VOLUME XI—NUMBER 6.

KISSING ABUSED.—The St Louis Globe, evidently disgusted at the abuse the prominent litigants in the Brooklyn scandal trial have made of the "kiss," pours the following broadside into the court room: "A genuine kiss needs fervor and flavor to begin with, and is not perfect without a certain infusion of lawlessness, and ample conviction of choiceness and exclusion. On the latter point the demands of propriety is inexorable. The kiss is above the bow, or the shaking of hands less for its real value than as an index of intimacy and preference. The fact that you receive a courtesy agreeable per se, is enhanced tenfold by the reflection that, while many others desire ardently the same courtesy, it is withheld from them—an inference that flatters vastly your sense of superiority. But when these people met they kissed round; the sexton kissed the sister, and the sister's husband hugged the deacon's wife, and the deacon swapped breath with the parson's—no, we do not know that as yet Mrs. Beecher is accused of having kissed anybody. Through the whole scene, a scene unparalleled in history since the monkey married the monstrous baboon's sister, moves Mr. Beecher with sixty or seventy different kinds of hair on his coat, and a stiff upper lip glistening in a state of chronic slobber and due. Mrs. Tilton kissed, it would appear, in a Quaker-fashion, saying, 'I greet thee,' while Mr. Tilton's osculation were delivered after the manner of the Orient.

Young women in search of employment should emigrate to Nevada. Female teachers in Virginia City receive \$100 to \$200 per month in gold coin. Board costs about \$85 per month, and lodging from \$15 to \$75, according to location and size of room. Domestic command from \$35 to \$40 per month and board. However, only good-looking girls need make any effort to reach this paradise for the suppressed sex; for as teachers, they would certainly not pass the examination of the Superintendent of Public Instruction, who is a single man, and as servants, they would inevitably be superseded by Chinamen, who are deemed very much more reliable. For pretty women there is reserved a better fate. Four weeks is about all the time that one of these desirable creatures is allowed to remain single in Nevada. After that they are sure to be captured by some miner, whose prospects are full of silver and whose heart is full of love.

Internal improvements are being pushed forward with very great rapidity in Russia, under the fostering care and protection of the Czar, who has just given his consent to the commencement of 5,400 miles of new road in his dominions. There are already in operation in Russia 12,000 miles of railways. They return an annual income of \$20,000,000 per annum. In addition to this, they are of immense importance to the Government in sending troops from one point to another. Russia is so large that she must have means to transport her forces readily from North to South, from East to West, to meet an enemy or take the start in an onward movement of an important character. The Czar understands the matter perfectly, and is putting railroads "where they will do the most good" from his point of view.

At a Dress Reform Convention held in Worcester, Mass., last week, a formal resolution was passed, asking Congress to limit the length of ladies' skirts. Congress has just as much right to prohibit the wearing of skirts altogether. But it seems the Massachusetts women, as well as the men, since they have conceived the idea of legislating away all the distinction between the sexes, are under the impression that Congress can do any and everything.

An experienced papa, speaking of a youthful baby, says: "Its mouth, when shut, ain't bigger than a worm hole in a hickory nut, but it is generally open, and as big as a stove pipe hole."

So many applications for divorce have been made to the Idaho Legislature, that Mr. Paddock has introduced a bill divorcing all the married people in the Territory, and placing them in statu quo ante matrimonium. This, he says, will save time, and those who wish can be remarried.

"Now, then," said a physician, cheerily, to a patient, "you have got along far enough to indulge in a little animal food, and—" "No you won't, doctor," interrupted the patient; "I've suffered enough on your gruel and slops, and I'd starve sooner than begin on hay and oats."

From a Western paper: "Yes, boys," said Nancy Bell, a female blacksmith of Iowa, as she straddled a horse's leg and yanked off a shoe, "I was brought up to this business, and so was mother; and there ain't been no Beecher scandals in our family, for sure."

"Do you like to go to church?" said a lay to Mrs. Partington. "Law me, I do," replied Mrs. P. "Nothing does me so much good as to get up early Sunday morning and go to church and hear a populous minister dispense with the gospel."

"The Lord never meant for us to bile over with religion this cold weather!" said a Duluth deacon, as he dismissed church and went home to hug the stove.

Dickinson denies saying that she could as soon love a rhinoceros as a man, and we accept the apology and hope the rhinoceros will resume his jovial bearing.

The symptoms of Liver Complaint are excessive and pain in the side. Sometimes the pain is in the shoulder, and is mistaken for rheumatism. The stomach is affected with loss of appetite and sickness, bowels, in general, costive, sometimes alternating with laxity. The head is troubled with pain, and dull, heavy sensation, considerable loss of memory, accompanied with painful sensation of having left undone something which ought to have been done. Often complaining of weakness, debility and low spirits. Sometimes many of the above symptoms attend the disease, and at other times very few of them; but the Liver is generally the organ most involved.

Containing those Southern Roots and Herbs, which an All-wise Providence has placed in countries where Liver Diseases most prevail. It will cure all Diseases caused by Derangement of the Liver and Bowels.
