The city is gaily decorated, and it will be illuminated to-night, Saturday night and Sunday night. On Monday, a grand military review will take place in front of the winter palace. DESTRUCTIVE FLOODS IN THE NORTH-WEST.—BRIDAL ENGINEER—THE HOG CROP—COAL TROUBLES, &c., &c. NEW YORK, January 23.—The meeting of the presidents of the different coal companies have agreed as follows for this year: The trade will open on the first of March at a voyage advance of fifteen cents per ton, and will be afterwards advanced each month to the end of the season on the following scale: April, five cents; May and June, ten cents; and July, August, September, October and November, fifteen cents. The general plan is substantially that pursued by the companies last year. In regard to the present trouble in the mining districts, it was impossible to forestall the result, as the miners are swayed by selfish leaders and totally unreasonable when once bent on a particular course. The last strike, while gaining nothing for the men, cost the companies millions of dollars, and impoverished the whole mining population. Serious mischief might possibly be done by the agitators, who are now trying to organize a National Miners' Union. NEW YORK, January 23.—The jury in Denon Howard's case returned a verdict of guilty, with a strong recommendation to mercy, after one hour's absence from the court. The prisoner was remanded for sentence. Howard was accused of using counterfeit match stamps to defraud the Internal Revenue Department. CINCINNATI, January 23.—Andrew Miller, agent of the Atlantic and Great Western Railroad, was stabbed in the abdomen and killed, to-day, by M. Merkel, a druggist doing business in this city. NEW YORK, January 23.—The steamer South American, from Rio Janeiro, via St. Thomas, brought as passenger, ex-President Baez, of St. Domingo. Telegraphic communication by cable laid along the coast has been completed between Rio and Para. The line is to be rapidly extended from Rio to the river Plateau on the South, and from Para to the island of St. Thomas on the North. TIRTON, OHIO, January 23.—The water is higher than for twenty-five years. Dwellings and farms are inundated. DES MOINES, IOWA, January 23.—By compromise, the Legislature, which is Republican, secured the Speaker. The Anti-Monopolists have the other officers. The Anti-Monopolists have the Chairmanships of all the investigating committees. CINCINNATI, January 23.—Pat. Naughton, locomotive engineer, was convicted in the police court, to-day, of throwing a live dog into a locomotive furnace and burning him to death. He was fined \$100 and sentenced to the work house for six months. The case was prosecuted by the Society for the Protection of Cruelty to Animals. CHICAGO, January 23.—The Daily Commercial Bulletin, of this city, will publish, in its issue to-morrow, the third annual statement of the packing of the West; returns from 389 points and 21 additional estimated give the total packing of hogs to date at 4,700,000; estimated for the season 5,804,000; packed at these points last season 5,526,000; the hogs packed this season are equal to 4,774,000 of last year's average weight; estimated decrease in average weight is ten per cent.—showing a decrease of 175,000,000 in the aggregate weight; decrease in production of hams, shoulders and sides is estimated at 100,000,000 pounds; falling off in yield of lard estimated at seven pounds per hog—being an aggregate decrease of 46,000,000 pounds, equivalent to 143,000 tierces. WASHINGTON, January 23.—The House is engaged on the West Virginia contested election case. In the Senate, Sherman, from the Finance Committee, reported favorably on a bill to pay the bonds of the Louisville and Portland Canal Company,

with two amendments. It was placed on the calendar. The Senate Committee on Commerce agreed to report favorably on a bill giving the Secretary of War full control over the channels at the mouth of the Mississippi River, now being dredged by the Government. The Secretary is authorized to prescribe regulations, a violation of which shall be punished by United States Courts by fine, etc. Senator West, the author of the bill, Senator Windom and Representative Steiner, were before the committee and explained the necessity of the passage of the bill. They represented that the Tow-boat Association does everything in its power to prevent the improvement of the channels, as its business consists in towing vessels over the bars, and that this association has actually obstructed the channels by sinking vessels in them. WASHINGTON, January 23.—In the House, many private bills were reported, and referred, under the new rule, to the Committee of the Whole. The West Virginia election case was argued without action, when district business was resumed. A session will be held to-morrow for general debate. In the Senate, Wright, from the Finance Committee, reported unfavorably on petitions asking the appointment of a commission to investigate as to the traffic and manufacture of alcoholic liquors; a House bill to accomplish the object having already been reported upon favorably. The bill to pay the bonds of the Portland and Louisville Canal passed. The post route bill was passed. The Committee on Privileges and Elections will consider to-morrow the new mode of electing the President. ABOUT BURTONS.—It is bad enough to see a bachelor sew on a button, but he is the embodiment of grace alongside of a married man. Necessity has compelled experience in the case of the former, but the latter has always depended upon some one else for this service, and fortunately he is obliged to resort to the needle himself. Sometimes the patient wife sealds her right hand, or runs a sliver under the nail of the index finger of that hand, and it is then the man clutches the needle around the neck, and forgetting to tie a knot in the thread, commences to put on the button. It is always in the morning, and from five to twenty minutes after he is expected to be down in the street. He lays the button exactly on the site of its predecessor, and pushes the needle through one eye, and carefully draws the thread after, leaving about three inches of it sticking up for the lea way. He says to himself: "Well, if women don't have the easiest time I ever saw." Then he comes back the other way, and gets the needle through the cloth well enough, and lays himself out to find the eye, but in spite of a great deal of patient jabbing, the needle point persists in backing against the solid part of the button, and finally, when he loses patience, his finger catches the thread, and that three inches he had left to hold the button slips through the eye in a twinkling, and the button rolls leisurely across the floor. He picks it up without a single remark, out of respect for his children, and makes another attempt to fasten it. This time, when coming back with the needle, he keeps both the thread and button from slipping by covering them with his thumb, and it is out of regard for that part of him that he feels around for the eye in a very careful and judicious manner, but eventually losing his philosophy, as the search becomes more and more hopeless, he falls to jabbing about in a loose and savage manner, and it is just then the needle finds the opening, and comes up through the button and part way through the thumb with a celerity that no human ingenuity can guard against. Then he lays down the things, with a few familiar quotations, presses the injured hand between his knees, and then holds it under the other hand, and finally jams it into his mouth, and all the while he prances about the floor and calls upon Heaven and earth to witness that there has never been anything like it since the world was created, and howls, and whistles, and moans, and sobs. After awhile, he calms down, and puts on his pants, and fastens them together with a stick, and goes to his business a changed man.—Danbury News.

