HAYANA PAPERS BELIEGENT—SPANISH CABINET—SOME MEETING BETWEEN SICKLES AND CASTELLAR, A. C.
HAYANA, November 21.—Santiago advices to the 16th have been received. Nothing important since the 12th, except the sailing of the Virginia for Havana.
PARIS, November 22.—The Cabinet will probably be re-organized to-day. It is understood that the Duke de Broglie, Minister of Foreign Affairs; Magne, Minister of Finance; and Desseign, Minister of Public Works, will remain.
LONDON, November 22.—Special despatches agree that the recent interviews between Castellar and Sickles was stormy—Sickles barely escaped mobbing.
HAYANA, November 22.—The *Diario* says we do not consider it within the bounds of justice or reason to war should result from the capture of the Virginia and its legal consequences, but if the conflict comes, let us imitate the example of our ancestors and make the Spanish race in Cuba the admiration of the American hemisphere. The *Voz de Cuba* believes in a diplomatic settlement, but praises activity in repairing the forts.
MADRID, November 22.—Under arrangements with the British Minister, General Sickles stopped the preparations he was making to leave Madrid.

ATLANTA, November 21.—Owen Lynch, book-keeper of the State Road, was killed by a switch engine to-day.
NEW CANAAN, CONN., November 21.—Mrs. Jos. Sillock, a widow, owning and occupying alone, a small place in this town, was brutally murdered this morning, with an axe, her clothing saturated with kerosene and the body nearly consumed, and the house was on fire when discovered. An axe, with blood and hair, a small piece of skull and brains and an empty kerosene can were found in the room with a large pool of blood on the carpet and floor. A hole had been burned through the floor, through which the charred remains of the body had fallen into the cellar. The skull showed two cuts with the axe. No suspicion, so far, rests on any one. No motive can be conceived of except plunder. The house had been ransacked.
WASHINGTON, November 21.—It is still unlikely that other than precautionary measures will be taken until Congress acts. While the President seems to be in accord with the indignation of the people, he will do nothing to place the country in a false position before the world. A leading Senator who had a conversation with the President to-day, has no doubt that when Congress meets, the public will be satisfied that prudence, combined with a due regard to our national honor, has been observed by the Executive Department of the Government.

WASHINGTON, November 22.—In a dispute over the price of sawing wood, a negro fatally wounded an Irish woman with a pistol.
It seems not to be generally known that there have been preparations going on, under the direction of the Secretary of War, for placing our arsenals in condition to supply the wants of an army in the field, in case of war, and looking to the condition of the armament of our fortifications, for the successful defence of our harbors against a hostile attack by the iron-clads. The ordnance department of the army is at this moment in most active preparation for a state of war, and is ready to supply an army with entire equipments of war material, including the most approved breech-loading arms and field and siege batteries of artillery, with every kind of ammunition. The telegraph has been vigorously used, urging forward every preparation to the extent of ordnance appropriations, and ordnance officers are fully alive to the gravity of the occasion and to the necessity of ample preparations to meet all demands, should war be the result of our present complications; while, from the nature of the case, the navy had to take the active initiative. The War Department is fully up to the crisis in quiet preparation for the future.

Probabilities.—For the South Atlantic States, North-easterly and South-easterly winds, cloudy weather and rain.
St. John's, N. F., November 22.—A despatch says the Telegraph Cable Steamer Robert Lowe was lost near St. Schott's, St. Mary's Bay, on Wednesday morning. The chief officer and two boat's crews were saved. The captain's and two other boats are missing. The tug steamer Cabal has been despatched to assist the missing boats.
New York, November 22.—4,000 Germans at Germania Hall, last night, expressed sympathy for Cuba, and a rigorous policy towards Spain. The following are the resolutions adopted, which are intended to be laid before Congress at the opening of the session:
Whereas, the people of Cuba are not only in the same, but in a much worse condition than the people of the United States were at the time of the declaration of their independence, the Spanish Government, in allowing, under the barbarian rule of so-called Spanish volunteers, the perpetration of most terrible cruelties and outrageous deeds of violence toward the inhabitants of the island of Cuba, in defiance of humanity and civilization; and whereas, these barbarians, who, it appears, are independent of the Spanish Government, trample alike upon laws and usages of humanity and civilization, insult our flag on the open sea, and incarcerate and murder our citizens; therefore, be it

