We have in our employ an efficient workman in all the branches of this business. We have a Matent Tire Shrinker with which we can shrink tires with perfect accurracy without cutting, making the weakest places stronger than before, and without damaging the wheel in the least. Persons who have tires that need shrinking would do well to remember that one half the wheels are ruined or materially injured by cutting and shrinking in the usual way. Satisfaction is guaranteed in every job where this machine is used.