THE STATE LEGISLATURE. FRIDAY, JANUARY 23, 1874. SENATE. The Senate assembled at 12 M. A House concurrent resolution for the appointment of a Special Committee to wait upon Hon. R. B. Beecher gets \$1.33 a minute when he lectures. This is most satisfactory as preaching.

A TOUCHING PRESENT.—We rejoice to learn that the Cranberry Growers' Association of New Jersey has presented to Queen Victoria two packages of cranberries, with receipts for the preparation of them according to the American method. Such acts of courtesy naturally tend to cement more strongly than ever the friendship of the two countries. When we find republicans who are willing to forget the differences which estranged us from Great Britain in the past, and to overcome their natural hatred of monarchs and monarchies to such an extent as to send cranberries to a woman who occupies the throne of George Third, we may reasonably feel that we are approaching the time when the common brotherhood of man will be fully recognized. We have long wondered how we should ever be able to repay England for what she has given us in laws and literature; but the problem now approaches solution. New Jersey, in return for Blackstone and Shakespeare, offers cranberries and a recipe for tarts.—Philadelphia Bulletin.

There are forty new houses in contemplation of building in Rook Hill during the present year. This looks like progressiveness. From the 1st of September to the present date, nearly 9,000 bales of cotton have been shipped from Rook Hill. A number of immigrants are daily expected in Charleston. Positions have been secured for a majority of them. The South Atlantic telegraph has been completed between Rio and Para, and is being laid to the Plata.

WHO IS COL. FISHER?—A telegram informs us that the President has tendered the Consulate at Beirut, Egypt, to "Col. Fisher, of Augusta, Ga." No such person, so far as we can learn, lives in this city. Col. George Fisher, a Federal officer, at the conclusion of the war, built a saw mill in the upper part of this County, and he is probably the gentleman indicated. [Augusta Constitutionalist.

There are many trivial annoyances incident to the process of living that never, never fail to interest the sufferer. This copious reflection was brought about by having observed the agony and perspiration into which a person is plunged when he discovers, all too late, in church or out in society, that he has forgotten to bring a pocket handkerchief along with him. The Washington Light Infantry, of Charleston, held an enthusiastic meeting, on the night of the 22d, during which the "military" and "charitable" societies were merged into one organization. Capt. Porter delivered a stirring address. A double framed tenement house, the property of W. C. Keith, was consumed by fire in the town of Walhalla, on Monday morning, the 19th inst. The fire was discovered between 4 and 5 o'clock in the morning.

SMOKING ON SUNDAY PROHIBITED. SUCH is certainly the case, so far as the "INDIAN GIRL" is concerned, unless you get a supply of CIGARS on Saturday night. It being the wish of this maid that her customers should not be rendered unfit for their proper duties on the Sabbath, by having their throats upset and orifices disgusted by the disagreeable odor of inferior Cigars, she offers to all who give her a call every Saturday night, inducements never before heard of—hoping that every one will avail themselves of the extraordinary opportunity to save money and secure good Sunday smoking. Seegers vs. Cincinnati Beer. THE Cincinnati Gazette makes the astonishing announcement that Cincinnati beer is no longer pure, but adulterated with molasses, sugar of starch, fusel oil and the poisonous colchicum. The Commissioner of Agriculture, in his report for 1865, says that Prof. Hayes, of New York, analyzed the beer from a dozen different breweries, and found all of it adulterated. Cocculus Indianus and nuxvomica entered largely into its composition. J. C. SEEGERS guarantees his beer to be pure and reliable. He does not adulterate it, but brews from the best barley, malt and hops. Jan 23
