

## SANDS' SARSAPARILLA, IN QUART BOTTLES.

For the removal and permanent cure of all Dis eases arising from an impure state of the

Blood, or habit of the system, viz: Scrafula, or King's Evil, Rheumatism, Obstinate Cutaneous Eruptions, Pimples, or Pustules on the Face, Blotches, Biles, Chronic Sare Eyes, Ring Worm or Tester, Scald Head, Enlargement and Pain of the Bones and Joints, Stubborn Ulcers, Syphiline Symptoms, Sciatica or Lumbago, and Diseases arising from an injudictions use of Mercury; Ascites, or Dropsy, Exposure or Imprudence in Life. Also, Chronic Constitutional Disorders will be removed by this Preparation.

The value of this preparation is now widely known, and every day the field of its usefulness is extending. It is approved and highly recommended by Physician , and is admitted to be the most powerful and searching preparation from the root that has ever been employed in medical practice. The unfortunate victim of hereditary disease, with swollen glands, contracted sinews and bones half carious, has been restored to health and vigor. The scrofulous patient, covered with ulcers, lovihsome to himself and to his attendanss, has been made whole. Hundreds of persons, who had groaned hopelessly for years under cutaneous and glandular disorders, chronic rhoumatism, and many other complains springing from a derangement of the secretive organs and the circulation, have been raised as it. were from the rack of disease, and new, with regenerated constitutions, gladly testify to the with regenerated constitutions, gladly testay to the efficacy of this inestimable preparation. The testimony of those wire have been cared by its us, with their resoluters have been published from time to time a barness of bounded a mass of the most overwhelming as an ay rould be brought forward, proving many concessively its mestimable.

The following certificate from Col. Samuel G. Taylor, a gentieman of high standing and extensive acquaintance through the Southern States and lately appointed Consul to New Granada, commends itse'f to the attention of all.

New York, January 7, 1848. Messra. A. B. and D. Sands: Gentlemen-Havused, and witnessed the effects of your excellent preparation of Sarsaparilla on different persons in various parts of the Southern country, viz-Virginia, Louisiana, Texas and Mexico, I feel much pleasure in stating the high opinion entertained of its great medicinal value. In my own case it acted almost like a charm, removing speedily the enervated state of the system, and exciting in the most agreeable manner, a tonic and invigorating influence.

Your Sarsaparilla is highly approved and extensively used by the United States army in Mexico, and my cousin Gen. Zachary Taylor, has for the past five years been in the habit of using it, and recommends the same: he and myself adopted the article at the same time, and it is now considered an almost indispensable requisite in the Army. In conclusion I would say, that the better it known the more highly it will be prized, and I rust that its health resto ing virtues will make it generally known, throughout the length and breadth of our widely extended country.

> very respectfully S. G. TAYLOR, U. S. Consul to New Granada.

## REMARKABLE CURE OF BRONCHITIS.

New York, Feb. 17, 1848. Messrs. Sands .- Having suffered many years with a disease of my throat, affecting the larynx, during which 'ime I was treated by the most distinguished physicians in Europe and the United States, without re civing any permanent benefit, but all the time my general health and strength declining, and the disease making fearful progress; caustic applications were used, and whatever else was thought most efficient for producing a cure; but I am confident the deplorable situation I was in the, !aryngitis being accompanied with phthisis and great difficulty in breathing, would soon have terminated my life, had I not obtained relief thro the medium of your invaluable Sarsaparilla. I must say, gentlemen, when I commenced using the Syrsaparilla I did not place much confidence in its virtues; and this will not surprise you, when you are informed I had tried more than fifty different remedies during the past four years, without any success; but after taking your Sarsaparilla a few weeks, I was obliged at last to yield to evidence. This marvellous specific has not only relieved, but cured me; and I therefore think it my duty, gentlemen, for the benefit of suffering

humanity, to give you this attestation of my cure.

For the onsul Gene ral of France, L. BORG, Vice Consul.

SANDS' SARSAPARILLA .- It has ever been a prime article of our medical creed, to recommend no advertised medicines, for we are opposed to them conscientiously and p ofessionally, but we feel bound to deviate from this rule, and recommend to the suffering the article at the head of this notice. The great medical virtues of Sarsaparilla, are we'l known and appreciated by physicians, but the uncertainty of the strength of the different preparations of the root, some being almost inert, has caused the medicine itself to fall into disrepute. The Messrs. Sands, it would seem, have succeeded in obtaining a powerful and uniform preparation of it. We have seen an abundance of testimonials to its efficacy from the highest authority, and we recommend it with pleasure - Southern Whig.

