

THE DAILY PHOENIX.

"Let our Just Censures

Attend the True Event."

COLUMBIA, S. C., TUESDAY MORNING, JULY 7, 1874.

VOLUME X—NUMBER 91.

BY JULIAN A. SELBY.

Regular Meeting of City Council.

COUNCIL CHAMBER.
COLUMBIA, S. C., June 23, 1874.
Council met at 8 P. M. Present—His Honor the Mayor, John Alexander; Aldermen Brown, Carr, Carroll, Cooper, Davis, Griffin, Pugh, Purvis, Simons, Swygert, Thomas and Wells.

The minutes of previous meetings were read and approved.
REPORTS, COMMUNICATIONS, &c.
Of Amos Pickings, for abatement of water tax; referred to Committee on Water Works.
Of Board of Health, requesting Council to fill vacancy occasioned by reason of Dr. Furness's resignation; received as information.

Of President of Union Savings Bank, in reference to past due note; received as information.
Of Agent of Columbia Water Power Company, in answer to communication from the Mayor, in reference to the impurity and scarcity of water; referred to Committee on Water Works.

Of L. C. Carpenter, in regard to an agreement with J. S. G. Mayrant to receive his claims in payment of taxes.
Resolved, That his claims be taken in satisfaction of his taxes.

Of M. E. Collins, praying remission of fine imposed for selling liquor on Sunday. On motion of Alderman Simons, the prayer of the petitioner was refused.

REPORTS.
Alderman Cooper presented the reports of the City Clerk and Treasurer for February, March and April, and also seven months' statement, examined and found correct as to expenditures. Pending the consideration of which, on motion, Council adjourned.

WALTER R. JONES, City Clerk.
Special Meeting of City Council.
COUNCIL CHAMBER.
COLUMBIA, S. C., July 1, 1874.
Council met at 8 P. M. Present—His Honor the Mayor, John Alexander; Aldermen Brown, Carr, Carroll, Cooper, Davis, Griffin, Simons, Swygert, Thomas and Wells. Absent—Aldermen Pugh and Purvis.

The Mayor stated that the meeting was called by request, to transact routine business.
COMMUNICATIONS, &c.
Of Board of Health, asking that ordinance forbidding waste of water be enforced; received as information, and the Chief of Police instructed to enforce the ordinance.

Of Board of Firewriters, in regard to fire alarm and scarcity of water; referred to Committee on Fire Department and the Mayor, respectively, to ascertain facts.
Of B. Berman, for abatement of license for time place of business was closed up; referred to Committee on License.

Of city employees, asking that arrangements be made to give them a portion of their pay on the 3d inst.; received as information, and the Committee on Ways and Means empowered to make the necessary arrangements therefor.

Of Union-Herald and Phoenix, each proposing to publish proceedings of Council for \$150 per annum; advertisements of Clerk, for \$150 per annum, and extra advertisements \$1 per square first insertion, and 50 cents per square each subsequent insertion; referred back, with request to present other bids at next regular meeting, as Council proposed to publish in one paper only.

The following bills were presented, and referred to the Committee on Accounts: Wm. Watts, Wm. H. Thomas, J. H. Pickett, Market; John Alexander, Water Works and Sydney Park.

Bill of Betty Douglass, for services in Market, was ordered paid.
Committee on Ways and Means, upon reports of ex-City Clerk and Treasurer, laid over until next meeting.

Alderman Carroll, from the Committee on Accounts, reported back the following bills, and recommended payment: incurred in D. Goodman, Alms House (2 bills); and Hospital (2 bills); John Alexander, Street Department, Water Works and Guard House; Columbia Gas Light Company.

Also, reports of H. M. Gibson, against Street Department, approved, on account of exorbitant charges for corn.
Alderman Carr, from Committee on Market, reported back the report of the Clerk of Market for month of May, as examined and found correct.

