A correspondent of the Union Heraid, writing from Camden, over the signature of "I No," has the follow-

ing:
"At present, the utmost harmony exists between the two races, but any close observer can see there is a latent think the presence of a few United States boys in blue will have a very salutary effect during the election."

We can bear testimony to the truth of the statement that the utmost harmony exists between the true recent constants. States a latent that the utmost harmony exists between the true recent constants. So,000.

harmony exists between the two races in Kershaw County, but the "latent fire that needs but a fanning," can be found, if found at all, only in the excited imagination of the writer.

[Camden Journal.

The business men and property owners of Chicago are at length brought to face the problem of trans-acting their business and holding their property securely without the aid of the insurance companies. The city government of Chicago having declined to take the precautions against fire suggested by the National Board of Fire Underwriters in July last, that body has now issued a circular, advising all companies to discontinue the budness of fire insurance in Chicago after the lat of October. No basis of coppromise or other adjustment is yet suggested, but it hardly seems possible that Chicago can for long dispense with the aid of the insurance compinies. As business is now done, thicago merchants could get no credit on uninsured goods, and would, in tot, have virtually to go out of business. Money cannot easily be raised by mortgage on uninsured buildings. fire which should at any time deroy the uninsured stock or buildings a wealthy citizen of Chicago, actively ennected with its business system, hereby rendering him bankrupt, hight bring on a local financial crisis a times of scarce money. The experient on which Chicago seems fairly

The tobacco growers of Virginia bave been unfortunate this season. In some of the Counties where this produot has been extensively cultivated, there will not be one twentieth of the usual crop secured. In other Coanties, the crop will seldom yield more than one-balf or one-third of the customary product, according to a correspondent of the Richmond Enquirer, who has investigated the matter very thoroughly. thoroughly.

with eager interest.

HOW THE IRISH TEAM TAKE THEIR DEFEAT.—The Secretary of the Irish Rifle Team recently said to a reporter: "I consider it the most remarkable rifle contest that has taken place. We ntterly outdid ourselves, and you sur-prisingly outdid us. It was an issue that we did not expect, but, under the circumstances, a contest that we are not ashamed of. Do not consider me as an individual, but regard me as speaking for the entire team, when I met with such admirable marksmen as you Americans. As far as the range is concerned, it is admirable. It could not be better. It far excels our range at home. I was perfectly delighted with it?"
