I held on this side of the water, I have no jewels to show, but for my wife's sake, I will show you a few. I have a pair of diamonds, a pair of pearls, and a pair of rubies. I have also a pair of sapphires, a pair of emeralds, and a pair of garnets. I have a pair of diamonds, a pair of pearls, and a pair of rubies. OUR PORKER
A pig! I exclaimed in great astonishment, peering over the fence. Nelly to a silence of the instant. We were at breakfast. The pig was a small one, but it was a pig. I had never seen a pig before. I had never seen a pig before. I had never seen a pig before.

The family of Bonapartes were of pure Italian race; there was not a drop of French blood in any of them. Their names were in the family of Bonapartes. Their names were in the family of Bonapartes. Their names were in the family of Bonapartes.

Home-spun Eloquence.
A doctor named Royston had used Peter Bonaparte for a bill long overdue. Alexander H. Stephens was for the best side and Robert Toombs for the Senator of the United States. The doctor proved the value of his medicine according to local custom, and his own authority to do medical practice. Mr. Stephens told his client that the physician had made out his case, and as there was nothing left to do but to pay the bill, he made no objection to the bill.

Rational Advertising.
At the present time, employed in successful advertising, old and experienced advertisers differ, although the weight of opinion is in favor of the press. It is a fact that the means employed must depend largely upon the character of the thing to be advertised. There are some things that may be profitably advertised in the newspapers, but it would be a mistake to put anything in the press that cannot be profitably published by means of the press.