Resolved, That we ask the Government of the United States and Congress, in the name of humanity and

civilization, to the end that steps may be taken to prevent their repetition, to accord to the Cubans, now fighting for their independence, the rights of belligerents, and, as soon as possible, to acknowledge Cuba as a free republic.
Resolved, That we further ask the Government and Congress of the United States to demand of the Spanish Government in Madrid, as well as of the authorities of Cuba, full satisfaction for the insult to our flag and for the cruelties committed by the Cuban volunteers, and to enforce these demands with all the means in their power.
A Georgian, named Thomas Henderson, was robbed of \$6,000 and valuable documents in a street car.
CHICAGO, November 22.—Garnier takes the first prize; Wassey second; G. Dion third; Daly fourth, and J. Dion fifth.
NEW ORLEANS, November 22.—An enthusiastic mass meeting of the friends of Cuba was held to-day. The resolutions express admiration for the devotion and sacrifices of the Cubans during the five years contest. The Virginia tragedy was denounced as utterly outrageous; the Monroe doctrine was reasserted, with pledges of support and condolence for the families of the victims of the recent butchery.
New York, November 22.—A statement is contained in a letter from Havana that on the night of the 7th inst., when the news of the Virginia reached Havana from Santiago, the Spanish volunteers, in fiendish exultation over their triumph, visited the widows of the Masons shot in 1868, and brutally outraged the helpless women; in their struggles, four were killed, seven have since died, and several are in such a dangerous condition that they cannot possibly recover. A petition circulated in this city is signed generally by the Masters of the Masonic Lodges in New York and the Past Masters of Lodges residing here, calling for an emergent session of the Grand Lodge of the State to take such action as may be necessary. Similar action on the part of the Masonic fraternity is taken in New Jersey and Massachusetts.
New York, November 22.—Tweed was brought into court this morning, for sentence. An immense crowd filled the corridors and room. Tweed's counsel is arguing the motion for a stay of judgment. His sentence is twelve years in the County jail and \$12,000 fine.
The steam tug James Cook sunk off the highlands. Capt. Dickens, the fireman and a sailor were carried to sea. The others were saved.
From the correspondence of the *El Cronista*, it appears that after the British Vice-Consul found his efforts to secure a postponement of the shooting of the persons claiming British citizenship to be in vain, the British Commodore at Jamaica took the matter in hand, and telegraphed the following to the Governor of Santiago de Cuba: "In the interests of friendly relations between our respective Governments, I beg you to delay the execution of alleged British subjects, until the Captain of the Niobe can communicate with you." Barriel replied: "I do not possess authority to accede to the petition you send me. The law must be fulfilled." Consequently, the men claiming British citizenship were executed.

The Powhattan sailed for Key West, with the Manhattan in convoy.
Judge Blatchford has postponed the order citing Jay Cooke & Co. to show cause why they should not be declared involuntary bankrupts for two weeks.
COLUMBUS, GA., November 22.—Tonight, one of the largest meetings ever held in this part of the South gathered to express indignation at the late Spanish atrocities. Resolutions of a very bitter character were adopted. Intense enthusiasm was manifested.
St. Louis, November 22.—A prairie fire in Kansas burned the town of Olivet. Much property has been destroyed.

FLEEING FROM THE STATE.—We print with pleasure the letter of "Censor," but we are not yet prepared to admit that our case is so bad that it is either necessary or wise for hale, hearty and intelligent citizens of South Carolina to go to Texas to live. There is plenty of work to do here. And we say frankly, that, whenever the white citizens of the State realize their power and use it, they can control the government in its every branch. This could have been done at any general election held since the war, had the whites been ready and resolved to meet the enemy with his own weapons. It can be done at the next election, if the people will stand together and act together. Very few citizens of South Carolina have gained anything by emigrating. Apart from that and in any event, we had rather stay here to help to save the State, than go elsewhere, with the hope of saving ourselves.—*Charleston News.*

