

Telegraphic-Foreign Affairs.

PARIS, August 11.—There is great excitement in this city, in consequence of the receipt of intelligence that Marshal Bazaine has escaped from the Island of Santa Marguerite, some time during Sunday night. The details of the manner in which he succeeded in getting away are unknown, except that he used a rope ladder and got on board a vessel bound for Italy. The night was dark and stormy. The journals of this city declare that the Government will act promptly and energetically in punishing all who connived at his flight.

Telegraphic-American Matters.

NEW YORK, August 10.—The Brooklyn Argus says the statement submitted by Moulton covers more than twice the number of pages of manuscript used by Mr. Tilton in his answer. In his statement, Moulton rests his case almost entirely on documentary evidence, which has been voluntarily placed in his possession by Beecher, Tilton, Mrs. Tilton, Mrs. Morse, Mrs. Tilton's mother and other persons. Moulton declares, with repeated and earnest assurances, that he has preserved his friendly relations with all parties to the case during the long period covered by the documents in his possession, and that he has since sincerely desired to effect a reconciliation between Tilton and Beecher, when at tacks upon Tilton were made public; but on account of Beecher's friends, Moulton felt compelled to come to the support of Tilton, and approved of the course taken by Tilton in self-defense. Mr. Moulton finds it necessary to recur to the beginning of the controversy, the whole difficulty having originated in a difference between Henry O. Bowen and Tilton. He gives a history of Tilton's serious complications with Bowen, and step by step traces the progress of the breach between them, leading up to the final complication between Tilton and Beecher, out of which grew the tripartite covenant. Moulton makes incidental allusion to some of the important interviews mentioned by Frank B. Carpenter, especially those which related to Bowen's connection with the case. Moulton's narratives come in due course to accord between himself and Beecher, in the house of the latter, the letters written by Mrs. Tilton, at the request of her husband and Beecher, the writing of Beecher's apology, the whole text of which has already been made public, and a remarkable letter, in which Mr. Beecher describes himself as living on the sharp and rugged edge of anxiety, remorse, fear and despair. The last named letter has remained in the custody of Mr. Moulton from the day it was written up to the present time. A small portion of it, included in Mr. Tilton's sworn statement, was all that was then placed by Mr. Moulton at Mr. Tilton's disposal. The whole letter occupied two full pages of foolscap paper, and the intensity of expression revealed in the extract already published is its prevailing tone throughout. All the letters from Mr. Beecher, from which quotations are made in Mr. Tilton's statement, have been laid in full by Mr. Moulton before the committee. It is established by Moulton's evidence, that the letter of apology written by Mr. Beecher, on the evening of January 1, 1871, was, as has already been intimated, written by Mr. Moulton, at Mr. Beecher's dictation, and that Beecher himself wrote the last line and appended his signature. The statements made by Mrs. Tilton, in her published denial, and in her cross-examination before the committee, are not sustained by Moulton's evidence. He states that Mrs. Tilton communicated with him free and confidentially in regard to the complications of this scandal, regarding him as a friend of herself, her husband and Mr. Beecher. Mrs. Morse also made a confidant of Mr. Moulton, depositing with that gentleman some important letters bearing on this case. These letters, together with others written to Tilton, go far towards strengthening Tilton's position. It is now understood that the statement revised by Mr. Moulton will be furnished to the press for publication about noon to-morrow.

NEW YORK, August 11.—Moulton's testimony was very brief. He refused to give up any documents to the committee excepting such as had been alluded to and of which extracts had been handed to the committee by Tilton. These show that Tilton had garbled letters for his own advantage, and, in some cases, had divided documents for the purpose of handing in cumulative testimony.

The Washington column of the Herald, to-day, contains the following, dated the 9th inst.: Supervisor Perry, of North Carolina, arrived here this morning, en route for Maine, where he will spend a week. He says that the Civil Rights Bill is what killed the Republican party in North Carolina, and concedes a Democratic majority of 10,000. Two years ago, it will be remembered, this official was the leader of the Republican party in North Carolina and organized the State so as to secure a Republican majority, to affect the Presidential campaign in November, 1872. The sudden change bewildered him, and he thinks it would have been better had Congress disposed of the civil rights measure. So great a victory on the part of the Democrats, he fears, will encourage illicit distillation, and he will ask that a military posse be established in the parts of the State where it has already been suppressed.

PITTSBURGH, Pa., August 11.—The vigilantes went into the city at 3.30 P. M. Up to 4 o'clock, eight rounds had been fought. The first round was won by Collier and the other by Edwards, who knocked Collier down on the second round. Collier responded slowly. On the eighth round, betting

was 100 to 25 in favor of Edwards. On the eleventh round, a few exchanges were had, when Collier refused to continue the fight, on the ground that Edwards had something in his hands. The judge refused to allow the claim and ordered the fight to go on. Collier refused and the judge withheld his decision.

