TO TELL A HORSE'S AGE.—The following is said to be a sure test of a horse's age: After a horse is nine years old a wrinkle comes over the eyelid, at the upper corner of the lid, and every year thereafter he has one well defined wrinkle for each year of his age over nine. If, for instance, a horse has three wrinkles, he is twelve years old. Add the number of wrinkles to nine and you will always obtain his exact age.

The editor of a Minnesota paper has a buffalo robe which was once the property of the Sioux chief, Son of the Sun, whereon is pictured all his battles, his scalps and other trophies. He is going to use it as a means to frighten delinquent subscribers.

One of the most popular preachers in Wisconsin preaches in a pair of Scandinavian basswood shoes, on account of the hard times. He sings "How firm a foundation," with resistless unction, and saves more soles than ever.

The Singer Still Triumphant!

VALUABLE IS

THE WORLD'S AWARD:
As shown by sales—proved by sworn returns to the owners of the principal Sewing Machine Patents—which last year amounted to 219,758 Machines, nine out of ten of them being for family use. This is over 45,000 more Sewing Machines than were sold by any other company during the same period, and over one-quarter of all the Machines sold in 1872. These enormous sales are owing to the long-tested merits of the SINGER Machines, which meet the wants of the public in superiority and simplicity of construction, and capability for great variety and excellence of work.

Flour Made by the New Process.

STOVALL & HULL,
Proprietors of
Stovall's Excelsior Mills,
253 BROAD STREET, AUGUSTA, GA.

AMONG late improvements in the manufacture of FLOUR, by far the most important is the recently discovered method of PURIFYING MIDDLINGS. This wonderful invention is destined to revolutionize the entire Milling system in this country. By it a more thorough separation is effected between the outer husk and the farinaous portion of the grain, and a Flour is produced of greater and more uniform purity and sweetness than can be made in the old style, and with no increase in cost. We have, at heavy expense, introduced this "NEW PROCESS" into our Mill, and are prepared to offer Flour greatly improved in color and quality over corresponding grades made in the usual method.
Liberal deductions made on car-load lots.
