In the course of an examination for the degree of B: A., under an examiner whose name was Payne, one of the questions was, "Give a definition of happiness," to which a candidate re-turned the following laconic answer; "An exemption from Pane."

The Indian Girl, by selling the finest OlGABS in the market, has established the name of "Queen of Luxury;" and now, as she intends to surpass also in CHEWING TOBAUCO, will be termed "Universal Favorite." The sensation caused by those who

Flour Made by the New Process.

STOVALL & HULL, Proprietors of

Stovall's Excelsior Mills, 253 BROAD STREET, AUGUSTA, GA.

AMONG late imprevements in the manufacture of FLOUR, by far the most important is the recently-discovered method of PUBIFYING MIDDLINGS. This wonderful invention is destined to revolutionize the entire Milling system in this country. By it a more thorough separation is effected between the outer husk and the farinaceous portion of the grain, and a Flour is produced of greater and more uniform purity and sweetness than can be made in the old style, and with no increase in cost. We have, at heavy expense, introduced this "NEW PROCESS" into our Mill, and sreprepared to offer Flour greatly improved in color and quality over corresponding grades made in the usual method.
