At last I raised large quantities of blood, had night Sweats, and was greatly debilitated and reduced, and did not expect to live. I have only used your Sarsaparilla a short time and there has a wonderful change been wrought in me. I am now able to walk all over the city. I raise no blood, and my cough has left me. Rheumatism. This is only one of more than four thousand cases of Rheumatism that Dr. Townsend's Sarsaparilla has cured. The most severe and chronic cases are weekly eradicated by its extraordinary virtues. James umanings, Esq.. one of the assistants in the Lunatic Asylum, Blackwell's Island, is the gentleman spo-tern of in the following letter.

BLACKWELL'S ISLAND, Sept. 14, 1847. Dr. TOWNSEND Dear Sir: I have suffered terribly for nine years with the Rheumatism; considerable of the time I could not eat, sleep or walk. I had the utmost distressing pains, and my limbs were terribly swollen. I have used four bottles of your Sarsaparilla, and they have done me more than one thousand dollars worth of good. I am so much better-indeed. I am entirely relieved. You are at liberty to use this for the benefit of the afflicted. Yours respectfully, JAMES UMMINGS. Fits! Fits! Fits!

Dr. Townsend, not having tested his Sarsaparilla in cases of Fits, of course never recommended it, and was surprised to receive the following from an intelligent and respectable

Farmer in Westchester county: Fordiam, Aug. 13, 1847. FORDHAM, Aug. 13, 1847. Dr. Townsend—Dear Sir: I have a little girl seven years of age, who has been several years afflicted with Fits; we tried almost everything for her, but without success; at last, although we could find no recommendation in our circulars for cases like hers, we thought, as she was in very delicate health, we would give her some of your Sarsaparilla, and are very glad we did, for it has not only restored her strength, but she health are streng of the Fits. but she has had no return of the Fits, to our grert pleasure and surprise. She is fast becoming rugged and hearty, for which we feel gratful. Yours, respectfully. JOHN BUTLER, Jr.

Female Medicine.

Female Medicine. Dr. Townsend's Sarsaparilla is a sovereign and speedy cure for Incipient onsumption, Barreness, Prolapsus Uteri, or falling of the womb, ostivness, Piles, Leucorthea, or Whites, obstructed or difficult Mensruation, Incontinence of Urine, or involuntary discharge thereof, and for the gen-eral prostration of the system; no matter whether the result of inherent cause, produced by irregularity. illness or acci-dent. Nothing can be more surprising than its invigorating effects on the human frame. Persons all weakness and las-situde, from taking it, at once become robust and full of en-ergy under its influence. It immediately counteracts the nervelessness of the female frame, which is the great couse of barreness. It will not be expected of us, in cases of so delicate a nature, to exhibit certificates of cares parformed but we can assure the afflicted, that hundreds of cases have been reported to us; thousands of cases where families been reported to us; thousands of cases where families have been without children after using a few bottles of this invaluable medicine, have been blessed with fine, healthy

# offspring. To Mothers and Married Ladies.

To Mothers and Married Ladies. This Extract of Sarsaparilla has been expressly prepared in reference to female complaints. No female who has rea-son to suppose she is approaching that critical period, "The turn of life," should not neglect to take it, as it is a certain preventative for any of the numerous and horrible diseases to which femamales are subject at this time of life. This period may be delayed several years by using this medicine. Nor is it less valuable for those who are approaching woman-hood, as it is calculated to assist nature, by quickning the blood and invigorating the system. Indeed, this medicine is invaluable for all the delicate diseases to which woman are subject. ubject. It braces the whole system, renews permanently the nat ural energies, by removing the impurities of the body, not so far stimulating us to produce subsequent relaxation, which is the case of most medicines taken for female weakness and disease. By using a few bottles of this medicine, many severe and painful surgical operations may be prevented.