Alderman Brown, from Committee on City Clock, to whom was referred petition of Board of Firewriters for an adequate system of fire alarm, reported that the new bell had been put up in the tower of New City Hall, and the clapper would be put in time to ring on the 15th of July; received as information.

Alderman Swygert, from the Committee on Alms House, stated that Dr. Benitsh, who furnishes medicine to city poor, under contract with city, refuses to furnish any other than beneficiaries, without an order from him as chairman of said committee.
On motion of Alderman Carr, the chairman of Committee on Alms House was empowered to give orders only to those actually in need.

WALTER R. JONES, City Clerk.
Proceedings of Board of Health.
OFFICE BOARD OF HEALTH.
COLUMBIA, S. C., July 1, 1874.
The Board of Health met at 1 P. M. Present—Dr. Taylor and Messrs. Kennedy, Lee, Richardson, Clark, Alston and Fitzsimmons. Absent—Messrs. Mizner, McMullan, Gulick and Montgomery.

The minutes of the last regular meeting were read and approved.
Mr. Lee, from the special committee appointed to examine the water works of the Columbia Water Power Company, submitted the following report and resolutions:

COLUMBIA, S. C., June 30, 1874.
To the Board of Health of the City of Columbia: The undersigned, having been appointed a committee, by the Board of Health, to look into the general subject of the supply of water to the city of Columbia, ask leave to present the following as their report:

At the time of the appointment of your committee, on the 17th of June, the water distributed through the water works was very dirty, and evidently came from the river. It was neither pleasant to the sight nor taste, was full of sediment, and the complaints to the committee were general. In order to inform themselves, the committee visited the water works, inspected all the springs, and had an interview with Major Pearce, the representative of the Water Power Company. At that time, the supply of water consisted of one-half spring water and the other half river water, which Major Pearce claimed was duly filtered. The works pumped spring water for ten

hours each day, and river water for ten hours more. The daily consumption of the city was estimated at 40,000 gallons, and the production of the springs was not over 250,000 gallons. It was also stated that since the beginning of the hot weather, the consumption had greatly increased, and Major Pearce alleged that there was a great waste of the water. Your committee investigated this representation, and found that some waste probably occurred, but nowhere to any marked amount except at the Insane Asylum, where the consumption of water seemed to be very large. The attention of Mr. Hook, the Water Superintendent, was called to this waste, and since that time, the water in the pipes has greatly improved in character and quality.

Your committee have also pursued their investigations a little further, in order to satisfy themselves whether the supply of spring water could not be increased, so as to meet all the wants of our citizens. It is obvious that, as the heat of summer approaches, there will always be an increased use of water, and it is just at this time when it is of prime importance that the water shall be pure and healthy. If the present supply of spring water cannot be increased, then at the very moment when the greatest amount is desired for the use and comfort of our people, and its quality should be the best, the city will always be furnished with the dirtiest and least healthy water. It has been so now for two summers, and unless some steps are taken to remedy this, the same thing may be anticipated every summer.

An examination of the springs now supplying the city with water disclosed the fact that only three springs are in actual operation—two in the Park, and one, the Rogers spring, near Goldsmith's and King's works. The committee found one spring in the Park, known as the Willow Spring, nearly full of water, the pipe from which is entirely stopped up. Major Pearce's attention was called to this, and he promised to have it opened, but up to this time nothing has been done. They also found an old spring on the South side of the Park, entirely filled up and neglected, which they were reinforced by a gentleman long familiar with the Park, had been a large and productive one; also, that a large spring formerly existed just below the fountain, near the entrance to the Park. Your committee are also of the opinion that a new spring can be opened on the North side of the Park, near the Willow Spring, and that another one is possible in the street on the South side of the Park, where the water now flows in considerable quantity from out the side of the hill. If these springs should prove to be good ones, they would probably double the present supply of spring water, and your committee are of the opinion that the proper steps should be taken to develop them.

