ON VAYANA—SANTA ANNA, THE ONE-LEGGED MURDERER, BOUND FOR MEXICO—CLOSE OF THE ASHANTEE WAR, ETC.  
VERSAILLES, February 25.—When ex-President Thiers entered the Assembly, to-day, he was greeted with a perfect ovation from the members of the Left, in consequence of a letter published yesterday, stating his conviction that republicanism is the only form of government for France.  
LONDON, February 26.—The ship City of Montreal, which arrived in the Clyde, yesterday, from Pensacola, experienced a continuation of heavy seas, lost her rudder and wheel, and had her wheel-house stove in.  
HAVANA, February 26.—An aid-de-camp to the Captain-General died, to-day, of vomito. Santa Anna has sailed for Mexico.  
LONDON, February 26.—The Duke of Abercromby has been appointed Lord Lieutenant of Ireland.  
The Standard thinks the fact that the 2d of February had been fixed upon for the attack upon Coomassie, indicates that the condition of the British troops is not hopeless; but at the same time it sees that, under the circumstances, audacity gives the only chance, not only for victory, but for saving the army.  
LONDON, February 26.—Despatches were received, yesterday, reporting a reverse to the Ashantee expedition, which caused great excitement. The grave fears which were entertained for the safety of Sir Garnet Wolseley's army, have, however, been dispelled, by the receipt, to-day, at the War Office, of the following despatch, which was immediately furnished to the papers and published at noon in extras:  
"COOMASSIE, February 5.—We reached here, yesterday, after five days hard fighting. The troops behaved admirably. Our casualties are under 300. The king has left the town, but is close by. He promises to visit me to-day and sign a treaty of peace. We hope to start on our return to the coast to-morrow. The wounded are recovering and the health of the remainder of the army is good."

MARINE DISASTER—REMOVAL OF A COLORED OFFICIAL—SCHOOL HOUSES FIRED—STRIKE ENDED—THE TURF, ETC.  
NEW YORK, February 26.—The jury, last night, in Brooklyn, rendered a verdict that the negro thief, Geo. Jackson, was shot by Officer Klein, and that the latter was justified, and is commended for the faithful performance of his duty.  
Through passenger travel on the Erie Railroad is stopped by the strike of the freight brakemen at Hornesville. No through mail matter is to be sent over the road until further orders.  
A later despatch says the strike of the brakemen on the Erie Railroad ended satisfactorily to all parties, and passenger and freight trains run regularly.  
LOUISVILLE, February 26.—The Belfast, with 800 tons freight, was lost on the falls, but the people were saved.  
WASHINGTON, February 26.—The Senate passed a bill prescribing the form of oath to be taken by post office officials. The House passed, after discussion, a bill appropriating \$231,000 to complete the branch mint building at San Francisco.  
WASHINGTON, February 26.—Colonel Robert Harlan, (colored,) special agent of the Post Office Department, with headquarters at Cincinnati, has been removed.  
CLEVELAND, February 26.—The special meeting of the Brotherhood of Locomotive Engineers, this morning, was called to order by Charles Wilson, Grand Chief Engineer. The delegates appeared much incensed against Wilson, for his acts in the recent strikes, and a resolution, asking him to resign, was adopted by a large majority; thereupon Wilson tendered his resignation, which was accepted, and he retired from the convention. A resolution was also adopted to keep all proceedings of the convention from the press.  
BOSTON, February 26.—Grange No. 4, which was suspended by the National Grange, held a meeting, to-day, and resolved itself into an independent grange; assuming the powers of a national grange.  
CHARLESTON, February 26.—Arrived—Steamship Equator, Philadelphia.  
ROCHESTER, N. Y., February 26.—This forenoon, fire was started by an unknown man under the second story stairs in the public school house No. 12. The flames were discovered in time to permit of their suppression before any damage was done, and before there was any panic. 300 children in the upper rooms would have been cut off from escape, except by the windows, if the flames had progressed far. No. 5 public school house was set on fire Tuesday, but no damage was done.  
CHARLESTON, February 26.—The races at the Washington Course began to-day. The track was in good order and the weather fine. Hitchcock's chestnut colt Limestone won the two-mile hurdle in 4:48—beating Lant Lawlor and Ellen O. Lawler. The latter fell over the seventh hurdle, throwing the rider. The second race—mile and a half dash—was won by Bacon's bay filly, Lady Washington, in 2:51—beating Tabitha and Joe Johnson; Mortgage was withdrawn. The third race—two mile heats—was won by Bacon's bay horse Granger, in two straight heats, in 8:51—beating Bessie Lee, Greenbrier and Midnight—the last two distanced in the first heat.  
PHILADELPHIA, February 26.—Detectives have arrested Francois H. Carter, alias Big Frank, prominent among the bank burglars who escaped from Newcastle jail.  
WASHINGTON, February 26.—In the Senate, Pennsylvania petitions against the restoration of the duty on tea and coffee. Gordon, from the Committee on Commerce, reported the House bill for the relief of Henry S. Wells, which authorizes the payment to him of \$196,000 for removing obstructions in the Sa-

