TORPEDOES .- The approaches to ou harbors are to be protected by torpe does. The engineer department of the navy will at once prepare torpedoes with the needful electrical instruments and wires, &c., to be placed at proper points wires, &c., to be placed at proper points along the coast. It is believed, too, that our torpedo boats will do splendid service at ses, when called upon to prove their destructive power. In the late France-Prussian war, the splendid navy of France could do nothing along the German sea-board, on account of the terrible torpedoes with which the Germans had lined all the approaches to their harbors and coasts. We are far ahead of Spain, and even of Germany, in this tremendous weapon—the tor in this tremendous weapon—the tor pedo. It is an American invention. [New York Herald.

Pratt's Astral Oil ABSOLUTELY SAFE.

Perfectly odorless. Always uniform. Illuminating qualities superior to Gas. Burns in any lamp, without danger of exploding or taking fire. Manufactured expressly to displace the use of volatile and dangerous oils. Its safety under every possible test, and its perfect burning qualities are proved by its continued use in over 300,000 families. Millions of gallons have been sold, and no accident-directly or indirectly-has ever occurred from burning, storing or handling it. The immenso yearly loss to life and property, resulting from the use of cheap and dangerous oils in the United States, is appalling. The Insurance Companies and Fire Commis-

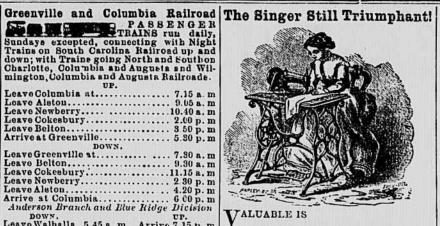

sioners throughout the country recommend the ASTRAL as the best safe-guard when lamps are used. Send for Circular. WM. B. STANLEY, Columbia, has a complete stock at all times. Oct 9 Smost
