. Notwithstanding the rain, a large crowd gathered, and the houses and windows in the neighborhood were filled with spectators. Jackson made a speech of fifteen or twenty minutes' length, denying his guilt, but not offering his innocence. The fall of seven feet failed to break his neck, and he died of suffocation, after a severe struggle. He was attended on the scaffold by three colored ministers. His body hung twenty minutes before life was extinct.

WASHINGTON, August 15.—The returns of the Agricultural Department for the 1st of August indicate a general and somewhat marked improvement in the condition and promise of the cotton crop since the 1st of July. The average condition on July 1, 85.5; August 1, 91.80. These figures are corroborated by the explanatory notes of correspondents, which, with few exceptions, are much more hopeful in their tone than they were a month previous. The chief drawback is a widespread apprehension of insect ravages. In North Carolina, the lice are reported in four Counties. In Ohwan, old farmers say they never saw cotton lice so numerous before. In Camden, the cotton louse in many instances has almost ruined the crop. In Perquimans, cotton is almost covered with lice. The osterpillar is reported as having appeared in greater or less numbers in nine Counties in Florida and in five Counties in Georgia; also in Jackson County, a new enemy to cotton, a borer, which bores into the form and causes it to drop. The caterpillar worm, army worm, boll worm or web worm is reported in fifteen Counties in Alabama, in nine in Mississippi, in twelve in Louisiana, and sixteen in Texas. Paris green and other destructive agents are being experimented with, and in some instances, it is claimed, very successfully. These pests, at the date of reporting, had done vastly more at threatening than at execution; the cases being few in which they had as yet inflicted serious injury. Whether they will or not, depends upon the condition of the weather and other exigencies, which no reporter can now foretell. The crop, on the whole, is still somewhat backward, though in many localities rapid growth in July has brought it forward to the average advancement for the season.

Probabilities.—For the South Atlantic States, South-westerly winds, partly cloudy weather and local coast rains.

THE JEWS AND IRISH AKIN.—The Jewish Chronicle quotes the Belfast Morning News as noticing on more than one occasion Mr. Barnett's letters to the Jewish Chronicle in aid of his theory, that large numbers of Jews settled in Ireland, that Jeremiah is identical with the Ollam Fola, and the Irish Coronation Stone in Westminster Abbey is really Jacob's Stone. The Belfast Morning News adds, that an English lady of rare learning and attainments, Mrs. Wilkes, has in the press a learned and curious work, urging the affinity of the Hebrew and Celtic races. The journal adds, that there is no doubt as to an affinity between the old Irish language and alphabet and some of the Chaldean languages and alphabets, Hebrew or Phœnician.

The cottage of Wm. Penn, in Philadelphia, is used as a beer saloon.

SUPERNATURAL GIFTS.—From Mr. Ed. Hill, Deputy United States Marshal, who yesterday returned from a visit to Olney, Richland County, we learn some interesting facts connected with the recent manifestations of alleged supernatural power by Mrs. Powell, wife of Dr. I. A. Powell, of Olney, who will be remembered by many of our citizens as a prominent member of the twenty-seventh General Assembly. It appears that upward of a year ago Mrs. Powell declared herself possessed of supernatural gifts, but being a lady of unusual refinement and delicacy a manifestation of them was naturally repugnant to her. More recently, however, as she states, she was divinely instructed to put in practice her power, and claiming it to be entirely a heavenly gift, she hesitated not to comply with what she considered a direct mandate of the Deity. Her power, according to the report of the citizens of Olney, many of whom fully accord to her miraculous attributes, is chiefly manifested in the healing of the sick. This is reported to be accomplished by the imposition of hands, accompanied by prayer and repetition of Scripture, though the cure is not always instantaneous, but occurs at the time Mrs. Powell states it will be accomplished. It is further stated that so great is the confidence in her power that handkerchiefs are sent her, and they, passing through her hands, are returned, and effect the cure of the sick persons sending them. The effect of these several manifestations is said to be depressing upon the health of Mrs. Powell, who continues them, however, as she believes, in obedience to Divine direction.

