The municipal organization bill was again before the body. It appearing that though a reporter of the Decentralization Committee, yesterday, announced its withdrawal, the minority of that committee subsequently took up the bill and secured the adoption, by a vote of 579 against 34, of an amendment maintaining the present system of municipal elections, thus overthrowing the clauses of the bill which provides for representations of the minority by cumulative voting.

The European money markets are now in a condition of great ease. The Bank of England has fixed its minimum discount rate at two-and-a-half per cent., which is lower than it has been for more than two years. It gained nearly \$5,000,000 in specie during the week. The Bank of France, on the 4th inst., reduced its minimum rate to four per cent., having at that date brought its note circulation below \$500,000,000 and its specie reserve up to \$228,000,000.

An English journal is authority for the statement that Russia is about to pounce upon China in self-defence. The former Chinese province of Kuldsha, now occupied by the Russians, is threatened by Chinese troops, as also the independent province of Kashgar, which belonged to China a few years ago. The Chinese forces are said to be armed with European rifles, and may make an interesting fight in case a war is begun.

BAD FOR CORBETT.—Corbett, the soldier who captured J. Wilkes Booth, the assassin of President Lincoln, and got \$12,000 for it, is admitted to the practice of law in Illinois. The reward was of no benefit to him, since, having invested it in a mortgage which did not correctly describe the mortgagor's property, he was, after having sunk what little else he had in bootless litigation, left penniless.

The Illinois Republican State Convention came out squarely in favor of civil rights. The platform also declares for free banking now and specie payment hereafter, and for the election of President and Vice-President of the United States by a direct vote of the people. It bears very lightly upon temperance legislation, and there is an evident effort to conciliate the Germans.

Two parties of hunters were out fire-hunting for deer near R sbo rough, Tenn., last Saturday evening. Gen. Williams and Abner Smith to one party, and Riley (Dink) Hughes and John Dunkel in the other, when Williams saw the light of Hughes' party, it being very dim, and taking it to be a deer's eyes, he fired at it and killed Hughes instantly.

Fully one-third of the State of Louisiana is still under water from one to two feet deep, and from 70,000 to 80,000 people are now in a destitute condition; much sickness already prevails, and unless the people obtain relief, the suffering during the summer months will be almost beyond precedent.

A motion in the House, Saturday night, to take up the Civil Rights Bill again failed by 149 to 91—not two-thirds. About forty Republicans dodged the vote. The better class of people in New Orleans were sadly disappointed the other day. The horses attached to Governor Kellogg's carriage ran away, and for a brief while there was a luminous prospect that, for the first time in many years, the city would soon be invited to attend a gubernatorial funeral; but the confounded brutes suffered themselves to be stopped in time to render that prospect a delusion and a fraud.

It would seem to be more or less significant that the Indianapolis Journal, Mr. Morton's home paper, should be found echoing the suggestions of the New York Times, that Congress may have rather overdue the reconstruction business, and that it is about time for this interference with the Southern States to stop.

The betting fraternity are having hard luck this year the world over. The Derby was won by the animal that was put low down in the list by the book-makers, and now Lorillard's "Saxoh" carries off the Belmont stakes without having so much as whispere to the betting men before-hand.

GOOD TIMES COMING.—Some of the Alabama and Georgia journals speak cheerfully of the cotton crop and tell us that if it will only fulfil its present promise, "there will be flush times in the fall, the farmers not having been able to run into debt."

Rochefort was not only mobbed in Ireland, but he has been warned by the Belgian police that he must not visit Brussels. An English newspaper says he will reside in Rotterdam, but another report is that he will go to Geneva.

The Springfield Union, a Republican journal, says: "The main question with us now, as a people, is not how to save the Republican party, but the republic." The best way to save the republic is not to save the Republican party.