vannah River; passed. The further consideration of the financial question was postponed until Tuesday next. Cameron moved to take up the centennial bill. Thurman said he should vote against the bill. He thought this idea of holding an exhibition was entirely destructive of a proper celebration of American independence, and Congress could not do a worse thing than to put its hand in the treasury and take out money for this purpose. Cameron resumed the styling the bill an appropriation bill. Sumner read the bill, and said no candid person could deny that it was an entering wedge to calling upon Congress for a large appropriation. He read a despatch, dated February 16, 1874, addressed by Mr. Cameron to Mayor Stokely, of Philadelphia, expressing his desire that Mr. Stokely should be re-elected, and assuring him of his gratification to know that in that event any appropriation voted by Congress would be properly expended. The Chair called Mr. Sumner to order for discussing the merits of the bill. Cameron said he had written the despatch, and he approved every word of it. He intimated that if Mr. McClure had been elected, he would not have been so well satisfied as to the manner in which the money would be spent. The Chair called Cameron to order for discussing the merits of the bill. Sargent read from the first Act passed by Congress on the subject of the centennial, prohibiting the appropriation of any money on that account. After further discussion, the motion to take up was decided in the negative.  
The army appropriation bill as reported from the Senate committee, makes a reduction of \$350,000 in the appropriation for the regular supplies and incidental expenses of the quartermaster's department, and of \$218,000 in sundry other items. The clause limiting the allowance for traveling expenses to ten cents per mile is stricken out, and the section transferring to the Southern Claims Commission all claims from loyal States now pending in the quartermaster and commissary departments, is also omitted from the bill as reported. All balances of appropriation for the services of the quartermaster and commissary-general's departments remaining undrawn on July 1, 1872, are by this amendment covered into the treasury. While these officers are to continue to examine and act upon the claims, the effect is to require special appropriations by Congress to pay claimants, instead of their being paid as now, through the third auditor. Senator West and the chairman of the committee opposed this action as imposing vexatious delays, but were overruled in the committee. There will be a fierce fight over it in both houses, but the vexatious delays will doubtless become the law. The naval appropriation bill passed with amendments, and goes to the House for concurrence.  
In the House, the bill to revive the franking privilege, clumsily disguised as a plan for distributing public documents, was at length, after a week's debate, brought to a vote to-day. First came a motion to lay it on the table, and that was defeated by a majority of 18. That came a substitute to restore the franking privilege, pure and simple, but only fifty members had the daring honesty to vote for it; while 200 voted against it. Then came the final vote, and it was necessary to see the vote-fulness of the members about it. Many wished the bill to pass, but did not wish to appear on the yeas and nays list as so voting; and so the result was the rejection of the bill, by one majority against it—130 to 131. It will probably be revived to-morrow, by a motion to reconsider. Some thirty Democrats voted for the bill.  
The Star says the Select Committee on Transportation is rapidly perfecting its report, which will be submitted to Congress some time next month. The committee will take the position that Congress has the authority to regulate the rates of fare over railroads, but will recommend against the exercise of such authority, on the ground that it is not at present expedient.  
The Committee of Ways and Means will report a bill fixing the tariff on imported still wines at fifty cents per gallon in casks and two dollars per case in bottles. The Commerce Committee of the Senate have referred the wonderful nomination of Simmons, for Boston Collector, to Mr. Boutwell, as a subcommittee. Butler fed his Boston friends, including Simmons, to-day.  
The Committee on Roads and Canals are decided in the opinion that, in the present condition of the treasury, it will be inexpedient for Congress to grant any aid for internal improvements.  
The Supreme Court re-assembles next Monday.  
The American Consul at Buenos Ayres refuses a clean bill of health to vessels bound to America, on account of the cholera prevailing there.  
Probabilities—For the middle Atlantic and South Atlantic States, falling barometer, increasing South-east to South-west winds, higher temperature, cloudy or hazy weather, possibly with rain in the latter section.