THE STAMP DUTY ON MEDICINES.—The pharmacologists of Baltimore are agitating the question of the removal of the stamp duties on medicines. They propose to hold a meeting and petition Congress to abolish the use of stamps on medicines entirely, or, if that cannot be effected, to obtain the repeal of the law so far as it affects all except proprietary medicines, or some similar modification of the law. They claim that as the stamps add to the cost of medicines, it falls upon the purchaser, many of whom are poor, and the policy of the tax laws ought to be to relieve all such of their weight.
COURT PROSPECT.—In the House, on Thursday, the 13th, our able representative, Mills, introduced a joint resolution authorizing the Sheriff, Clerk of Court and County Auditor of Laurens County to draw a jury for said County. It would be something of a novelty for the sleeping walls of our "Temple of Justice" to be roused from a nap of more than three years, by having a court. We know not which would be the more welcome sound, that of a circus horn or uncle George Moore vociferating "O, Yes!" at the Court House door.—*Laurens Herald.*

Despite the panic, the hard times and their own financial troubles, Amasa Sprague was married on Wednesday last. He showed a true spirit of economy, though, in not going out of the family for a wife. He married his cousin.

A few days since there was not a single prisoner in the County jail of Anglesey and Beaumaris, in Wales. In consequence the gates were thrown open and a white flag was hoisted. The County has a population of 52,000.

THE END OF GREAT EXPECTATIONS.—The *Monroe Advertiser* explodes, through a letter from Mr. Judah P. Benjamin, the great expectations of Mrs. Campbell and Mrs. Chambers, as well as several parties in Augusta. There is no French fortune at all for them, and the many millions of money that seemed so secure have evaporated like mist. Mr. Benjamin says these ladies have been "duped by a swindler." Who is the swindler? He deserves to be whipped around the world.
Delays are dangerous. When a marriage has been agreed upon and the day of execution fixed, it is running a great risk to postpone the ceremony on account of the weather. Four times did Mrs. Peru, of Delta, Iowa, adjourn her daughter's wedding because when the happy day came round it rained. At last dawned a sweet, calm and clear morning, and nothing was wanting save the bridegroom. Worn out by delay, he had changed his mind and deserted the maiden Peruvian.

The Postmaster-General has notified the postmasters throughout the States and Territories that on and after January 1st, 1874, the fee on registered letters, in all cases, shall be eight cents in addition to the regular postage, to be fully prepaid by stamps of the regular aggregate value, and duly canceled at the mailing office.
One of the Japanese students at Yale was accosted by a sophomore the other day, with, "What's your name?" The gentleman from Japan answered politely, giving his surname. "Oh," rejoined the questioner, "you heathens don't have but one name, I see!" "What was the first name of Moses?" was the reply.

An English paper complains that the habit of flourishing manufacturers, brewers, bankers and iron masters purchasing Scottish estates is demoralizing Scotland, and all old hereditary chieftains are disappearing as totally as the English yeoman, and the clansmen are being disunited of their rights in the soil.

A SPANISH VESSEL.
REGARDLESS of the power of the United States, has seized upon her steamer, torn down her flag, butchered her subjects, and exultingly boasts of the act. The Indian Girl, regardless of expense, has seized upon an opportunity to establish an exclusive Cigar Store, torn down the barrier that heretofore kept smokers from getting good Cigars, at low rates, thus protecting the subjects of Talascanda, (the swaying weed,) and now proudly defies all competition. Should a fleet make its appearance OUTSIDE OF CHARLESTON BAR, The sensation caused in that city would compare with that caused in Columbia by the appearance of those five cent Cigars, and should the news be sent forth that they are BOMBARDING FORT SUMTER The country would thrill with excitement as the bosom of every smoker does with joy when he hears that those celebrated Manila Cigars are now sold at ten for one dollar, and other imported goods in proportion. Get a supply for Sunday's smoking. Nov 22

"Vox Victis."
IN the present excited state of the advertising world, we scarcely know how to address our friends. "Unprecedented Rushes," "Enormous Increase of Biz," "ad captivandum" cigar pulls, a liberal profession of superlatives, together with the quietly-whispered-in-your-ear assurance that it is astonishing how the young men stand up to the grave demands upon their physical endurance—really have left our modest style in the shade. We have, however, no desire or love for the sensational. "Water always finds its level," and purchasers of 10 cent hams and cooking butter vamped under the name of "Gift Edge," soon find their way back to where the good goods only are kept; and where no promotions are made with a not meant to be performed. Our stock is full, our business fair, (not unprecedented,) terms are cash, and our goods are up to the standard we have always maintained. We can promise no more. Verbum sap.