MIDWAY, WOODFORD COUNTY, Ky., August 11.—D. B. Maio, a jeweller, was killed, last night, and his body carried away. It is unknown whether robbery or revenge prompted the act.

ATOHISON, KANSAS, August 11.—The grasshoppers have literally devoured everything in Northern and South-western Kansas and Nebraska. The damage inflicted on vegetation is far greater than in 1866. The corn crop throughout all this region is totally destroyed.

CHICAGO, August 11.—Bishop Whitehouse had been sick but a little over a week. Previous to his illness, he had taken a trip of twenty-one days to Wisconsin, and during that period had preached forty sermons. His efforts proved too much for his constitution, and he at once gave up work on reaching home. He was not considered dangerously ill until Saturday evening, when he suffered a paralytic stroke and became unconscious. Yesterday, he roused sufficiently to recognize his children and receive the holy communion, but thenceforth declined gradually until his death, which occurred at 9 o'clock, this morning. At the time of his decease, his age was 71.

CAPE MAY, August 11.—Two ladies drowned while bathing. It is feared the keeper of the new light-house at Henford Inlet has been lost, as his boat was found bottom up.

ST. LOUIS, August 11.—The police have considerable information in the Fortmeyer abortion case, but refuse to give it out at present. It can be said, however, that she has made a confession, to the effect that she has been in the business seven years, has procured several hundred abortions and implicates quite a number of highly respectable persons in this city. It had been her custom to burn all footnotes, on the ground, as she expressed it, that "ashes tell no tales." The German girl who was sent to the hospital, she says, will die.

MEMPHIS, August 11.—A special to the Appeal, from Helena, Arkansas, received at 8 o'clock this morning, says at 11 o'clock, last night, three ladies and two gentlemen arrived here from Austin, in a skiff, and report considerable fighting late yesterday evening. The commander of the post, whose name we did not learn, dispatched a scout of twenty-five men on the road to Cold Water Station, on the Mississippi and Tennessee Railroad, and captured a picket of twenty negroes, who were stationed about twenty miles from the town, and brought them in as prisoners and disarmed them. One of them, as they were being put into the Court House yard, tried to make his escape, when he was fired upon and killed, and in the melee which ensued, another negro was wounded, but not fatally. Later in the evening, a larger body of negroes advanced from the South and attacked the town, driving in the whole of the skirmishers to the Court House, where the main body of the whites were stationed. A charge was made by the whites and the negroes were repulsed, with a loss of several killed and wounded. The fighting was going on when our informants left, and they were fired upon as they crossed over to Ship Island. A second despatch from Helena says: "Major Horn Chalmers, of Hernando, has just arrived here, for the purpose of chartering a boat to take men to the assistance of the whites in Austin. He says a courier from Mayor Woodson, of Austin, reached Hernando, at day-light, stating that the town was surrounded by about 1,000 negroes, and asking for help. About 200 men from Hernando and vicinity will be here at 2 o'clock, and in company with volunteers from this city, will start at 4 o'clock for Austin. Dr. Smith, who is the unfortunate cause of the trouble there, reached here last night. Some three weeks since, he was attacked in the streets of Austin by a negro, and drawing a pistol, fired at the negro, but missed him and killed a little negro girl standing by, which exasperated the negroes to such an extent that they collected a mob and took Dr. Smith to the woods to hang him, which they would have done, but for the entreaties of Mayor Woodson and the doctor's wife. Since that time, Dr. Smith has been a voluntary inmate of the jail, to prevent being mobbed, when some friends came and carried him to Hernando. On learning which, the negroes collected in large numbers and notified the Mayor that unless he was brought back and put in jail, they would burn the town.

Third despatch to the Appeal, from Helena, says telegrams are being received from the vicinity of Austin, asking for men, arms and ammunition, and stating that unless the whites, who are surrounded in the Court House, are speedily relieved, they will be forced to surrender or be captured. The steamer A. J. White has been chartered to leave at 5 o'clock, and will carry a large number of men, well armed. Another despatch says the negroes surrounding Austin were charged on South, this morning, by a body of mounted whites, who killed four or five and captured twenty negroes. The blacks number about 700; the whites have about 200; both parties are expecting reinforcements. At present, the whites have the best of the fight. The negro hands on the plantations opposite, on the Arkansas side, are arming and marching on Austin in large numbers.

CHICAGO, August 11.—General Pope telegraphs Lieutenant-General Sheri-

dan that the Indians who had been marauding in South-western Kansas have gone to the borders of Kansas and Colorado. The country is filled with game and the battery have abundance of ammunition. Three columns of troops now operating will converge in the section named.
