The case of Edwin McClendon, charget with petit larceny, was not prossed. The case against Lander Ballad, for violation of contract, was compromised. Tom Lee was sent to Juliupon a charge of resisting an officer while in the discharge of his duty. Austin Alexander was sent up for obtaining goods under false pretences, and Paul Lee for seiling property under fien without consent. Thos. Ariedge was convicted of laving stolen a watch from another colored man, and Justice DePass told him he could spend 13 days in the county juli at the public expense.

To the Editor of the Gazette: Perhaps the readers of your paper would not object reading a note from Sumter county, written net far from Sumter Mound, on what is commonly called the "high hills of Santee." The writer has recently had an opportunity of seeing a small portion of the large quantity of good farming lands in this county, noting the crops seen by the wayside. On the one hand, the corn and cotton looked well, clear of grass, giving evidence of thrift and industry and promising a good yield to the manager; on the er, the corn and cotton was grassy, sickly looking, giving little promise of a good yield to those who had the same in hand. Then we have evidences of a lack of industry and management, characteristic of many who undertake to make a crop with an ox or worn out mule, and no means of their

wn to run a crop.
The same system exists here as elsowhere -lien and mortgages. There is a number of large land-holders, who rent to small faymers and to that class mentioned These lands are nicely situated, and the soil is of such a nature as to be capable of being brought into a high state of cultivation. FAIRFIELD. Contrary to the gloomy predictions many of our friends the crops now throughf out the county promise at least a very fair average yield in harvest time. The corn erop is probably not as good as last year-attributable, perhaps, on the uplands to the dry weather and the late planting, and on the bottom lands to the damaging freshets in the month of June. The cotton in every section of the county promises to be almost as good as last year, but the weed is not quite so large, but better fruited and a healthier looking plant. The oat crop, when compared with the crop of 1882 fails considerably short, while the wheat, generally, averages very fairly. Our estimate may not be correct, but is based upon the best information that could have been got-

ten from the different localities of the county .- News and Herald. A new pestoffice has been established at Simpson's Turnout, and has been named Nelson. We are glad that our friends of that community have been so fortunate.

Gentlemen: For years I have been a great sufferer from Dyspopsia, and could get no relief (having tried everything which was recommended) until, acting on the advice of a friend, who had been benefitted by BROWN'S IRON BITTERS, I tried a bottle, with most surprising results. Previous to taking BROWN'S IRON BITTERS, and THE STATERS, all my and I suffered greatly from a burning sensation in the stomach, which was unbearable. Since taking BROWN'S IRON BITTERS, all my troubles are at an end. Can eat any time without any disagreeable results. I am practically another person.
