Paris, June 19.—In the Assembly, to-day, the clause in the municipal organization bill giving to the largest tax payers the right of membership in the municipal councils, was rejected, by yeas 375, nays 373.

The Left, the Bonapartists and a portion of the Right Centre voted with the majority. They regarded the clause as an attempt to restrict universal suffrage.

This rejection will probably prove fatal to the bill. The announcement of the vote created considerable sensation.

M. Fourton, Minister of the Interior, expressed his willingness to accept, as a compromise, the limitation of the Government's right to appoint Mayors of cities for three years.

The Postal Committee have approved the report in favor of the American Postal Convention. The Assembly will probably ratify the report shortly, without further discussion.

The Right Centre is negotiating with the Right and with a portion of the Left Centre, in the hope of forming a new majority upon a programme based on the bill submitted by M. Lambert D'Saint Oirox, on the 15th instant, providing for the confirmation of President MacMahon's powers, the organization of a second Chamber, conferring the right upon President MacMahon to dissolve both branches, and the appointment of his successor by joint convention of the two Chambers.

The negotiations will probably prove abortive, the Left Centre adhering to the provisions of M. Cassimer Perier's bill. M. Du Favre intends, when the bill of M. Perier comes up for debate, to distinctly warn the Right that 335 Deputies are prepared to demand the dissolution of the Assembly, if the organization of the republic is prevented.

M. Goulard is very sick. M. Paul Da Cassegnao is cited to appear before the Assize Court, on Monday next, to answer the charge of inciting citizens to hatred of each other.

The American naval squadron in the Mediterranean is expected at Toulon shortly, to re-embark.

The weather is beautiful. There is some dissatisfaction because an attack upon the insurgents has not been made. Quite a number of Concha's men are suffering from dysentery, which the surgeons attribute to raw onions, which have constituted the principal portion of their food.

The available strength of the Republican army is 120,000 infantry, 110,000 cavalry, not including 43,000 reserves.

PARIS, June 19.—The wife of Don Carlos has arrived here, en route to Switzerland.

Telegraphic—American Matters. SAN FRANCISCO, June 18.—The steamers Vancouver and Lord of the Isles, from China, arrived this evening.

The Lord of the Isles brings 915 Chinese passengers, and the Vancouver 613. The latest Chinese papers state the vessel lost in the China Seas, with all on board, was the steamer Scotland, not the bark Sootland, from this port, as was supposed.

Boston, June 18.—At a meeting of the State Central Committee of the Labor Reform Party, yesterday, it was finally decided to make no nomination of candidates for State officers this year. It was also decided to draw up the eight hour law for all classes of laboring men, women and children, and to present it to every candidate for office this fall for an explicit answer as to whether he will support it.

The sense of the meeting was, that instead of making independent nominations the party should use the balance of power which it claims to hold for the election of such men only as are favorable to its principles.

dent has settled, the revised position of the internal supervision for the Southern District composed of the States of Kentucky, Tennessee, Alabama, Mississippi and Louisiana, by deciding that Hon. K. R. Cobb will retain the position.

The House passed a bill fixing \$250,000 as the limit of expenditures for the erection of the Custom House at Atlanta, Ga.

In the Senate, Clayton, from the Joint Select Committee on Mississippi Levees, reported a resolution authorizing the committee to sit during the recess of Congress, for the purpose of investigating as to the condition of the levees on the Mississippi River, and propriety of the Government of the United States assuming control of the same; laid over.

Full Cabinet meeting. House and Senate are chiefly engaged on the Conference Committee, without important results. No Southern nominations or confirmations. Just at the adjournment, Wilson, of Indiana, tried to get in a report on the Busted impeachment case, but did not succeed in being recognized.

Both houses were in session to-night. The Senate adopted the conference report on currency—43 to 19; the main feature is that it unlocks reserves. The river and harbor conference report is up—no amendments affecting the South.

Probabilities.—For the Middle States and the lower lake region, increasing cloudiness, North-east to South-east winds, stationary or falling temperature and rising barometer, with local rains on the Atlantic coast.

For the South Atlantic States, partly cloudy weather and possibly local rains, with Easterly or Southerly winds, a slight fall of temperature and rising barometer. For the Gulf States, light rains and gentle winds, with slight changes in temperature and pressure.

For Tennessee and the Ohio Valley, the upper lake region, the Western portion of the lower lake region and the Northwest, increasing cloudiness and local storms, North-easterly or Southerly winds, high temperature and continued high barometer, except in the Northwest. The Mississippi, Missouri and Ohio Rivers will fall but slightly during Saturday.

