

Telegraphic-Foreign Affairs.

MADRID, July 14.—The Carlists have opened attack on Ocenca, eighty-four miles South-east of this city. The garrison is making a vigorous defence. Reinforcements have been forwarded hence by rail.

LONDON, July 15.—The *Times*' special from Berlin says Kulmann, who attempted Bismarck's life, is considered a mere tool. He confesses that he was acting in concert with others. Hanthaler, the priest arrested for connection with the plot, belongs to the village of Walchsee, in Austrian Tyrol. He checked Bismarck's horses by stopping in front at the critical moment. The Berlin press declare the attempted assassination proves the necessity of repressing ultra-montane teachings. Some Paris journals affect to consider the attempt on Bismarck's life a plot concocted by the German police.

The *News*' special despatch from Vienna explains that the police circular describing the person suspected of a design against the life of the Emperor Francis Joseph, was a forgery, the author of which has been arrested.

The Atlantic cable laid in 1866 was successfully repaired yesterday afternoon, and is now in perfect working order.

KISSINGEN, July 14.—It has been ascertained that Kulmann was in Berlin for a fortnight at Whitecliffe, for the purpose of assassinating Prince Bismarck.

PARIS, July 14.—The Assembly, today, rejected the proposal which was supported by Magne, Minister of Finance, to increase the salt tax; the majority against the Government was 106. Rouher attempted to speak during the debate, but was hooted down by the Left. Further investigation into the doings of the Bonapartist propaganda have resulted in compromising M. Haetjens. The Imperialists are beginning to feel uneasy as the investigation progresses. The Minister of Justice has not yet commenced legal proceedings against the implicated parties, expecting additional discoveries. The resignation of Magne, after today's vote, is considered certain.

LONDON, July 15.—In the House of Commons, today, the public emigration bill passed its second reading, without division.

Telegraphic-American Matters.

CHICAGO, July 15.—2.30 A. M.—The limits of the fire are as follows: On Clark street, No. 535, which is about Twelfth street on the South and about Polk street on the North; on Dearborn street, the Southern limit is near Twelfth street and the Northern limit Polk street; on Wabash avenue, Harmon Court forms the Southern boundary, the Northern limit being between Jackson and Van Buren streets; on State street, the Southern limit is Harmon Court, the line extending on the North nearly to Jackson street. Third and Fourth avenues are burned nearly their whole length. The fire burned a number of houses on Michigan avenue, but has not damaged that street to any great extent. Some twenty blocks are burned; loss variously estimated, but cannot exceed from 4 to \$6,000,000, which is covered by about two-fifths insurance, which is divided among numerous companies. Since the great fire, the companies have been very careful not to take large risks in one liability. The following are the largest losses: The Jewish Synagogue, \$30,000; Quinn's Chapel, \$25,000; the Adelphi Theatre, \$55,000; St. James Hotel and furniture, \$150,000; the post office, \$30,000; the First Baptist Church, \$100,000; Church of the Messiah, \$25,000. Olivet Baptist Church, (colored,) \$40,000. A number of serious casualties are reported and several persons were, doubtless, lost in the flames. The fire is now completely under control, and no further anxiety is felt for the safety of property on the North side of the city.

CHICAGO, July 15.—The fire yesterday originated in a low frame building used for storing rags and adjoining an oil factory that stood between Fourth avenue and Clark street, on Taylor street. There was a stiff West breeze blowing, so that by the time the flames had consumed the small dwellings, stables, carpenter shops and buildings filled with oil, paper and rags, and reached State street, where there were substantial business houses, they were like the heat of a furnace and all-consuming in power. The newspapers comment in strong terms on the folly of allowing wooden buildings in the city limits. The area burned covers fifteen squares; taking bits and half blocks here and there, and lumping the whole, the burned area is about half a mile long and a little less in width, and embraced tumble-down shanties and palatial avenue residences. The losses are as follows: On Clark street, \$30,000; Fourth avenue, \$150,000; Third avenue, \$250,000; State street, \$1,300,000; Wabash avenue, \$1,700,000; Michigan avenue, \$150,000; Taylor street, \$50,000; Polk street, \$40,000; Harrison street, \$50,000; Congress street, \$75,000; Van Buren street, \$50,000; the court between Wabash avenue and State street, \$1,500,000—total, \$4,025,000.

