Scrofula, or King's Evil,

is a constitutional discase, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, discarding or unlocative freed improve as fifth

caused by mercurial disease, low living, dis-ordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. What-ever be its origin, it is hereditary in the con-stitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the

blood of corrupt or ulcerous matter, which, in

the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, cruptions or sores. This foul cor-ruption, which genders in the blood, depresses the energies of life, so that scrofulous constitu-

tions not only suffer from scrofulous com-plaints, but they have far less power to with

stand the attacks of other diseases; consequently vast numbers perish by disorders which, although not scrofulous in their nature,

are still rendered fatal by this taint in the system. Most of the consumption which de-

cimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain,

and, indeed, of all the organs, arise from or

are aggravated by the same cause.

One quarter of all our people are scrotulous; their persons are invaded by this lurking infection, and their health is undermined by it.

To cleanse it from the system we must renovate the blood by an alterative medicine, and in-vigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is com-bined from the most active remedials that have

been discovered for the expurgation of this foul disorder from the blood, and the rescue of the

system from its destructive consequences.

Hence it should be employed for the cure of not only Scrofula, but also those other affec-

tions which arise from it, such as Eruptive and Skin Diseases, St. Antiony's Firs, Rose, or Erustrelas, Pindles, Pustules, Bioteches, Blands and Boils, Tumors, Tetter and Salt Rheem, Scald Head, Ringworm,

RUSEWATISM, SYPHILITIC and MERCURIAL DIS-

EASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITTATED OR IMPURE BLOOD. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The

particular purpose and virtue of this Sarsapa-rilla is to purify and regenerate this vital fluid, without which sound health is impossible in

Aver's Cathartic Pills,

FCR ALL THE PURPOSES Of A FAMILY PHYSIC, are so composed that disease within the range of their action can rarely withstand or evade them. their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints. Costiveness, Heartburn, Headache arising from disordered Stomach, Naissea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Lots of Appotite, Jaundice, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

The Broom.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bad. Multitudes can, by the side of this reaches are the product of the reaches are the produc THE BLOOD. the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pinples, eruptions, or sores; cleanse it when you find it is ob structed and sluggish in the veins, cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something

must go wrong, and the great machinery of life is disordered or overthrown. Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously decived by preparations of it, partly because the drug alone has not all the virtue that is cisimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla,

or any thing elso
During late years the public have been mis-led by large bottles, pretending to give a quart
of Extract of Sarsaparilla for one dollar. Most of these have beer frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatev-er. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the sarsaparam when noot the marce, that are name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intend-ed to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on

Ayer's Cherry Pectoral has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been em-played. As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.
