CANDEN JOURNAL. CANDEN. S. CAROLINA.

WEDNESDAY MORNING, JAN. 6, 1840.

THE CAMDEN TROOP.

THOMAS JAMES ANCRUM Esq. was, on Saturday last, elected Captain of the Camden Troop of Ca. valry, to supply the vacancy occasioned by the resignation of Capt. B. BOYEIN. We are pleased to learn, also, that they have had some addition to their numbers. The prosperity of this old and patriotic corps, must be a matter greatly to be desired by all our citizens. Its age alone, if there were no other considerations in its favour, should make it the pride of our young men to fill its ranks, and give it a parmanent and useful existence. For sixty years- this Company has been an ornament to the in advance. Subscriptions will be receiv-District, and we trust that age will but add to its vigor and usefulness. An efficient corps of Caval ry is peculiarly adapted from the celerity with which their movements can be made, to preserve order, and protect a much larger district of coun 'try, than under any other military organization .-We hope that its present young, and energetic Captain may be able to inspire its present members with new zoal in its support, and that our young men will come forward and fill up its ranks, and sustain this, the most ancient of our military Companies. -

We have read during the week, a Sermon delivered by the Rev. RICHARD FURMAN, before the Baptist Church in Cheraw, S. C. during the last Summer in vindication of the doctrine and practice of the Baptist denomination. It is a handsomely printed pamphlet of 80 pages. This Sermon was preached in reply to one by the Rev. J. C. Corr. pastor of the Presbyterian Church in Cheraw. It would be travelling out of our vocation, to express any opinion in relation to the controversy which gave rise to the discourse of which we are speaking, even if we felt a disposition to do so, which we do not. Nor does it not come within our province either, to say how successfully the doctrine and practice of the particular Church has been vindicated. It is however a very interesting discourse, learned in its arguments, and generally manifests a spirit of liberality and toleration, which is worthy of all praise. A few copies have been left at this office for sale.

Price 25 cents. MORE ROOTS .--- Col. HAILE has sent to our office

a couple of Turnips, which surpass any thing in that line, that we lave seen noticed in our exchan ges. They weighed 7 lb. each, but their greatest recommendation, is the delicacy of their flavour .--A single one is enough to supply the vegetable portion of a dinner for a tolerable sized family. We have a curiosity to see a larger Turnip than either of these. Have any of our subscribers such an one?

POETRY.

Are our readers fond of Poetry! If so, we beg them to read the following beautiful lines. If they are not, we ask them to give the verses a single perusal, and perhaps, it may have some influence in correcting their tasters Will not some of our lady readers where fond of music; and are occasionally called on to sing. keep a look out, and when desired to sing by any of our subscribers who have not yet taken a receipt for his stars' subscription, give them the benefit of these elegant words. They will much oblige us.

From the Troy Budget. PAY THE PRINTER. "ORIGIONAL-" LONG TIME AGO." Here comes winter' here comes winter,

the newspapers, which must be gratifying to the publisher. We perceive that it has appeared in some of the newspapers without the proper acknowledgement. This is doing injustice to the enterprising proprietor. The engraving of "THE PLAY-MATES," being a mezzotinto on steel, is one of the finest specimens of the arts which we have seen in the Monthlys, and the Fashion Plate, is not surpassed by that of any other publication. It is published at Philadelphia for \$3 per annum for a single copy, or two copies for \$5 payable ed at this office.

THE NEW WORLD .- We have received from the publisher, a copy of this paper, issued the first of January 1841. It is one of the greatest curiosities in the newspaper line that we have ever seen. It measures 5 feet 6 inches, by 4 feet 3 inches, and is the largest sheet of paper which ever came under our observation. Each page has 11 tolerable broad columns of reading

matter, making together 185 feet. Its pictorial embellishments.are numerous and very fine for wood cuts. We have not yet had leisure to read more than a few feet of this mammoth sheet, and think it probable that we shall not finish it until next summer:

The Hon. FELIX GRUNDY, Senator in Congress from Tennessee died at his residence in Nashville, on the 19th ult. Mr. G. was an able man, and has filled a large space in the councils of his country .- The the intrepid sub-marine navigator nor death of such a man is a national loss.

A NATIONAL BANK .- The Legislature of Georgia have adopted a resolution asserting the expediency and necessity for the establishment of a National Bank, to the permanent welfare and prosperity of the people of the United States. Fifty three members of the House entered a protest on the Journals denying the constitutionality and expediency of such an institution.

