stinally concluded, after having said in effect, that the Demogratic party was not defeated in North Carolina by " hard cider and econ-skins," but by being outhumbugged! They had deserted the dread of these hostile wretches. proper and honororable mode of political warfare, and had attempted to humbug the people, but the Whigs had out-humbugged them!

The delivery of this Speech seemed to take the whole assemilage all aback, and many were seen grouped in anxious conversation, breathing " diabolical and damnable invendoes" upon him who could thus presume to express his own opinion. After Mr. H. had concluded.

Mr. Hybart, took the floor, having been apparently chosen as the advocate of the ultra D mocratic portion of the body re. Have ond and others-of the majorny vs. the minority. He spoke very warmly, declaiming against the " unjust and ungenerous imputation" made by Mr. H. He (Mr. Hybart) said he sought no appplause from the galleries! and then, referring to Mr. Haywood, asked "What have I done that mine ene mies should praise me ?" He hoped the tak in. Preamble and Resolutions would be adop-

Mr. Haurood was understood to sav in reply that he neither sought applause from the galleries or from below!-he was no office-holder or seeker for office: and then added that as he could not conscientiously sanction, much less vote for. the aloption of the matters alluded to be him, he begged that the Conventon would grant him le ive of chance! And, there upon, wishing the men b rs, severally. safe and happy journies home, he bid them good evening and disappeared.

Gen. Mclennah n then moved that the expressions objected to by Mr Haywood, be stricken out.-Gen. Allison opposed this strongly, because if it were done, t'would n ver do to mention the matter in electioneering, or their opponents would have them on the hip.

The Preamble and Resolutions (with the exception of the one to hold County meetings) were then unanimously adopted, and it being near night, an adjournment to 1.2 'o clock in the evening, was agreed to.

ABRIDGED FROM THE NATIONAL INTELLI-SENCER.

THE FIFTH WEEK OF THE SESSION Has passed away without the accompishment of any important object by Congress; no hill having yet passed both Houses but the partial appropriation bill. Nothing has been done, nor has there been any step taken, beyond the report of two bills by the Committee of Ways, and Ments, towards provining for the deficit in the ways and means, which is of course every day increasing by the demands which the opening of the first quarter of the year accumulates against the Treasury. A government with such vast resources, and so many tides to high credit as that of the United States, may perdians afford to trifle with its credit; but the expediency of doing so may well be

doubted.

. In the Senate, the Report upon the Fiscal Agency is still upon the anv., or gather in the furnace, in which it is sewerely tried, by blasts bot and cold be fore being ready for the anvil. Our anticipation is, that the debate will not be order. much further prolonged on the question of reference; that the Treasury plan will go ton select committee; and that, with mich modifications as the developments in debate may have suggested, it will be presented for the main discussion in the Senate with features differing in some respects from those in which it came from the hands of the Executive. That it will ever be wrought into any shape to secure it the sanction of both Houses of andday following in Franciscy next within the Congress is very doubtful, but not, we cather think, wholly to be despaired of.

The only two questions of general consequence which have been agitated three) 181 (one hundred and eighty four) and and decide ! in the House of Representa- Isa (one hundred and eights five) at the suit of tives are, first, the reference of the question of revenue, as connected with Manefectures, to the Committee on Manufac- Judgment Creditors of the said Enwards and tures-by which it seems to be under. the former purchaser who did not comply. shall as the expressed opinion of the House that the state of the Manufactures suit of Isaac Timmons vs. Hun; ton Smesberry. of the country, as well as the wants of the Treasury, are to be taken into consideration in the general revision of the duties upon imports; and, secondly the in- line chairs, one clock, one pine side board, two Mules, Cattle, flogs, Household and Kitch in struction given by the vote of Saturday pine tables, one childs crib, one wash stand, one furniture, Plantation Tools, &c. As the last to the Judiciary committ e to report a hill to repeal the Bankrupt Law, which, piaza benches, and one jogging board, levied on of country in this part of the State it is regard d our readers will recollect, though pissed at the last Session of Congress, has not yet gone into effect.

A lefter from New York, of the evening of the 7th inst. savs: "U. S. Bonds, payable in 3 years, with 6 per cent, interest, can be had to-day at 96. Stocks still decline; confidence in the States is cunning very low, and the U. States are put much better."

firms the rumor, that a leave of absence was made for Gen. Gaines, and that the whole affair was managed, as well with a proper vaiw of the duties of the Government, as with becoming respect to the advanced age and valuable services of the veteran, who has been so imprudent as to leave his station with a it orders.

ORNAMENTAL DEPARMENT. It is a source of no little unde to the propriefor of the Lady's Book, that he first in to duced into this country the plan of furnishing. along with a monthly periodical of elegant liverature, embellishments of an attractive and costly character. The first steel engravings him : the first mezzotint engraving was given by him; the first patterns of lace work and embroidery were given by him; the first coloured plates of Fashions were given by hem; the first music was given by him -These are things to which he would not refer. if some of those who have essayed to follow in his footsteps, not content with imital ng all he designs, even to the form of his book, the size of his type, and the colour of his cover, had not foolishly put forward claims to originality, and attempted to found a right to an exclusive merit on doing that which they had borrowed from his example. But what he has done heretofere in the way of embellish. ment to his book, though it far exceeded any effort of those who strove to copy his move ments, cannot compare with what he now means to do. H s arrangements for this de partment of his work have been projected on the most liberal scale of expenditure, involving such an extent of outlay as has never be. fore been dreamed of in any periodical, E tro pean or American. As an evidence of his in entions, he now states that each numb r of the Lady's Book for the ensuing year, will contain, at least,