New York, June 19.—An Havana letter, dated the 13th, says trustworthy information, received through insurgent sources, reports the arrival of an expedition under Aguilera on the North coast, with 4,000 Remington and Peabody arms, six pieces of mountain artillery, and a large quantity of ammunition.

All material was safely landed and communication established with the forces of Maximo Gomez. This is said to be the most important expedition gotten up by the insurgents since the first year of the war.

St. Louis, June 19.—Since the mutiny in the penitentiary at Jefferson City, a few days ago, there has been a very jubilant spirit manifested by the convicts, and much mutiny and insubordinate conduct. For two days, all working shops had to be suspended and the prisoners kept in their cells.

Yesterday, several of the ring-leaders were lashed severely on the bare back, and this is to be continued from day to day, until all those most active in the mutiny are punished. One of those whipped yesterday confessed that a plot to escape had been planned, and an attempt was to have been made to carry it out yesterday, but the action of the authorities, in confining the prisoners in cells, prevented it.

It is believed that the mutinous spirit has been quelled, and no more trouble will occur.

ONLY \$40,000 A YEAR.—Speaking of the marriage of the Rev. Mr. Dix, the New York correspondent of the Utica Herald says: In order to prepare for housekeeping, the vestry have fitted up, as I am told, a mansion whose cost is \$70,000, which the rector and wife will soon occupy. It is situated near Trinity Chapel, which is now the most fashionable place of worship in this city. It is called "Chapel," but is really an elegant structure, though not as large as a first class church. Trinity vestry now control Trinity Church, St. Paul's, St. John's and Trinity Chapel, and the mere item of music in these churches costs \$40,000 a year, or nearly \$300 per Sabbath. Most of the money is collected in the way of rents, among the poorest people in the city, who seldom hear anything more sacred than a band-organ or the midnight strains from some dance-house. The grant made to Trinity corporation of the "King's Farm" was to enable it to carry on a missionary work in what then was the wilds of America. How faithfully this is done, the world can witness. We have the worst savages on the continent in this city, and a barbarism as horrid as that of the Modocs. Perhaps a part of that \$40,000 might be of service among this class.

PLEASE STOP MY—WHAT?—Times are hard, money is scarce, business is dull, retrenchment is a duty. Please stop my—whiskey? Oh, no; times are not hard enough for that yet. But there is something else that costs me a large amount of money every year, which I wish to save. Please stop my—tobacco, cigars and snuff? Oh, no; not these; but I must retrench somewhere; please stop my—ribbons, jewels, ornaments and trinkets? Not at all; pride must be fostered, if times are ever so hard; but I believe I can save a way to effect quite a saving in another direction—tea, coffee and needless other unwholesome luxuries? No, no; not these; I cannot think of such a sacrifice; I must think of something else. Ah! I have it now. My paper costs sixty-eight cents a month, eight dollars a year; I must save that. Please stop my paper. That will carry me through the panic easily. I believe in retrenchment and economy, especially in brains.

The cause of cremation appears to be rapidly gaining ground in Germany. The merits of the new system of disposing of dead bodies are shortly to be tested by practical experiment in Saxony, the two principal towns of which, Dresden and Leipzig, have offered to legalize it as an optional course, supposing its advocates can practically make good their assertion in its favor. A furnace for cremation is now actually in process of construction by Friedrich Siemens, a civil engineer. Its cost is estimated at 5,000 marks, or £1,250, and it is calculated that the complete combustion of a human corpse will take about an hour.

Address by a Detroit Judge: "If it wasn't for your children, I'd put you where the coach dogs couldn't bite you. I'm going to let you go this time for their sakes, but look out for me in the future. If that physiognomy ever peeps over this desk at me again, you'll think I'm a pile-driver and you are a mouse. Trot out of here, and don't tarry to see what becomes of the rest."

IMPORTANT TO FIREMEN.—Professor Tyndall exhibited his fireman's respirator at a recent meeting of the Royal Society in London. It is attached to a mask, and consists of an iron cylinder packed with cotton wool, glycerine and charcoal. The Detroit Free Press: "Come, now, let's say no more about Laura Fair. When one remembers that it was a lawyer she shot, the crime is robbed of its rough edges." All that we ever blamed her for was that she shot a lawyer when she could just as easily have shot a carpet bag Congressman.
