

LONDON, August 9.—A serious riot occurred in Portsmouth, in consequence of the pier authorities closing that thoroughfare. A mob of several thousand persons destroyed the obstruction to travel, and the police charged upon them repeatedly. Many policemen and rioters were severely injured. The rioting was renewed on Saturday, and several persons were seriously injured. The military was obliged to come to the aid of the police, and the mob was then dispersed.

PARIS, August 9.—The report that Germany is negotiating with Spain for the cession of Sautona is denied. Thiers is unwell. The French Government has ordered an additional man-of-war to cruise off the mouth of the Bidassoa.

Marshal Serrano has notified the powers that the Spanish Government intends to declare a blockade of the Gulf of Cantabria, and England has protested against it.

MADRID, August 9.—The *L'Epoca* considers that all danger of European complications in connection with Spanish affairs is now averted.

ROME, August 9.—Eight leaders of the International have been arrested here, and other arrests have been made at Florence and other Italian cities. Papers were seized showing that the International had made great progress in Italy.

The Pope has declared his intention to create four new Cardinals. Last night, an armed band of forty persons quitted the town of Imola and proceeded to Bologna, destroying the telegraph lines and disarming the railway watchmen as they went. The party was pursued by a military force, who arrested nearly all of them, and seized their arms and ammunition. There has been some excitement in Bologna caused by the organization of revolutionary societies, but these have been dissolved and the town is now tranquil.

BERTIN, August 9.—The Cologne *Gazette* says the French Government has agreed to recall the war ship *Enrique* from Civita Vecchia, and that the vessel will probably quit the station she has long occupied.

The Emperor William has approved of the verdict of acquittal in the case of Capt. Werner, who was tried by court martial, for his conduct in the Mediterranean at the time of the Insurgente insurrection at Cartagena. The German men-of-war *Nantulus* and *Albatross* sailed from Kiel to-day for Spain via Plymouth.

ST. PETERSBURG, August 9.—The *Golos* says the Czar has invited the son of the late Emperor Napoleon to this country, to witness military manoeuvres.

LONDON, August 10.—The *Daily Telegraph* says it is reported that Russia has consented to recognize the republic of Spain, and all other powers will follow.

BAYONNE, August 10.—Gen. Dorrigny, commanding the Carlist army, has resumed the offensive in Navarre. He has captured the town of Laynarria, through the treachery of the inhabitants, and is now advancing on Paebla, with the object of cutting the railway between Mianda and Logrono. Some of his men recently fired on a railroad train and severely wounded the engine driver, who is an Englishman. The Republican General Blanco, with eight battalions and twelve pieces of artillery, is advancing to retake Laynarria.

MADRID, August 10.—A despatch from Barcelona says that the inhabitants are greatly alarmed. A body of Carlists, numbering 2,000, are marching on the city, and there is not a sufficient force of Republican troops to oppose them.

PARIS, August 10.—Prince Hohenzollern, the German Minister, has informed the Duke de Cazas, Minister of Foreign Affairs, that Germany intends to recognize the Spanish Republic.

MONTREAL, August 10.—A \$250,000 fire occurred to-day; one life lost. The fire originated in Henderson's saw mill, on the bank of the river.

KINGSTON, JAMAICA, July 30.—Telegraphic despatches report the shock of an earthquake at noon to-day at St. Kitts and St. Thomas. The oscillation was fully a minute in duration. No damage mentioned.

Telegraphic-American Matters.
NEWPORT, Vt., August 8.—A minority of the delegates elected to the Congressional Convention are pledged to vote for the re-nomination of Judge Poland.

NEW ORLEANS, August 8.—In the Republican Convention, Antonio DuBaclet, present incumbent, was nominated for State Treasurer by a large majority. There were more votes cast than were delegates present, but, on motion of Frank Moore, the opposing candidate, the nomination was made unanimous. The results of the convention have been an unexpected victory of the Casey-Pinchback faction over Kellogg, Packard & Co. The convention adjourned *sine die*. The closing proceedings were, apparently, more orderly and harmonious. It is understood the nominations will receive the united support of the party. C. S. Nash, colored, of St. Landry, was nominated for Congress from the Sixth District.

WASHINGTON, August 8.—Hon. Clinton L. Cobb has been defeated for Congress in the First North Carolina District; this will lose him his Government patronage, and will probably cause the removal of his brother, K. R. Cobb, Supervisor of Internal Revenue for the District composed of the States of Kentucky, Tennessee, Alabama, Mississippi and Louisiana.

The District of Columbia Commissioners issued an order on yesterday, consolidating the white and colored public schools of Washington and Georgetown under one board of fifteen members. Five colored men, in-

cluding Fred. Douglass, are appointed members of the board, and two of the white men appointed being pronounced advocates of mixed schools. The impression is general that the object of the commissioners in making this consolidation is to force upon people here an experiment of educating whites and negroes together. The experiment was unsuccessfully tried in a milder form a few years ago, but it so damaged the white schools that it took them a year or two to recover from the blow. This order was the work of Messrs. Ketchum and Danison for the other commissioners. Mr. Blow has not been here for some days.

