AYER'S AGUE CURE. FOR THE SPEEDY CURE OF

INTERMITTENT FEVER, or Fever and Ague, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache, or Bilious Headache, and Bilious Fevers, indeed for the whole class of diseases origin nating in biliary derangement, caused by the Malaria of miasmatic countries. Ko one remedy is louder called for by the necessi-

ties of the American people than a sure and safe cure for Fever and Ague.

Fever and Ague is not alone the consequence of the miasmatic poison. A great variety of disorders arise from its irrutation, among which are Neuralgia, Rhemmatism, Gott, Headuche, Blindness, Toothache, Earache, Catarrh, Asthona, Palpitation, Painful Affection of the Spleen, Hysterics Pain in the Bowels, Colic. Paralysis, and Perangement of the Stomach, all of which, when originating in this cause, put on the intermittent type, or become periodical. This "CURE" for Fever and Ague. ermittent type, or become periodical This "CURE expels the poison from the blood, and consequently cures them all abke. It is an invaluable protection to in migrants and persons travelling or temporarily residing in the malarious districts. If taken occasionally or daily while exposed to the infection, that will be exercted from the system, and cannot accumula in sufficient quantity to ripen into disease. Hence is even more valuable for protection than cure, and few will ever suffer from Intermittents, if they avail themselves of the protection this remedy affords.

SYRUP.

To cleanse it from the system we must renovate the blood by an alterative medicine, and in-vigorate it by healty food and exercise. Such a medicine we supply in

AYER'S Compound Extract of Sarsaparilla, the most effectual remedy which the medical skill of our times can devise for this everyskill of our times can devise for this everywhere prevailing and fatal malady. It is combined from the most active remedials that have
been discovered for the expurgation of this foul
disorder from the blood, and the rescue of the
system from its destructive consequences.
Hence it should be employed for the cure of
not only Scrofula, that also those other affections which arise from it, such as Emptrive
and Supplications. See Acquious's Fire. and Skin Diseases, St. Anthony's Fire, Rose, or Erysipelas, Pimples, Pustules, Blotches, Blains and Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Rheumatism, Syphilitic and Mercurial Distress, Dropsy, Dyspepsia, Debility, and, indeed, ALL COMPLAINTS ARISING FROM VITTA-TED OR IMPURE BLOOD. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in

contaminated constitutions. Aver's Cathartic Pills, FOR ALL THE PUMPOSES OF A FAMILY PHYSIC,

FOR ALL THE PULIPOSES OF A FAMILY PHYSIC, are so composed that disease within the range of their action can rarely withstand or evade them their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the intalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints. Costicuness, Hearthurn, Headache arising from disordered Stomach, Nausea, Indigestion, Pann in and Morbid Luartium of the Boxels, Flatulency, Loss of Appetite, Jaundice, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE BAPID CURE OF Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

disease.

So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When oace tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what anticlote to employ for the distressing and dangerous affections of the pulmonary argues that are incident to our climate. While many inferior remedies thrust upon the community have failed and been disearded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.
