

THE POPE AND EMPEROR WILLIAM—THE NAVAL ENGAGEMENT—BAZAIN'S TRIAL, NO. 20.

MADRID, October 14.—The brigades of Cartagena attribute the defeat of their squadron solely to the cowardice of Congress, who ordered a retreat against the wishes of the crews. They declare that they will not be ordered to command the fleet again. Their vessels sailed out of the harbor today for a second fight, but finding the government fleet prepared for action, retired.

LONDON, October 14.—The Garibais assert that in the battle of the 4th, Gen. Mariones lost 20,000 men, while their own loss was only 5,000.

Wm. E. Gladstone, member of Parliament, in a public speech at Dundee last night, urged an increase of intercourse with the United States. Every public man, he said, should visit the country.

PARIS, October 15.—The Gaulois estimates that the Bonapartists contributed one-third of the vote thrown by the Radicals in last Sunday's elections. Krantz, the Deputy from the Department of the Seine, has declared in favor of the republic.

On his trial, Bazaine reiterated his assertion, that he was not informed of MacMahon's advance until the 30th of August. In reference to this and several other points, he offered affidavits in support of his statements. The President coldly said they would be referred, with other affidavits, to the court when the time for examination of witnesses had arrived. The feeling is that today's proceedings have been unfavorable to Bazaine.

BERLIN, October 15.—The correspondence between the Pope and Emperor William is officially published. The Pope writes, on August 7, that the measures of his Majesty's Government aim at the destruction of Catholicism. He is unable to discover any measure for such severity; being informed and believing that the Emperor is averse to the increase or continuance of this harsh policy. He points out that measures injurious to the Christian religion only tend to undermine the Government.

He speaks frankly, as truthfulness to all is his duty, and all baptized, even non-Catholics, belong, in a certain sense, to him. He cherishes the conviction that the Emperor will adopt the necessary measures, and concludes by praying God to be merciful to the Emperor and himself. The German Emperor replies, on September 3, rejoicing at the opportunity to correct errors relating to German affairs. If the Pope was truthfully informed, he would be aware that the Government cannot act against the approval of the sovereign. The Emperor deeply regrets that a portion of his Catholic subjects (priests) have organized a party which is engaged in intrigue against the State, and disturbing the religious peace to the extent of open revolt against existing laws. He points to indications of similar movements in other parts of Europe and in America, and declares he will maintain order and law, so long as God enables him to do so, even against the servants of a church which he supposed acknowledged obedience to secular authority as the commandment of God. This doctrine of obedience, however, he says, is not to be taken literally.

He expresses the hope, but now the Pope has been informed of the truth, he will use his authority to terminate the agitation, which he declares before God, has no connection with religion or truth. He takes objection to the Pope's remark about non-Catholics, and, concluding, says difference of belief, however, should not prevent our living in peace.

MADRID, October 15.—Preparations to be made for a general attack on brigands by the land and sea forces of the national Government. The insurgents are completely demoralized.

LONDON, October 15.—£150,000 were shipped from Liverpool for New York today.

CINCINNATI, October 14.—Contribution boxes for Memphis at all the polls. It is supposed that \$2,000 was collected.

COLUMBUS, Ohio, October 14.—The returns are slow. Compared with the vote of 1872, the vote of forty-one townships and Akron, Youngstown and Marietta complete, show a Democratic gain of 756.

MEMPHIS, October 15.—Forty-one fever deaths yesterday.

PHILADELPHIA, October 15.—The Press estimates Gordon's majority at 18,000.

SHREVEPORT, October 15.—A gradual decline in the epidemic is reported. Thirty black vomit cases have recovered.

RICHMOND, VA., October 15.—In the Circuit Court of the United States, the case of Hancock vs. the New York Life Insurance Company was decided against the company, and a verdict rendered for \$1,371. This is a case of general interest in the South and to insurance men, as it settles the question of liability of Northern insurance companies for the amount of premiums paid before the war on policies which lapsed during the war. If the company refused application for renewal after the war closed, the verdict was for the premiums paid and the interest thereon. The company's agent here declined to receive premium from the plaintiff, because unable to communicate with the home office.

ALBANY, October 15.—The cashier in the Treasury Department of the State has been arrested, for a defalcation of \$300,000. Canning book keeping.

LOUISVILLE, October 15.—The manu facturers are discharging many hands. The Ohio Falls Car Company has suspended work. The banks are paying currency. Two imported yellow fever deaths here.

WASHINGTON, October 15.—Grant, with Generals Babcock and Belknap, have left for Toledo.

Andrew Johnson will be serounded to night. What he knows of the Mrs. Sarratt horror is expected.

Governor Shepherd, of the District, entertained the Evangelists at Willard's today. Upon his health being heartily drunk, the Governor welcomed them to the District in a characteristic speech of unusual elegance.

Probabilities.—For the South Atlantic States, North-east to South-east winds, with increasing cloudiness.

ROCKLAND, ME., October 15.—Miss Mink has been acquitted of the murder of Dr. Baker.

