GENDANOY, AC., &C. LONDON, January 31.—Several meetings have been held where the speakers were compelled to stop, owing to apprehensions of disturbances. At Greenwich, this afternoon, where Gladstone speake, the thoroughfares will be closed an hour before Gladstone commences. All the troops have been ordered to the

LONDON, January 31.—Fully 30,000 persons were on the ground at Greenwich, this afternoon, when Gladstone made his speech. Much opposition was manifested to the Premier, but the crowd, in the main, was good-natured. Notwithstanding the recent denial of the report that Gladstone was summoned before the Court of Orsen's Branch of 646. before the Court of Queen's Bench for not standing for re-election, a letter appears in the Times, this morning, circumstantially declaring that the notice of a writ issued out of that court was served on the Premier previous to the dissolution of Parliament.

LONDON, January 21.—The city candidates addressed their constituents to-night. Baron Rothschild said that, in his opinion, Mr. Gladstone's promised remission of taxes would involve a loss of £9 00 to the revenue. He suggestel that the deficiency be met by system of licenses, for all persons en-gage in trade and commerce. Goschen decland himself in favor of the integrity of he empire, by which he meant no "hom rule" and the maintenance of the pesent relations with the colonies. He hoed the Ashantee war would not cost ver £1,000,000; favored the advancement of the working classes by eduction and the removal of burdened eduction and the removal of burdened taxason, but was opposed to the Governheut providing employment for them in times of scarcity, because such relief would sap their spirit of independence. Wm. H. Smith, Conservative candidate for Westminster, also spoke at a public meeting. He stated that, during his recent visit to the United States, he had full opportunity to observe the universally corrupting tendencies of democratic institutions, which the Liberals sought to introduce into England.

If the farmers' movement amount to

no more than this, this is fatal to the

supremacy of the Republican party, allied as it is to the protection policy. For out of the 12,500,000 in this coun-

try engaged in all classes of occupations. those engaged in agriculture number 6,000,000, and upon them more heavily than any other class falls the burden of

that great oppression-upon them more than any other class falls the monstrous hourly injustice of an inflated paper currency. Free trade and farmers' rights is the pledge of the Democracy to the 6,000,000 farmers of the United

States. That, and such a union of the farmers as the Nation admits, is fatal to the Republican party.