LOUISVILLE, August 9.—Col. Richard Ten Broeck, the well-known horse owner, was shot, and is reported mortally wounded, at Gilman's Station, this evening, by General Walker Whitaker, a lawyer of this city. The particulars of the affair are not known. Whitaker has already killed two men, and is regarded as a desperate character.

LONG BRANCH, August 9.—A storm raged fearfully all night, doing considerable damage along the shore. All the Indian squatters' tents on the beach were blown into the sea and the inmates were compelled to seek shelter in the hotels. A full-rigged bark has gone ashore near Seabright. Several tug boats have gone to her assistance.

SAVANNAH, August 9.—The American bark *Alexander Meril*, now in this port, loaded with 2,062 bales cotton for Liverpool, was sold by the United States Marshal to satisfy a claim pending here, and was bought by William B. Smith, of Charleston, for \$10,500.

BOSTON, August 9.—The rainfall during last night was heavier than known before for many years. The weather to-day is cloudy, with occasional showers.

PHILADELPHIA, August 9.—A heavy storm, Saturday night, caused considerable damage in and around the city. The large gasometer at Ninth and Diamond streets was crashed in. It was empty at the time, the gas having been drawn off. The tank was of 500,000 cubic feet capacity. The culvert in Montgomery avenue, from Ninth street to Germantown Railroad, broke, and the street, from curb to curb, caved in. A wagon containing Harry Steele, aged fourteen, and Edward Sherrill, aged thirty-five, while on the bridge over Wingohoken Creek, in Germantown, was, with the bridge, washed away. Both persons were drowned. The wagon was broken and horse drowned. The bodies were recovered to-day. Germantown had several sewer breaks.

MILWAUKEE, August 9.—In the Supreme Court, the arguments in the railroad injunction suits were continued. Hon. B. Cook, attorney for the North-western Railroad, occupied most of the day with the argument against the jurisdiction of the court. Considerable confidence is expressed here, from the remarks of Chief Justice Ryan, yesterday, that the court will refuse to issue the injunction, on the ground that it has not original jurisdiction.

NEW YORK, August 9.—A Wilmington despatch says that the body of a wealthy drover, named Robert A. Mackey, was found in a creek near Odessa. He had been robbed and murdered. The police are in pursuit of Joseph Taylor, who was last seen with Mackey.

When Woodhull and Claflin were in the court, to-day, their counsel pledged his word that they would appear when called upon, and the counsel for the plaintiff accepted that kind of bail for professional courtesy. The women immediately left the court, and proceeded aboard the steamship and sailed for Europe.

The steamship *Washington*, from New Orleans, passed the wreck of a small vessel, bottom up, which has been in that condition since last fall. It is lying in thirteen and a half fathoms water, about eighteen or twenty miles South of Cape Canaveral, and in a very dangerous position, as it is right on the track of the steamships bound South. It has drifted about forty miles in the last eight months, anchors evidently holding it.

Resident Englishmen here state that the English cricketers allow no betting on their games and never bet on any of their matches, claiming that some but gentlemen comprised the team that contested and were beaten by the Americans on the 31 and 4th instants. It had been intimated in a newspaper that the Englishmen allowed the Americans to bet, in order to get heavy bets on another game, and retrieve both pocket and reputation.

In relation to the reports that a compromise was being patched up between the friends of Tilton and Beecher, the chairman and another member of the Beecher committee state that they have no knowledge of such a proceeding, and the committee will persevere in its investigations until the end is reached.

A rain storm of the last forty-eight hours has been very heavy on the Connecticut and Long Island shores. The storms in New York city, Brooklyn and the vicinity, have been accompanied by a heavy northerly gale, stripping the trees of foliage and doing other slight damage.

SAN FRANCISCO, August 9.—In a prize fight near Ballavak, a man named Blair was killed by his opponent. Wonderful gold discoveries are reported in Thames District, forty miles from Auckland.

Immigrants are arriving in New Zealand from Great Britain at the rate of 6,000 per month. The steamer *Macgregor* arrived, after a passage of thirty-five days, from Sydney. The steamer *Micado* had arrived at Sydney, after being nine days over-due, her machinery being out of order.

The commissioners sent from France to New Zealand to investigate the facts relative to the escape of Rochefort have been at work, the result being that all the convicts in New Caledonia will be removed to the Isle of Pines for better security.

The *Honolulu Gazette* says the King's Cabinet ought to be remodeled, the present members being mere adventurers. The Legislative Assembly has passed a bill to aid steam navigation to foreign countries.