MENTAL SUCCESS.—Capacity and talent in this pushing, bustling age, do not always insure business success; but these, when coupled with resolute effort, untiring energy, sane manners and thorough professional knowledge, lead to position, fame and success, for they deserve them. This is illustrated in the career of Dr. Jones, now in this city. He has devoted the best years of his life to cultivating good natural abilities, and thoroughly qualifying himself to battle with the worst forms of disease that assail and prostrate the human system. The result is a practice extensive, growing and lucrative. Dr. Jones' peculiar experience in the treatment of chronic diseases makes him in every way a skillful and trust-worthy physician. He has been induced to extend his stay at the Wheeler House, in this city, until the 18th of March.

THE STATE LEGISLATURE.  
THURSDAY, FEBRUARY 26, 1874.  
SENATE.  
The Senate met at 12 M.  
Mr. Lee presented the petition of sundry citizens and tax payers of Chester, relative to assessment of property and praying for relief by ordering a re-assessment for this year, to be made in accordance with the rule of law as fixed in Section 39, Article I, of the Constitution.  
Mr. Swails, from Committee on Railroads, recommended charter of the Newberry Railroad Company, with the proviso that the Act shall continue in force for twenty years, provided the road shall be commenced within three years and completed within seven years from the passage of this Act.  
Mr. Whittemore, from special joint committee appointed to make certain inquiries of H. H. Kimpton, Financial Agent of the State in the city of New York, relative to the agricultural college land scrip bonds, submitted a report of said committee. Also, submitted a lengthy report upon matters in connection with a certain pay certificate drawn in favor of Senator S. A. Swails, which was received as information.  
Mr. Hope, from special committee appointed to investigate the indebtedness of certain County Treasurers prior to the fiscal year 1872, submitted a report, that they called upon the Comptroller-General for such information as his office afforded, and were furnished with sufficient evidence to authorize the committee to present the sum of \$396,706 as due the State, which has been unaccounted for by the said County Treasurers.  
HOUSE OF REPRESENTATIVES.  
The House met at 10 A. M.  
A bill to charter the Congaree Manufacturing Company, with amendments, received its second reading.  
A bill to make appropriation to pay the claims held in trust by J. Woodruff and A. O. Jones against the State was ordered to be engrossed for a third reading.

Seegers vs. Cincinnati Beer.  
THE Cincinnati Gazette makes the astonishing announcement that Cincinnati beer is no longer pure, but adulterated with molasses, sugar of starch, fassol oil and the poisonous cocobutan. The Commissioner of Agriculture, in his report for 1865, says that Prof. Mages, of New York, analyzed the beer from a dozen different breweries, and found all of it adulterated. Cocculus Indicus and nux vomica entered largely into its composition.  
C. F. SEEGERS guarantees his beer to be pure and reliable. He does not adulterate it, but brews from the best barley, malt and hops.