ST. PAUL, MINN., July 14.—The total damage done by the grasshopper raid is equivalent simply to a loss of about one-twelfth of the usual crop, or about the same as if the average yield throughout the State were diminished from any cause something over one and a half bushels per acre below the general average. It extends over only about one-tenth of the area of the State, and involves about one-thirtieth of the population. Crops outside the devastated region promise an abundant yield.

PORTSMOUTH, N. H., July 15.—The shore end of the telegraph cable was successfully landed from the steamer *Ambassador*, at Rye Beach, at 3 o'clock, this morning.

ATLANTA, GA., July 15.—This morning, as a lumber train on the Air Line Railway was crossing Peach Tree Creek, about six miles from this city, the rear bumper of a front flat car pulled out, throwing several flat cars, loaded with lumber, off of the track and trestle, killing one negro and injuring ten or fifteen, several of whom are not expected to live. Bridge and trestle torn up.

MOONSHOE PARK, July 15.—First race was one mile, for which six horses entered.—Donaboe's Galaway coming in winner—time 1.46. The second race, for colts and fillies, 1 3/4 miles, four entries, was won by McGrath's Aaron Pennington—time 3.10. Third race, mile heats, was won by Survivor—time 1.47 3/4. The hurdle race had three entries.—Hitchcock's Limestone was the winner—time 3.56 1/2.

NEW YORK, July 15.—The fire in Chicago, last night, occasioned some heavy losses among the insurance companies in this city. The following is a list of some of the losses: Home, \$150,000; Phoenix, of Brooklyn, \$25,000 to \$30,000; German American, \$25,000 to \$30,000; Underwriters' Agency, \$57,000; Continental, \$50,000; Hanover, \$20,000; Standard, \$10,000; North British and Mercantile, \$20,000. As a general rule, the losses are light, as most of the damage occurred in districts where the rates of the board companies were very high, in consequence of the inflammable character of the buildings.

INDIANAPOLIS, IND., July 15.—The Democratic State Convention assembled today—every County in the State reported full delegations. Governor Hendricks was chosen President. The resolutions reported arraign the Republican party for corruption and general inefficiency, and declare in favor of a strict construction of the Constitution and tariff for revenue; favor redemption of 5-20 bonds in greenbacks, and a return to specie payments as soon as the business interests of the country permit; they oppose Baxter's temperance bill and favor a license law; favor retrenchment, reform and economy in the management of the State and Federal Governments; denounce the practice of Government officers using public money as their own; oppose land grabs and loan of the public credit to railroads; favor equalization of bounties to soldiers. After the adoption of the resolutions, the convention proceeded to nominate candidates for State officers.

CINCINNATI, July 15.—Chicago operators say another fire has broken out on the West side. This is in a new district, separate from the fire of last night. The wind is high. It commenced at the corner of Milwaukee avenue and Erie street, West side. Eighteen houses, principally wooden structures, are destroyed, but the fire is now under control.

SARATOGA, July 15.—All parties are on the *qui vive* relative to the boat races. The weather is pleasant. President Grant and wife went to a camp meeting at Round Lake today.

Mrs. Chancellor Walworth was found dead in her bed this morning.

WASHINGTON, July 14.—The Republican Congressional Committee has issued an address to the people of the United States, reviewing the history of the Democratic administrations up to the 4th of March, 1861, and, by comparison with records of the Republican party since that date, asks the people of the United States to send no more Democrats to Congress, but true and able Republicans in principle as well as in name. The true issues of the campaign are, first, the Civil Rights Bill, that, by appropriate legislation, the colored people may have all the rights implied by the fourteenth amendment; second, the currency question. As the party is divided on the subject, no views are advanced; but the assurance is given that when the solution is found, the faith of the Republican party is pledged to put it into operation. Third and most important, the question of cheap transportation is reviewed at length, and this, too, is to be left to future discussion. Nothing is said about increased taxation, internal revenue or customs.