THE RESOURCES OF THE SOUTH. The staple productions of the world belong to the South-and if she will wise-ly avail herself the variety of soil and climate which is in her possession, in a greater degree, we believe than any other section of the Union, she is destined, ere long, to be the most enterprising and wealthy portion of the confederacy-a mart where men of trade "will always congregate." She will deal out to all with a prodigal, nay even a liberal hand, her valuable and various products, and while benefitting them, she will enrich herself. Her cottons are superior to all others, and form a staple basis, which will attract capital to her from every quarier.

Her tobacco is as rich to her as the opium of the East, and will continue to increase in value.

Her vineyards may be made to be as profitable as that of Italy or France. Her sugar plantations will soon be more

ti-ho," by J. Ross BROWN, one of the ar- | tionary Officer. When the British fleet , " ticles in this number, has had a run through lay in North River, opposite to the city of New-York, and while Gen. Washington had possesion of the city, he was very desirous to be rid of such neighbors. B A Mr. Bushnell of Saybrook, (Conn.) B who had the genius of a Fulton, constructed such a marine machine, of a connical form, bound together with iron bands, B within which one person might sit, and with cranks and skulls could navigate to Ba any depth under water. In the upper part Co was fixed a veritcal screw for the purpose of penetrating ships bottoms, and to this was attached a magazine of powder, within which was a clock, which, on being re set to run any given time, would, when run down, spring a gun lock, and an ex-plosion would follow. This Marine Turtle, so called, was examined by Gen. Washington, and approved; to preserve

secrecy, it was experimented within an inclosed yard, over twenty to thirty feet water, and kept during daylight locked up In a vessel's hold. The brother of the inventor was to be the person to navigate the machine into action, but on sinking it the first time he declined the service. Gen. Washington unwilling to relinquish the object, requested Major Gen. Parsons to select a person, in whom he could confide, voluntarily, to engage in the enterprise; the latter being well acquainted with the heroic spirit, the patriotism, and the firm and steady courage of the deceased above mentioned immediately communicated the plan and the offer, which he accepted, observing that his life was at Gen. Washington's service. After practicing the machine until he under-

stood its powers of balancing and moving under water, a night was fixed upon for the attempt. Gen. Washington and his associates in the secret, took their stations upon the roof of a house in Broadway, anxiously awaiting the result. Morning came and no intellinence could be had of could the boat which attended him, give any acccunt of him after parting with him the first part of the night.

While these anxious spectators were about to give him up as lost, several barges were seen to start suddenly from Governor's Island, (then in possession of the British) and proceed towards some object near the Asia ship of the line-as suddenly they were seen to put about and steer for the Island with springing oars. In two or three minutes an explosion took place, from the surface of the water, resembling a water spout, which aroused the whole city and region; the enemy's ships took the alarm, signals were rapidly given-the ships cut their cables and proceeded to the Hook with all possible despatch, sweeping their bottoms with chains, and with difficulty prevented their afrighted crews from leaping overboard.

During this scene of consternation, the deceased came to the surface, opened the brass head of his aquatic machine; rose and gave a signal for the boat to come to him, but they could not reach him, until he again decended under water, to avoid the enemies shot from the Island, who and liquidate their accounts. had discovered him and commenced firing in his wake. Having forced himself against a strong current under water, until without the reach of shot, he was taken in tow and landed at the Battery entire satisfaction, that the object was effected without the loss of lives. The decame up under her stern gallcries searching for exposed plank, and could hear the sentnels cry. Once he was discovered by the watch on deck, and heared them speculate upon him, but concluded a drifted log had paid them a visit-he returned to the bottom and examined it fore and aft, and then proceeded to some other ships; but the impossibility of penetrating their copper, for want of a resisting power, saved the lives of hundreds. The longest space of this sub-marine curiosity, see Silliman's Journal of Arts and Sciences.

By order of Capt. DICKINSON, W. B. JOHNSTON, O. S.

Notice.

THE subscriber having disposed of his establishment to Messrs. Hague & Gifford, tenders his grateful acknowledgements to the citizens of Kershaw District and the public generally, for the patrons age they have so liberally bestowed, and solicits its continuance to his successors, as he feels confident every exertion will be continued to make it acceptable to all who may patronize them.

The subscriber requests all who are indebted to him to call on him at the Hotel C. H. DAVIS.

Jan. 6.

