

Paris, September 12.—The Convention of Verdan by the Government will be completed tomorrow. There will be a great public rejoicing and a general illumination of the town in the evening.

Madrid, September 12.—The situation here and throughout the country is improving. Large portions of the reserves called out have been recalled. The Government is capable of putting 350,000 effective forces into the field. The command of the army of the North has been confided to Gen. Bobala. Gen. Turon will enter upon a vigorous campaign in Caledonia with 10,000 men. The resources of the Northern provinces have been exhausted by war and exactions of the Carlists. The necessities of life even have become scarce, and thousands of families are reduced to indigence. The Carlists keep to the mountains. Being without any cavalry, they do not dare to descend to the plains in any considerable number.

The express train which left Vittoria this morning for Madrid, while going at full speed, ran off the track. The cars were badly wrecked and many passengers killed, among them one general and several other persons of eminence. The cause of the disaster is unknown. Obstructions were placed by the Carlists yesterday on the railway from Saragossa to Pamplona and a train was thrown from the track near Tafalla. No one was killed.

London, September 13.—The Admiralty has advised of the capture of the sloop Daphne, one of the slave ships near St. Helena Island. There was terrible suffering upon the captured slave ships, from small-pox and emaciation.

Madrid, September 13.—Later intelligence of the accident, yesterday, to the express train from Vittoria for Madrid, shows that the disaster was more serious than at first announced. The number killed was seventeen and seventy wounded; scarcely a person on the train escaped uninjured.

All clauses of the bill increasing the powers of the Government have been adopted by the Cortes. It is reported that Don Alphonso, brother of Don Carlos, has left his command and returned to France. Several of the persons who took an active part in the insurrection at Alcoy have been tried and condemned to death. A report is current in Madrid to-day, that the Intransigent Deputy Galvez has placed crews, numbering in all 1,000 men, upon the frigate Numancia and steamer Fernando El Castolico, and that those vessels, thus manned, have sailed from Cartagena for Torreyay. Various bodies of Republican troops in the North are about to take united action against the Carlists. The Intransigents made another battle from Cartagena, yesterday, and met with more success than on the day before. They captured a number of miles and several pieces of artillery; they also burned the fascines of the works of the Government forces.

Paris, September 13.—Verdan was evacuated by the German troops, this morning. Immediately after they had left the town, the streets were filled with rejoicing residents, and numberless French flags were displayed from the buildings.

A CARD.
Our patrons will observe, by our advertisements, that we have closed all book accounts and other credits. We trust they will understand and appreciate this business rule of the house. It is not from any doubt about our customers paying us; nothing is further from the fact; but a desire to bring our business to a clean cash one, and on account of the poor health of one of the firm, who has great difficulty in keeping at business at all. We earnestly ask that our friends will construe this rule in the proper light, and where it costs them nothing, aid us in establishing a business regulation, so necessary to supplying our friends with cheap goods, and so essential to a firm who have endeavored at all times to get the good opinion and the sympathy of the public by fair dealing to all.
