

Review of "The Sufferings of Christ," by a Layman; 7th, Review of the "Appeal" of Commissioners of the Methodist Episcopal Church South; and 8th, Critical Notices.

The efforts of these high-toned and ably conducted Journals, and others of like character, to build up and sustain the literary fabric of the South, deserve all praise and encouragement. They speak forth the feelings and views of the South with truthfulness and earnestness, and while they give the current literary news of the day, their articles are thorough examinations of subjects and doctrines, exposing falsehood and error. The fragmentary and skeleton character of our literature, its want of form and power, has been decided and sneered at, by those who live among more time-honored institutions, and whose time and circumstances have allowed more attention to such departments of mental labor; but if our Reviews and Journals, those weightier channels of periodical literature, received the support they deserve, the Southern Republic of letters would command the respect of the world, and would utter truths with such force and power, as to silence slanted arrogance abroad, and inimical pretensions at home. The subjects are not wanting—neither clear sighted intellect, profound research, devotion to letters, nor bold, independent thought, can be said to be inferior among us, but patronage, thorough going, self-sustaining patronage, the fostering care for home productions, because they develop the resources and attractions of home, is the great want, if not the great crime, of the South. We have not language strong enough to urge upon Southern readers the propriety, the necessity of supporting Southern periodicals. No agents have been more potent in doing harm, none have weakened more gradually, the confidence of our people in their forms of society, and have actually poisoned and drawn off the affections of many, than Northern and Foreign papers and periodicals, extensively circulated at the South—vehicles—not of direct assaults, for that would offend and disgust—but of insinuations and slight allusions, "here a little and there a little," imperceptibly coloring the prejudices of the reader and filling his mind slowly but surely with distaste against his own peculiar institutions.

It is unjust to the South—to her interest—to her peace and security—to ourselves, to give "aid and comfort" to these insidious engines of harm, while our own healthy-toned exponents of literature are allowed—it not to languish and die—to have at least a very limited circulation. If we would have a firm and steady fabric, we must make the pillars strong and well-supported.

FROM CALIFORNIA.

On the 21st ult. the steamer Crescent City arrived at New York, having left Calages on the 16th. She was freighted with gold to the amount of \$231,994. The supply in the mines appears still inexhaustible, but the meltings of the mountain snow have swollen the streams so high, that the best mines, which are covered by the overflow, cannot be successfully worked. The following is the substance of an extract from a letter of Mr. E. Gould Buffum: "Any man of good constitution, who is willing to labor, can, nine months in the year, make an average of \$16 per day. It he can content himself with this, and is willing to endure the severe labor, to work in the hot sun and sleep exposed to the night air, to live on ordinary, and in many cases unwholesome food, he should come by all means. There is room enough and labor enough, and will be for the next fifty years."

The political news is of considerable importance. The rapid increase of a heterogeneous population, a growing commerce and an influx of wealth, suggest the propriety, if it does not enforce the necessity, to the inhabitants, to do that for themselves which Congress has failed to do for them—to establish a well organized system of government—and to place life and property under the protection of law. Military government is too arbitrary to be endured for a length of time by any considerable number of our people, and is inadequate to meet the various emergencies of civil society in times of peace.

General Riley, the representative of the General Government, has issued a proclamation, enforcing the California laws as they exist before annexation, which appears to have given considerable dissatisfaction.

A mass meeting of the citizens was held at San Francisco on the 12th June, to consider the propriety of electing delegates to a Convention for the formation of a Government, in which the Hon. Thomas Butler King, of Georgia, was a prominent speaker. The President, Wm. M. Stewart, Dr. W. Gwynn, Wm. A. Buffum and Edward Gilbert also addressed the meeting. The following Resolutions were offered by Myron Norton Esq. and adopted:

Resolved, That the Congress of the U. States having failed to pass any law for the government of this country, the people of California have the undoubted right to organize a government for their own protection.

Resolved, That the people of California are called upon by an imperative sense of duty, to assemble in their sovereign capacity, and elect delegates to form a constitution for a state government, that the great and growing interests of California may be represented in the next Congress of the United States, and that the people of this country may have the necessary protection of law.

Resolved, That we earnestly invite our fellow citizens at large to unite with us in our efforts to establish a government in accordance with the constitution of our beloved country, and that a committee of five persons be appointed by the President of this meeting to correspond with the other districts, and fix an early day for the election of delegates and the meeting of the Convention, and also to determine the number of delegates which should be elected from this District.

The Chairman appointed the following as the Committee:—Peter H. Burnett, W. D. M. Howard, Myron Norton and Edward Gilbert.

Who does not earnestly hope that these may prove incipient steps by which the odious Wilmot Proviso will be forever laid?

If the population increases, California may be organized into a State at the next Congress, and the vexed question of slavery be settled forever, so far as that people are concerned. The great danger now is, the probability of a conflict between the people, or a portion of them, who desire to adopt a constitution and from a Legislative Assembly, and General Riley, the Executive of the General Government, who, by another proclamation, warns the settlers not to countenance the meeting at San Francisco. We trust an amicable adjustment of difficulties may be effected.

THE MEMPHIS CONVENTION.

His Excellency Governor Seabrook, in republishing the list of Delegates, stated that the Convention would be held on the 15th of October.

The New Orleans Crescent says that that time has been changed, in consequence of the meeting about that day of the St. Louis Convention, on the same subject. The day of meeting has been postponed by the Committee to the 23rd of October.

TO SONS OF TEMPERANCE.

We are requested to state that the Lancaster Division No. 30, S. T., on next Monday, 13th instant, will hold a public meeting in the village, at which several Addresses will be delivered. The Division will march in procession to the place of meeting. The members of neighboring Divisions are invited to participate in the proceedings, and the members residing in the country, belonging to the Lancaster Division, are earnestly solicited to be at the Division room early.

With regard to the efficacy of Jew Davis's or the HENRY PLASTER, nothing need be said, as they carry with them their own recommendation, and their price being so remarkably low, is a sufficient inducement for those afflicted to give them a trial. The agent is confident that by the great and increasing demand for these Plasters, the popularity which they have obtained solely by their own merits, and the universal satisfaction which they have given, that they are decidedly superior to any other cure.

See advertisement in another column.

The genuine are for sale by J. R. McKain Camden S. C.

The first effect of a bilious climate upon the human system is to produce torpor and inactivity of the Liver, thereby preventing the natural and free discharge of bile. All know the lurking nature of the poison that produces Fever and Ague, and its kindred diseases. A sallow complexion, capricious appetite, and occasional pain in the side, are often the only symptoms to warn of impending danger. The operation of Dr. Osage's India Cholagogue is to counteract this miasmatal influence, by producing activity of the biliary organs, and a healthy, natural discharge of bile from the system.

For sale at the proprietor's prices by J. R. McKain, agent Camden S. C.

Dr. Wistar Still Triumphant!

Mr. S. W. Fowle—Dear Sir—Prompted by a sense of gratitude for benefits received from the use of Wistar's Balsam of Wild Cherry, I submit the following statement. Previous to my taking the Wild Cherry, I had been obliged to give up my business in consequence of a severe affection of the lungs. In this distressed state I was ordered to try your remedy for consumption. I did so, and in the course of a few weeks, I was restored to comparative good health, so that I have since been able to attend to ordinary business. Indeed, my present state of health far exceeds my most sanguine expectations. Yours truly,

JOHN BURNS.

Buy none without the written signature of I. Burris on the wrapper, if you would avoid imposition.