WASHINGTON, July 15.—The cotton planters' report to the Department of Agriculture, in accordance with the conditional statistics of the June report, show an increase in the condition of the plant in every State. The percentages of average condition are higher than in June by the following figures: 3 in Louisiana; 4 in Arkansas; 6 in Florida; 7 in South Carolina; 9 in Mississippi; 10 in Alabama; 11 in Georgia; 12 in Tennessee and Texas; 13 in North Carolina. The States of Texas and North Carolina return condition above average. The following are the State averages: North Carolina 102; South Carolina 88; Georgia 91; Florida 95; Alabama 92; Mississippi 87; Louisiana 92; Texas 102; Arkansas 94; Tennessee 97. As compared with July of last year, the condition is higher, except in Florida, Louisiana and Arkansas, though the difference is slight in Tennessee and Georgia, and not very wide in Mississippi and Alabama. In North Carolina, the temperature has been high; rains seasonable and growth raised, though the plant is still small and ten days' later. In certain Counties, fields have generally had good preparation and clean culture. Edgecombe, which produces one-eighth of the cotton of the State, returns condition 110. The improvement has been rapid in South Carolina, and is still progressing, though the growth is not advanced to an average. Darlington, yielding one-seventh of the fibre of the State, returns condition at 90. Seventy-three Counties in Georgia, representing two-thirds of the crop, report the growth backward—too much rain, better and cleaner tillage than last year, less of fertilizers

used. Rumors of the caterpillar come up from South-western Georgia. Improvement is manifested in Florida, with too abundant rains in some Counties and a tendency to the shedding of forms, while rains have been frequent. In Alabama, fields have generally been kept clear; of seven Counties, which yield a third of the crop of the State, the condition is placed at 90. In Bullock, Barthour, Montgomery, Morgan and Russell, 80; in Hale and Dallas, 100; none are lower than 55 or higher than 110. The crop is late in Mississippi, but growing rapidly. It is grassy in places, yet much cleaner than last year. The condition ranges from 50 in Tuwica, where destroyed by overflow to 110 in De Soto and several other Counties. In Louisiana, planting continued after the overflow until June 15, and the crop is, therefore, later than elsewhere, and has suffered in places from cut-worms, drought and excessive rains. The caterpillar has appeared in Rapides. Rarely has Texas had better promise of a fine crop. In some Counties, the growth is not well advanced; in a few localities, plants made their appearance late in June; the stand is generally better than in other States. The drought has been injurious in Arkansas; some localities have had no rain in eight weeks; in one township in Independence, 1,000 acres were left uncultivated, on account of drought; rains have been more general of late in portions of the State, yet fully half the Counties report 100 and above. A majority of the Counties of Tennessee return an average condition—a few range from 65 to 100, and Shelby County, which yields one-sixth of the State aggregate, is placed at 110.

Probabilities.—For the New England and Middle States, increasing cloudiness will prevail, with local rains during Thursday; South-west or North-west winds, slight fall of temperature and stationary or falling barometer during Wednesday night. For the South Atlantic and Gulf States, partly cloudy weather and local rains near the coast, South-east to South-west winds during the night, slight changes in temperature and continued high barometer. For Tennessee and the Ohio valley, increasing cloudiness and probably threatening weather, with South or West winds, slight fall of temperature and stationary or rising barometer. For the lake region, local rains, South-west or North-west winds, lower temperature and stationary or rising barometer. For the North-west, generally clear weather during Thursday, with North-west winds, backing to West city and Southerly, no decided change of temperature and rising followed by falling barometer.

Telegraphic-Commercial Reports.

NEW YORK, July 15.—Noon.—Stocks dull. Money 2 Gold 93 3/4. Exchange—long 4 87 1/2; short 4 90. Government dull. States quiet. Cotton nominal; sales 215—uplands 17 1/2; Orleans 17 3/8.
