Weekly GLAZIER (48 columns)..... 1 50

These papers were the first issued in Columbia, in 1865, after its partial destruction, and have been regularly published ever since. They

CIRCULATE EXTENSIVELY

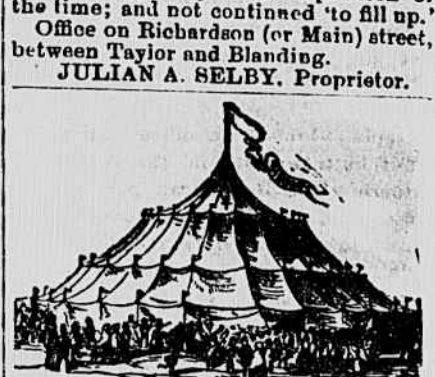

Throughout the middle and upper Counties of the State, and are excellent

MEDIUMS FOR ADVERTISING.

The PHOENIX has a greater circulation through the upper part of South Carolina than any other daily paper published in the State. Merchants and others will find its columns an admirable means of communication with the people of the entire up-country. Advertising rates are reasonable and equitable. Send advertisements marked with the number of times they are to be inserted, and they will be stopped upon the expiration of the time; and not continued "to fill up."

WILKIE COLLINS.—Somebody describes Wilkie Collins, the novelist, now in New York, as the living image of that old rooster whose figure-head adorned our fifty cent script for so considerable a period—the gentle Staunton, whose flowing beard and spectacles endeared the four-shilling stamp to us, and whose efforts in Mrs. Surratt's behalf should never be forgotten by any one who wears a petticoat!

The Mobile Register says of Victoria Woodhull's address in Chicago:

"Never in the history of the world—not even in the lowest days of Roman depravity, when poets and artists vied with each other in the dissemination of the most odious vices—has pen, pencil or chisel reached such a depth of obscenity."

The Editor of a new paper in Nebraska begins his introductory article with the following sentence: "The object in view in the establishment of this paper, is the procuring of means wherewith to buy bread and butter and good clothes."

It is estimated that the cost to England of the Ashantee war will be from £5,000,000, as a minimum, to £10,000,000, or even £12,000,000, as a possible maximum.

Flour Made by the New Process.

STOVALL & HULL,

Proprietors of
Stovall's Excelsior Mills,
253 BROAD STREET, AUGUSTA, GA.

AMONG late improvements in the manufacture of FLOUR, by far the most important is the recently-discovered method of PURIFYING MIDDINGS. This wonderful invention is destined to revolutionize the entire Milling system in this country. By it a more thorough separation is effected between the outer husk and the farinaceous portion of the grain, and a Flour is produced of greater and more uniform purity and sweetness than can be made in the old style, and with no increase in cost.

We have, at heavy expense, introduced this "NEW PROCESS" into our Mill, and are prepared to offer Flour greatly improved in color and quality over corresponding grades made in the usual method.

Liberal deductions made on car-load lots.