The spirit of the contract existing between the city and the Columbia Water Power Company, and which seems to imply that spring water should be furnished the city so long as its supply should be sufficient, and that water from the river shall be taken only to supply an actual deficiency. The contract, with this view, provides not only that the water collected by the old works shall be used, but the contractor is under the obligation "of collecting water from streams below the present reservoir." At present no spring water is obtained, except what is now and was formerly supplied to the old receiving reservoir. No efforts have been made to open any new springs below it. The only effort made to increase the supply was by means of gathering up the surface water near the Penitentiary, which the Board of Health last year disappeared. Under the construction of this part of the contract by his Honor Judge Carpenter, it would seem that the expense of opening the springs suggested above, should fall on the contractor. His duty is defined to be "the whole process of collecting the water and forcing it into the distributing reservoir." We, therefore, suggest that the City Council should call on the contractor to open and test the several springs we have mentioned; and if he declines or neglects to do it, that the City Council should have them opened, and charge the expense to the contractor, deducting it from his compensation for the current quarter.

Your committee have also given the process of filtering the river water some attention, as connected with its healthfulness and purity. The water contract provides simply that the contractor shall "furnish a filtering apparatus for purifying the water from said river, if such water should be required;" but there are no specifications whatever as to what process or method of filtration should be, and its efficiency is therefore left to individual opinion until an issue shall be made before a court for the construction of the contract, and a determination as to what is really required. The process used now seems to be simply passing the river water through a bed of sand, said to be mixed with charcoal, lying on a wire cloth, in such a manner, the whole being accomplished in a haphazard way. We doubt whether such a process would be admitted as being properly filtration. It is merely a straining of the river water, and the apparatus is rather a strainer, which would remove large masses of bad matter, but could have very little effect in purifying the water. An analysis of some taken from the pipes two weeks since, shows that it contained a large amount of sedimentary matter, held in solution, which could only be removed by the most careful methods, and the lapse of considerable time.

The committee, entertaining the views recommended to the Board in the adoption of the annexed resolutions.
W. E. GULICK, Committee.
H. LEE, A. RICHARDSON.

Resolved, That it is recommended to the City Council to call upon the water contractor to open the Willow Spring in the Park, to open the old spring on the South side, and the old spring near the fountain, and to test the feasibility of opening a new spring in the Park, in the vicinity of the Willow Spring, and a new one in the street to the South of the Park, connecting the water obtained therefrom with the present lines of pipes and works.

Resolved, That if the water contractor refuses or neglects to test and open these springs, the interest of the city and comfort and health of its inhabitants, justify the Council in testing the matter, and charging the expense to the contractor.

Resolved, That, in our opinion, the so-called filter at the works at the river is a strainer rather than a filter, and its use does not remove impurities as a complete filtration should do.

Resolved, That a copy of this report and these resolutions be sent to the City Council, for such action as they may deem proper.

On motion of Mr. Fitzsimmons, the report was received as information, and the resolutions adopted.

On motion of Mr. Richardson, it was

Resolved, That the attention of the city authorities be called to the waste of water in various portions of the city, and that they be requested to enforce the ordinance forbidding the same.

On motion of Mr. Richardson, it was Resolved, That the members of the Board from each Ward inspect the premises of the residents of their respective Wards at least once every two weeks.

Mr. Lee moved that the public be advised to use disinfectants in their out-houses. Adopted.
On motion of Mr. Fitzsimmons, the Board adjourned.
W. R. JONES, Clerk.

Hay! Hay!! Hay!!!
THE SOUTHERN WAREHOUSE COMPANY has always on hand the largest stock of HAY in Columbia, comprising both Eastern and Western, which will be delivered anywhere in the city, free of charge for drayage, and at the very lowest rates.
Our facilities for purchasing and handling are such as to enable us to compete successfully with any other house, and parties in need will do well to give us a call before purchasing elsewhere, for we cannot be undersold.
Particular attention is called to our stock of Eastern HAY, which is the best in the market.
May 6 3mo