The following interesting case is presented, and the reader invited to its careful perusal. Comment on such evidence is unnecessary.

New York, April 26, 1847. Messrs. Sands: Gentlemen-Having long been afflicted with general debility, weakness, loss of appetite, etc., receiving no benefit from the various remedies prescribed, I concluded about three months since to make use of your Sarsaparilla. I now have the pleasure of informing you that its effects have been attended with the happiest results in restoring my health, and I am induced to add my testimony to the many others you already possess, and to those desiring further information, I will personally give the particulars of my cace, and the effects of this invaluable medicine by calling at 285 Bowery, New York.

Yours respectfully. JANET McINTOSH.

The following certificate from one of the most distin guished physicians in Cincinnati, is entitled to great credit:

I feel constrained from a sense of duty to make the following statement, conscious that it may appear unprofessional. Mr. Charles Wade, of this city, was quite low with Pulmonary Consumption, for which I had been treating with less than usual success. At his request, and that of his friends, I permitted him to try Dr. Rogers's Liverwort and Tar; and I must confess that its effects were really surprising. After using the second bottle my visits were discontinued, and he was soon restored to health. I do conscientionally recommend my brother practitioners to prescribe this remedy in all pulmonary complaints which baffle the ordinary mode of treatment. WILLIAM J. RICHARDS, M. D. CHRISTOPHER WILLIAM HOOFLAND. CHRISTOPHER WILLIAM HOOFLAND.

"One of the most renowned physicians, one of the greatest benefactors of modern times, was born at Langen Salza, Germany, on the on the 12th day of august 1762.—

After a careful scholastic education, he, like his father and grandfather, (two celebrated 1 octors,) voluntarily devoted himself to the study of Medicine, at Jena and Gottingen, and in 1783 obtained the degree of Doctor of Medicine, at the Latter University. From 1793 to 1891, he officiated as Professor at the University of Jena. In 1801, he was appointed Private Physician to the Aing of Prussia, Member of the Academy of Science, and upon the establishment of the near College at Berlin, Professor and Court Physician by the Ministry of the interior. His characteristic his profoundness and deep penetration enabled him to combine the theoretical and practical, to unite new and old systems; produce in common the practical and useful, old systems; produce in common the practical and useful, and thus draw therefrom the results and necessary appli-

cable means.
"It was Dr. H. principally, who exposed and destroyed can't was Dr. H. principally, who exposed and destroyed the 'Brown's system,' which notwithstanding the exterior could not conceal its many imperfections, brought to light by Hoofland's noble impartiality, sound truths, and deep penetration. Independent of his practical usefulness as Physician and Professor of the healing art, he has earned undying fame for his superior knowledge in 'Meteria Medica' as well as for his manifold works on Medical jurispradence. Among these may be mentioned his world renowned 'Makrobeolik,' or the art of prolonging life. 'System of practical healing art,' 'Ideas of Pathogenic,' 'Journal of practical Medicine,' &c. He has besides ad this, gained eternal fame and praces from suffering humanity for the discovery and combination of several infallible medicinals, among which is the far famed and justiy celebrated compound. Nearly every individual now burdened with disease and shat out from the most of the pleasures of this life, as well as oppressed with an intolerable load of both mental and physical suffering, and dooned perhaps to enter an early grave; might have lived long, happy and useful life, had they but taken proper pains to preserve their health. To preserve health is easy; to restore it difficult and often impossible. The old adage, "An onnce of preventive is worth a pound of cure," should be the polar star of every one's actions in relation to health. If disease generally is the result of a violation of physical laws effecting vegetative life—nine-tenths of all chronic diseases, are so—then it follows as a consequence that the only rational means of cure is through the Blood. That this is so, facts clearly show. That diseases springing from this source are curable by ALTERATIVES, experience fully demonstrates. To the Ladies in Particular. My DEPILATORY POWDER has been found highly neficial and of great use to Ladies who have been afflic beneficial and of great use to Ladies who have been affined with superfluous hair, particularly when confined to the upper lip and side of the face, giving a masculine turn to the whole features. When used with proper care and according to the directions, it will be found a great addition to the toilet, as the use of any sharp instrument is entirely avoided, and the hair is removed in five or ten minutes af-

ter its application.
This composition is infallible, and warranted to remove superfitous hair. After numerous trials, I have received certificates of success which cannot be controverted.
