Butler in 1862, while he was Military Governor of New Orleans, came up for a hearing before Judge Woodruff, in the United States Circuit Court, to-day. Gen. Butler was present, and advised the United States Attorney, who defended the action on behalf of the Government. The counsel for Mr. Britton stated that, in 1862, a man bearing two drafts, drawn by the firm of which Britton was a partner, doing business in Natchez, Miss., was arrested while attempting to cross from the rebel lines into New Orleans. The drafts were then valueless, but General Butler compelled Mills, Judson & Co., who were agents in New Orleans for Britton & Co., to endorse them, and then got them cashed. He claims that Britton was not an enemy of the United States, and that his property could not, therefore, be confiscated by the agent of that Government. The case is still on.

Sprague, the information is furnished that a committee of investigation into the affairs of the A. & W. Sprague Manufacturing Company, appointed by the representatives of the city banks, will be prepared, at a meeting to be held to-morrow morning, to make a report, which, it is thought, will be highly satisfactory to the creditors of A. & W. Sprague and Herit Sprague & Co. A plan will be presented, at a meeting to-morrow, accompanied with a detailed report of the situation of the firm, which will, it is believed, if carried out, render the embarrassment of A. & W. Sprague and Herit Sprague & Co. of temporary duration.

NEW YORK, October 30.—The failure of Herit Sprague & Co. caused a heavy decline in values on the Stock Exchange and depression outside. The restoration of confidence previously going on has received a check by this event, which can only be looked upon as a public calamity in the present condition of affairs. The failure of the Bank of England directors to advance their rate of interest to day caused a decline here in both gold and foreign exchange. Fair activity in railroad bonds, at lower prices. Stock market opened steady, but soon became weak, and continued to decline until the 1 o'clock board, when an upward reaction set in.