A common consequence of this affection is a kind of te-nesmus, or bearing down sonsation, as it is familiarly cal-led; there is also heat, tension and throbbing in the part, varying from a moderate degree of these sensitions to the most excruciating suffering;—these are caused by the flow of blood to the parts. Sometimes the inner coat of the bowel prorudes at every evacuation forming what is called Prolapsus, or falling of the bowels; this is the effect of long continued irritation of that organ. In some instances the patient experiences nervous pains, which are indescribable, and known only to the sufferer, which commence immedi-ately after an evacuation, and continue from thirty minutes to several hours; these sensations are very annoying and sometimes very distressing. This disease, when of long continuance, is attended by pain and weakness in the back. irritation of the kidneys, bladder, and other organs in the vicinity, pain and numbress in the legs and feet, a sense of strainess about the chest, and unuatural fulness of the ab-dominal viscera, accompanied with palpitation of the heart and sometimes the dividuals cometimes experience, previdominal viscera, accompanied with palpitation of the heart and oppression. REMARKABLE CURE OF PILES! THERTY YEARS STANDING! Berkshire co., Mass., Nov. 29, 1847. Messrs. I was confined to bed, unable to help myself, and at last given up by my physi-cians and friends in despair of ever gaining my henth; in fact for three days before I commenced using Dr. Upham's Electuary, I was entirely speechless and my burial clothes were made. But under Providence, and the use of Dr. Upham's Electuary, though an old man, I have the plea-sure of stating the fact to the public that my health is now good, and hope to live many years, if it is Gol's will, to make kno n the virtues of Dr. Upham's Electuary, and to recommend it to my afflicited fellow creatures. It help-ed me beyond the expectations of all that knew my case, and I can only say to others that it is, in my opinion, the best medicine in the world for Piles, or any other disease of the bowels; and if they will use it according to directions, I will myself warrant a cure in every case. — You, with the utmose stopression of thankfulness.

HASTING'S Compound Syrup of Naphtha.

NOT ONLY A POSITIVE BUT A WARRANTED CURE for consumption and all discases of the lungs-This medicine has decided the dispute about the curability of consumption, and satisfied the medical faculty and all who have used it, that consumption and all affections of the lungs can not only be cured, out they are as easily and the inness can hot only be cired, out they are as each and simply cured, as almost any of the disorders to which the human frame is liable. The operation of a single bottle, which costs \$1, is sufficient to satisfy any patient—if not altogether too far gone with the disease—of this fact; and even a single dose gives evidence of its extraordinary in-fluence in arresting and eradicating the malady by the im-mediate relief which it affords. This is no quack or sementate rener which it allords. This is no quark or se-erer remedy. Dr. Hastings its discoverer, is one of the most eminent physicians of the age, and has made a full disclosure of its history, and all its component parts to the world, not wishing to incur the responsibility of confining to himself, for the sake of profit, a secret which was calto himsell, for the sake of print, a secret which was cal-culated to do such universal good. And such has been the wonderful result of its operations, that the Lendon Lancet, Medical Times, and the most eminent Physicians of both hemispheres, are anxiously calling upon sufferers to have immediate recourse to it, and proclaiming that of all known medicine, it alone has positively established its efficacy by undeniable proofs of curing consumption and all other dis-cesses of the lunge. eases of the lungs.

OPINIONS OF THE PRESS. From the Sunday Atlas of Jannary, 16,1849 "We would call the attention of our readers to the adver-tisement of Hasting's Compound Syrup of Naphtha. The proprietor of this medicine (Dr. Hastings) is no quack, but ranks as one of the best physicians of England. He is also at the head of the Blenheim-street Free Dispensary. Hav-ing like most other physiciens, had his attention drawn to the great preponderance of deaths from pulmonary com-plaints, he devoted his earnest attention to it for several years, and the result was his conviction that Naphtha, as a remedial agent in consumption, surrassed any other remeyears, and the result was his conviction that Naphtin, as a remedial agent in consumption, surpassed any other reme-dy known to the faculty. It has since been used with the greatest success by nearly all of the first physicians of England, and, as we learn from the American agent, (Dr. Harrison) it is now being introduced extensively in our hos-pitals, and in the private practice of a majority of our phy-sicians. We advise all who are in any way troubled with pulmonary complaints to try a single bottle, which will prove its efficacy." From the Western Palladium of Dec. 5, :847.