Thomas Strong, the mate of the ship *Pride*, of this port, which arrived yesterday from Boston, was arrested last night for the murder of a sailor named Antonio Sparice, by knocking him from the fore-tree to the deck.

NEW YORK, August 10.—The *Herald's* correspondent has interviewed Don Carlos. In reply to a question regarding the Cortes, he said it should be elected fairly and fairly by the nation. The Cortes, which should reflect the feelings, interests, wishes and sentiments of the people, ought not to be a mere body of faction politicians, alike powerless for good and strong for evil, promulgating doctrines for the overthrow of society, and ending with barricades. I wish Spain to march onward to progress and enlightenment, and not remain behind later nations in science and education, without which Spain will be outstripped in the race for wealth and prosperity; but something is radically wrong in the modern current of thought and system of education. The world is rushing into gross materialism and unbelief, which, unless checked, must end in the extinction of the human race—the fault thereof being the modern Godless system of education and modern methods of investigation. To-day's savants will be called fools by the savants of twenty years hence, for wishing to discard truths that have borne the test of ages. Spain shall never submit, if I can help it. Religion and education assist each other. Science without religion is blind; adding, with a smile: "I am at present occupied with other matters; when the enemy is conquered, my throne restored and peace and order prevail, then is the time to consider education." Touching Cuba, he said he would offer free pardon and amnesty, and would guarantee a Government devoted to the interests of the island. He said he was opposed to slavery and would abolish it with all speed. Carlos is very sanguine of the success of his cause, declaring his prospects favorable and giving good reasons therefor.

Judge Morris, Tilton's counsel, said to-day: Tilton has not yet commenced suit against Beecher. The papers will be served just as soon as they are prepared. The suit which Tilton proposes to bring against Beecher has no reference to the action of the committee whatever. The action of the committee will neither hasten nor delay the commencement of the action for a moment. In order that there may be no necessity for further question as to the proposed proceedings, the action will be brought in the Supreme Court precisely as stated. It will be an action against Mr. Beecher for criminal conversation with Mrs. Tilton. The amount claimed will be in accordance with the magnitude of this suit. But, in this connection, Mr. Tilton's purpose in bringing the action is not to receive any pecuniary benefit, but simply to vindicate his good name against the atrocious slanders to which he has been subjected. So far as Tilton is concerned, the case will be pressed for trial at the earliest possible day. The report of the committee will have no effect on Tilton's case at law.

Gen. Butler, who is in this city to-day, told a reporter that he never gave an opinion in a case until he had seen evidence, and in this case he had not seen evidence. Questions were to-day asked of a gentleman connected with the case, as to what the committee proposed to do, if Moulton should offer a statement, but decline to submit to a cross-examination. The answer was, that the committee would not decline to receive Moulton's statement at all; and if Moulton should then make public his statement, they would simply have to go before the country on such a state of facts, and let the people decide the question. It is certain that the committee would receive from Moulton documents, if he desired to turn them over without any statement; but should he weave those documents into a statement in which he should characterize those papers and draw conclusions from them, and then decline to submit to cross-examination, the committee would certainly refuse to accept such statement.

Trux, N. Y., August 10.—A special despatch to the *Times*, from Bennington, Vt., announces the arrest of a woman named Flynn, who has a child answering the description of Charlie Ross, the kidnapped boy. She tells contradictory stories.

A third despatch from Bennington says that the child on being questioned, said: "My name is Charlie Ross—but this mamma says I must not tell any one."

CINCINNATI, August 10.—The unknown bodies of fifteen have been buried, but careful descriptions of the persons and property preserved. The known loss is forty-seven.

MEMPHIS, August 10.—Parties who arrived from Somerville, this morning, state Albert Reeves, Republican candidate for Sheriff, who was shot by Burton on Friday, died last night. His brother Paul was dying this morning. Judge J. G. Reeves, another brother, who was shot at the same time, and Oscar Barton will both recover. Everything was quiet there and the Chickasaw Guards, from this city, have returned.

ATLANTIC CITY, August 10.—The bondsmen of D'Oiley, Sharpless and Miss Annie Roberts, who were drowned

while out sailing, were found yesterday, in the inlet. It is supposed that the bodies had been buried in the sand and were washed out again by the late storm. All the bodies of the disaster have now been found.

RALEIGH, N. C., August 10.—The city is ablaze with enthusiasm, celebrating the Democratic victory of Thursday last. A torch-light procession and speaking at various points in the city. Among the speakers is Mayor W. F. C. Gregory, of Petersburg, Va. Good feeling existing. The State is Democratic by not less than 10,000, with seven Democratic Congressmen and the Legislature three-fourths Democratic.