NEW YORK, October 11.—Affairs on the street are somewhat quieter this morning. Stocks opened feverish and went down 1/25 per cent, touching lower figures than at any time yesterday, but rallied sharply, recovering 1/25 per cent, but still very irregular. Union Pacific went down to 15 1/2—lower price than ever touched before. The only failure reported is W. S. Perry, a small operator.

Glisan, Son & Co., 47 Exchange Place, have suspended. They say their suspension was caused by the continued drain on deposits, non-payment of collections due the firm, and depreciation of securities. They have, therefore, concluded to pay no more checks until further notice. Drafts drawn against remittances received to-day and hereafter will be paid by the firm as trustees. W. S. Perry, whose failure was announced this morning, says his failure was caused by the heavy decrease in the price of stocks.

Stokes' trial is progressing, with the witnesses in the same order as before.

SAN FRANCISCO, October 15.—The State Grange of Patrons of Husbandry met at San Jose, yesterday. 100 Granges were represented.

BALTIMORE, N. C., October 15.—The entries to the State fair are now completed. There are 8,000 articles on exhibition—the largest ever known in any Southern State. The attendance to-day numbered 10,000. The trotting race for the purse of \$800 was won by McCall's Nelly Irwin, in 2:37. The running race, purse of \$150, was won by Dr. Stalon's Flora, in 1:58 1/2. The hurdle race, leaping eight hurdles in a mile, was won by Norwood's Jack Roniah, in 2:18. Every hotel and boarding house is crowded to overflowing, and still they come. Weston, the walkiet, walks to-morrow. Voorhees speaks on Friday.

MEMPHIS, October 15.—Sisters Magdalen and Maria, of Lazzaretto Academy, died yesterday afternoon. Rev. Dr. Carmichael, of Grace Episcopal Church, was attacked yesterday with the fever. The Howard Association reported three deaths. The Masonic Relief Association buried four and the St. Andrew's Society one, yesterday. The mortuary report of yesterday shows an increase of four in the total deaths—three from yellow fever and one from other causes. Total deaths fifty-one, of which forty-one are from yellow fever. From reports from all sources, the result reached shows an increase in the death rate, as expected, but a large decrease in new cases. Most of those attacked yesterday have been waiting on the sick and

laboring to the extent of physical exhaustion. It is safely concluded that the disease is abating slowly. Reports are very favorable of the cases on the hands of the different committees, and physicians say the fever is less malignant. A row occurred last evening, between some negroes and white people, about burning yellow fever bedding, in the vicinity of the sick. Mrs. Healegers, a white lady, was badly beaten by the negroes, who were arrested. There is trouble here in the municipal government, occasioned by the Mayor's appointing Chairman Zent, of the Common Council, instead of Chairman Ciullo, of the Board of Aldermen, to act as Mayor pro tem, during the Mayor's illness. Ciullo caused a writ of ouster to be served on Zent this morning, and is now in possession of the office. The affair causes a general feeling of disgust. It is evident thieves are looking to the city; several attempted robberies of houses and persons having been already detected. An interview with a member of the Odd Fellows' board of relief shows that the order has lost twenty-six members, four widows and eight children—thirty-eight deaths in all. From ninety-two patients, the order now have forty-four sick, including Mayor Johnson and Rev. James Carmichael. Thermometer at noon to-day 77, and there were signs of frost this morning. Warm weather has a favorable effect on the sick, but lessens the chance of checking the scourge. Few new cases have been discovered to-day. A man named Blackmore was detected yesterday defrauding the Citizens' Relief Committee of rations, and was this morning fined \$50 and sentenced to confinement in a dark cell for ten days.

MACON, GA., October 15.—The Georgia State Fair commences on the 27th, and continues six days. The grounds are the finest on the continent, and are in perfect order. Fifty head of fine stock are already on the ground. Many entries have already been made, and others are being made daily. There are prospects of the largest attendance ever in the South. The railroads from New York to New Orleans will carry passengers and goods at half rate. The city is making ample preparations to accommodate visitors. Many distinguished men from all parts of the country will be here.

MONTGOMERY, ALA., October 14.—Five yellow fever deaths in the past forty-eight hours; among them, Francis Widmer, late United States Internal Revenue Collector.

City Money, Building and Loan Association Money, Greenbacks and All! TO MECHANICS AND OTHERS! NO EXTORTION! NO DISCOUNTS!

WE desire to help the Mechanics and Laborers of the City by enabling the city and the other employers to pay wages during this monetary crisis, and thus continue employment. Below I publish a list of prices of leading articles in the Grocery line, which I will sell for cash in City Money, Building and Loan Association Money, or Greenbacks—making no distinction. It has been stated that City Money has been issued for the benefit of one or two merchants, and that persons trading at my store would have to pay the discount in the increased price of the goods. I will here state that I have made no difference in price, not knowing, when a customer was purchasing, whether the payment would be made in City Money, Building and Loan Association Money, or Greenbacks. "Mechanics," in his communication in the Union-Herald, of yesterday, says one or two merchants dealers and grocery receive it at par, and more than a dozen of our merchants are so receiving it. The issue of both classes of currency is intended as a relief for the laboring portion of our community, and not for the benefit of the merchants; and its judicious circulation will be a benefit.