Naturally these circumstances create quite a commotion in the vicinity, and even from places remote crowds are gathering to witness the cures. Mr. Hill states that on Friday last 112 persons had called to see Mrs. Powell, whose doors are now open to all who desire her ministrations, which are, of course, rendered gratuitously. Among those stated to be cured by her are several prominent citizens at Olney well known in this city. The entire circumstances are of that peculiar character hardly susceptible of explanation, more especially as the persons connected with them are of such character as to entirely preclude the suspicion of chicanery. It may be added that the subject of these Divine revelations, as she considers them, is not a believer in spiritualism, but a member in good standing of the Presbyterian communion.

THE IMPERIALISTS.—A Western paper, discussing the probability of Caesarism in the United States, thinks the steps of progression to a throne will be found, if found at all, in the following order: A third term for Gen. Grant; an election for ten years; an election for life; abolition of State Governments; the foundation of a permanent dynasty by popular vote, or what passes for such. The same authority classifies the advocates of empire in this wise: 1. The whites of the South. 2. The blacks of the South. 3. The Northern monopolists of all kinds, land-grabbers, subsidy-grabbers, salary-grabbers and tariff-grabbers. 4. The Federal office holders.

SHOCKING DEATH.—Mr. James Morgan, a well known lumber merchant in Albany, Ga., hearing a loud noise in his barn a few nights ago, dressed himself, and taking a kerosene lamp in his hand, went out to learn the cause. He remained so long that his wife became alarmed, and going out herself to see what detained him, found the horses trampling him under their feet and the horses and stables in flames. After the fire had been extinguished, the body of Mr. Morgan, burned to a crisp, was recovered.

SERIOUS ACCIDENT.—Joseph, twelve or thirteen years old, son of Mr. M. S. Bailey, of Clinton, Laurens County, while engaged at some duty in his father's saw mill, a few days since, was caught in a band of some of the machinery, which drew him violently through a small aperture through which the band passed, fracturing his left arm to such a degree that amputation was necessary; and also breaking his leg just above the ankle.

THREE ATTEMPTS TO BURN THE COURT HOUSE.—Within the last two weeks, three attempts have been made to burn the Court House at this place. In each instance the fire died out of itself before doing any considerable damage. The building is now guarded at night by watchmen. The supposition is, that the person who made the attempts wishes to destroy the records in the clerk's office.—Lancaster Ledger.

KICKED TO DEATH.—A colored man, named Sid Funderburk, working on the plantation of Mr. M. Sims, was kicked in the abdomen by a mule on Wednesday night last, and died on the following day.—Lancaster Ledger.

An inquest was held on Thursday, over the remains of a colored man, named W. Robinson, who died from dropsy, about fourteen miles above Charleston.

It is said that Colonel R. Barwell Blott still edits the New Orleans Picayune, but the locality of his editorial rooms is not generally known, least of all by the authorities.

We learn that Mrs. Lucy Pool, wife of Elihu Pool, died at her residence in Laurens County, on the 31st inst.

Robin McCrary, an aged and respected citizen of Laurens County, died at his residence on the 7th inst.

A thunderbolt recently killed a lightning-rod agent in Indiana. This seems like a stroke of practical justice.

The Indian peace policy of the Government is past finding out. We are now informed that in a cargo of Indian supplies sent up the Missouri, there were 2,000 stand of Sharp's rifles for the use of the poor red man. The friends of the noble savage are certainly earning his gratitude.

A colored company, styling themselves the "Royal Wagoner Male Cavalry," has been organized in Charleston—the first of the kind in the State. It numbers fifty-two members.

It is generous in the Ohio constitution makers to provide that the Quakers shall be exempted from military duty "in time of peace;" but it was not meant to be jocular.

Saratoga is already termed the American Baden-Baden; but it is hardly to be inferred that it is to become worse and worse in consequence.