PITTSBURGH, PA., August 10.—The trains arriving here last night and this morning brought large delegations of roughs, to witness the Collier-Edwards prize fight, which takes place to-morrow morning. Both men are in excellent condition; Collier weighs 135 pounds and Edwards 132. Betting is about even. The steamer L. C. McCormick will leave at mid-night for the scene of the fight, to prevent arrest of the principals, who will not be taken on board at Pittsburgh, but will be picked up en route to the battle-ground. Probably not a dozen men in the city know the exact location of the ground, and the destination will not be named till after the boat has left the wharf.

New York, August 10.—The coroner's jury in the case of the death of Mrs. Potter, at Dr. Scheffeler's water cure establishment, found him guilty of negligence in causing her death. He was held for trial.

Ben. Butler, Thomas Keussela and B. Tracey called on Moulton this morning—what for we do not know. Beecher is in town at his home. Tracey says he will not cross-examine Moulton, as he is a client of his. Slearman says Beecher's statement is all ready and will be given to the committee to-morrow.

St. Louis, August 10.—Madame Fortmeyer, a midwife, was arrested yesterday, on the charge of procuring an abortion. The dead body of a young mulatto girl, named Lena Miller, was found in her house, and another young woman, name unknown, was found lying very sick and in great pain; one of the infants was also found in the house, and the partially burned bones of a foetus were discovered in the stove. It is stated that the Madame has practiced abortion several years; that a number of infants or foetuses have been cremated by her, and that several highly respectable persons in the city are involved in the matter. The coroner will hold an inquest on the body of Lena Miller and the remains of the infants to-day.

WASHINGTON, August 10.—D. S. Burch has been appointed Collector of Customs at Petersburg, Virginia.

A despatch from Chicago announces the death of Bishop Whitehouse, of Illinois, in that city.

It is stated on the authority of a prominent official of the Post Office Department that the contractors for furnishing postal cards have never yet furnished a card equal in the quality of the paper to the requirements of the original contract. The contract is for four years and has three years yet to run.

Capt. Munson, commanding Camp Ruggles, in a communication dated July 31, 1874, and received at the headquarters of the army to-day, states that the grasshoppers have destroyed almost the entire crop of corn, oats, potatoes, etc., in the Louis and adjoining valleys. Capt. Munson suggests that the farmers who have suffered this loss should be employed in building the post, and in handling material for the same. He thinks it would prevent much suffering during the coming winter.

The Carlists obtain their war material by sea through remissness of the Spanish in watching the coast.

Probabilities.—For the Middle States and lower life region, falling barometer, rising or stationary temperature, partly cloudy weather and rain spars. For the South Atlantic and Gulf States, lower barometer, high temperature, winds mostly from South-east to South-west, partly cloudy weather, and over the former occasional rain areas. For Tennessee, the Ohio Valley and Northward over the upper lake region, falling barometer, generally high temperature, fresh and brisk South-west to South-east winds, partly cloudy weather and rain.

CHARLESTON, August 10.—Arrived—Steamship's South Carolina, New York; Falcon, Baltimore; Moro Castle, Philadelphia.

Telegraphic-Commercial Reports.
New York, August 10.—Noon—Money easy, at 2½. Gold 9½. Exchange—long 4.78½; short 4.91. Governments active and a little off for some. Cotton dull; sales 41—middling uplands 17½; Orleans 17½. The grounds are in a high state of cultivation, having thereon fruit trees of various kinds. The place will be sold on easy terms to an approved purchaser. Possession given immediately. Inquire of
W. W. DEANE,
At Presbyterian Publishing House.

State South Carolina, Barnwell Co.
By the Board of County Commissioners of said County.
BY virtue of an Act of the General Assembly of said State, ratified on the 12th day of February, A. D. 1873, and of a resolution of the said Board of County Commissioners, adopted on the 15th day of June, A. D. 1874, the undersigned Barnwell, the County seat of said County, on MONDAY, the 7th day of September next, it being sale-day, the COURT HOUSE BUILDING AND LOT, in the town of Blackville, with all its privileges and appurtenances, to the highest bidder for cash, and will make titles to the purchaser at said sale.

DESCRIPTION OF THE BUILDING.—A large, new and finely constructed brick building, two stories high, fronting the South Carolina Railroad, and one hundred yards more or less, distant therefrom; said building being forty feet wide by sixty feet long, containing six spacious rooms on the first floor, and a spacious court hall, and two small rooms on the second floor, all plastered and nicely finished, with four fire-places in the hall and one in each room of the building, with passage-way nine feet wide running through the entire length of the building on the ground floor; said building being roofed with tin fitted up with mangle-pieces, Venetian blinds, window sash, and in every way commodious and convenient.

The lot of land belonging to the County, upon which said Court House building is situated, contains two acres, more or less.
J. ALLEN TOBIN,
Chairman.
HERCULES McCREARY,
HENRY COCKER,
County Commissioners Barnwell County.