PLANTER'S (LATE DAVIS') HOTEL.

amidst a great crowd and aeported himself to Gen. Washington, who expressed his ed the Hotel formerly Davis's will continue the establishment on the same liberal scale as heretofore, and will exert ceased was under the Asia's bottom more themselves to make it a desirable resithan two hours, endeavoring to penetrate dence for Boarders and Travellers, as her copper, but in vain. He frequently their table will always be supplied with the best the market affords, and their Bar with the best liquors, and their Stables with attentive Ostlers and abundant provender.

WILL be sold, before the Court House Door in Camden, on the first Monday in February next, the House and Lots on Broad-street, one door above H. Levy's Store, known as the KERSHAW COF-FEE HOUSE. It is well calculated for a Public House, having been built for that purpose, and is situated in the centre of the busines part of the Town. On the premises are large and commodious Stables, with all necessary outbuildings, a nda back lot running through to the back street. To persons desirous of keeping a House of Entertainment it presents inducements rarely to be met with.

It will be sold on a credit to the first of January, 1842-purchasers giving bond, mortgage, and good personal security. DANIEL KIRKLAND.

Happy winter, happy winter, Hark the jing'ling of the bells; To the Printer, to the Printer, What sad tales their music tells; Your subscribers frolic all, In the winter, in the winter, But ne'er think of you at all!

CONGRESS.

There does not seem to be any thing of nterest going on in Congress. The question relative to the disposition of the public lands, seems to be the engrossing one so far; but the propositions on the subject are so various, and such a diversity of opinion exists among the members, that there is very little hope, that any final disposition will be made of the matter during in length and six feet four inches in cirthe present session. It is a subject of great interest and will be diffic tle in a manner which shall be satisfactosy, as well to the citizens of the old, as this .- Charlotte Jour. of the new States.

GRAHAM'S MAGAZINE .- The January number of this beautiful periodical, being the CASKET and GENTLEMAN'S MAGAZINE of our readers. It is copied from a Newunited, has been on our table for some days. Youk paper of November, 1821 and is an This number is a very superior one, as obituary notice of the gallant soldier who Reid, at the suil of John D. Mnrray, sur- ment, as much longer indulgence cannot well in respect to its literary matter, as made the daring attempt: the elogance of its embellishments, "Yoo- ult. Capt. Ezra Lee, aged 72, a Revolu-

fruitful and profitable than those of th West Indies.

Her immense forests in Georgia, Florida, Alabama, and Mississippi, will also give her a decided ascendancy in the lumber market. And,

Her silk establishments will, at no remote day, in their works, vie in beauty, durability and productiveness, with any quarter of the globe-if, indeed, the South do not excel them in the manufacture and cultivation of this valuable fabric.

We have received from several of our female friends, samples of sewing silk, of time he could remain under water was stockings, shawls, scarfs, &c., of their two hours. For a particular description own handiwork, which will vie in execu-tion, as regards beauty and durability, with the best manufactured article in either France or England. This is no little praise, and speaks volumes in favor of the enterprise-particularly when we consider, that we have not any regular establishment to put us on the "full experiment."

In a climate and soil so productive as our own in staple commodities, a regular appointment of labor in their cultivation, must necessarily enhance the value of each commodity. Let our planters, then, diversify their crops as much as possible, and they may be sure to reap an abuudant reward .- Macon (Ga.) Telegraph.

A Small Pig .- A real Whig friend informs us that he slaughtered a hog on the 24th instant, which measured seven feet cumference, and weighed six hundred and thirty-five pounds. He was two years and six months old. He wishes to know if any of his brother farmers can beat

The following account of an attempt made during the Revolutionary War, to blow up the British vessels of war in NewCom. Advertiser.

DIED-On Thursday the 24th instant, at his nce, near Morven, Anson county, North Carolina, Mr. HUBBARD PEARSON, aged seventy-three years, a native of Virginia, but for many years a citizen of the State in which he died. The subject of this notice enjoyed his usual health, until an hour previous to his death. By the death of Mr. Pearson a severe loss has been sustained, as he was a most affectionate husband and parent, a hospitable neighbor, and a kind master.

While dwelling upon the many excellent qualities of the deceased, his afflicted family and friends would do well to keep in view the solemn warning just given, that they too may be suddenly called hence, and that in a little time; when least expected, " the Son of Man cometh."-Cherau Gazette.

SHERIFF'S SALE.
