

Telegraphic-Foreign Affairs.

MATAMORAS, November 20.—The Mexican Congress has decreed that the constitution of a Senate is made up of two Senators from each State and Federal District of the Republic. Peace prevails at all points. Shocks of an earthquake were recently felt at intervals along the route from Vera Cruz to Guanajuato. The shocks commenced on the 18th instant, and it is thought that they threaten the approach of extraordinary volcanic eruptions.

CITY OF MEXICO, November 23.—A terrible subterranean rumbling commenced on the 11th instant at Guanajuato, and was followed by a trembling of the earth. Many edifices were injured by the shock. The rumblings have since become so continuous that the people are alarmed and many families are leaving.

LONDON, November 23.—A dense fog makes travel by land and water dangerous. Several railroad accidents are reported.

There is to be a torch-light procession in Manchester to-night, in commemoration of the Fenian martyrs who were executed in that city.

MADRID, November 23.—Marshal Serrano will go to the North, next month, for the purpose of expediting operations against the Carlists. The Government has exiled two generals and several civilians, known to be partisans of Prince Alphonso, son of ex-Queen Isabella. Other persons are to be sent into exile for the same reason. All congratulatory telegrams sent from this country to Isabella, on the occasion of the anniversary of her birthday, wherein she is styled "Your Majesty," were stopped. A vigorous censorship over all despatches is still maintained throughout the Republic.

SAN FRANCISCO, November 21.—The trot for a purse of \$8,000, mile heats, best three in five, to wagon, postponed from November 7, took place to-day, at Golden Gate Driving Park, the contestants being Occident, Judge Fullerton and Sam. Parry. The weather was fair and attendance immense. Fullerton won the first heat in 2:22 1/2; also the second, in 2:22 3/4. Fullerton won the third heat and the race, in 2:21 1/4.

NEW YORK, November 22.—Archbishop Bailey, of Maryland, in a letter to a friend, who called his attention to the controversy between Gladstone and Manning, says: "The former's declaration that the decrees of Papal infallibility impair the civil loyalty of those who believe in it, is a false and shameful calumny, and he appeals with perfect confidence as to the truth of his assertion to the conscience of any Catholic on the face of the earth. It has no foundation either in the words of the decrees, nor in any possible logical deduction from these words. The thought even that it would have any such bearing, I am certain never entered into the mind of any of the members of the Council. The Vatican canon did not change in one iota the relations of Catholics to the civil power any more than it changed those of Protestants. It left that important matter, as connected with the order of civil society, where the New Testament leaves it."

TUSCUMBIA, ALA., November 23.—A terrible storm occurred here last evening, at 6 o'clock, destroying one third of the residences; twelve persons killed and many others injured. Mrs. Wm. Winsten, mother of the late ex-Gov. Winsten, the wife and two children of Hon. J. B. Moore, Senator from this district, F. D. Hodgkins, Esq., editor of the Chronicle, his wife and four children were killed. The Catholic Church, Disher Female Institute, (recently finished,) many of the finest residences, both of the flouring mills and the most substantial brick dwellings in the town were destroyed. Many families are without homes. A bridge on the M. and C. road, near the town, was destroyed. The Eastern bound train was precipitated into Spring Creek, but fortunately no one was killed by the engineer. It will be several days before trains will run through. The Mayor appeals to Huntsville, Louisville, Nashville and Memphis and adjoining towns in the following terms: "Nearly half our town is in ruins; twelve persons killed and many wounded; a large number of families are entirely destitute. The tornado came from the South-west, passing North-east. Unless immediate aid can be extended to us, much suffering will be the result. We appeal to the charity of a Christian public in behalf of the unfortunate."

(Signed,) H. B. NEWSUM, Mayor Tusculumbia.

NASHVILLE, TENN., November 23.—A heavy storm has prevailed South and West of here for twenty four hours.

MONTGOMERY, November 23.—Senator Moon was here, but left this morning for desolated section. In Montevale, two are reported killed and twenty wounded. It is rumored that a bridge on the Memphis and Charleston Railroad was wrecked, and that a train plunged in the river, killing and wounding 40; but it needs confirmation.

WASHINGTON, November 23.—The resignation of Architect Mullett is the sensation of the day, and as it affects nearly every Southern city, the following, from the Critic, is telegraphed: Architect Mullett resigns. On Saturday quite a breeze was raised about the office of the Secretary of the Treasury, just after office hours. It appears that Mr. A. B. Mullett, the Supervising Architect of the Department, visited the Secretary's office for consultation, as it is usual in the Departments. In the course of the conversation, the subject of disbursing funds for the payment of the bonds in the cabinet-making department of Mr. Mullett's office, was brought up, and a difference

of opinion was soon made manifest. Mr. Mullett desired to control this matter, agreeable to his own convictions of right, not so much because he cared particularly in this special instance, but because this shop was a component part of an immense ratification, the disturbances of which would affect the whole machinery of which he had no control. The Secretary said that they had concluded that Mr. Mullett did not have the power in this matter, and that he could not be permitted to carry out his wishes in this particular. Mr. Mullett said: "Mr. Secretary, I would tender my resignation, sir, before I would surrender my control in this matter." The Secretary said: "I don't care a d—n if you do." Mr. Mullett—"I do tender my resignation now, Mr. Secretary." The Secretary—"I accept it, at once, sir." Mr. Mullett here retired to his office, but this morning he called on the Secretary and shook hands with him, and said he would call on him again this afternoon—not having any ill-feelings whatever in the matter. A. R. Shepherd, who has large contract under Mullett to fill, was at the Treasury to-day, endeavoring to have Mullett withdraw his resignation and amicably settle the matter with the Secretary. It is now understood that the Secretary has tendered the vacant place to Mr. McArthur, of Philadelphia.

There is a hurricane in Trenton, N. J., and a gale is blowing here to-night.

Soluble Pacific Guano.

\$18 Cash, \$53 Time, Without Interest. PACIFIC GUANO COMPANY'S COMBINED ACID PHOSPHATE OF LIME for composting with cotton seed—\$33 cash, \$38 time, without interest.

To accommodate planters, they can order now and have until late April to decide whether they will take at time or cash price. When delivered from factory by car load, no drayage will be charged. This guano is now so well known in all the Southern States for its remarkable effects as an agency for increasing the products of labor as not to require a special recommendation from us. Its use for several years past has established its character for reliability and excellence. The supplies put into market this season are, as heretofore, prepared under the supervision of Dr. ST. JULIAN RAYNELL, Chemist of the Company, at Charleston, S. C., hence planters need assured that its quality and composition is precisely the same as that heretofore sold.
