VOU will find it to perform all it promises, in a manger not to be equalled, much less excelled. We allude to JULES HAUEL'S VEGETA-BLE LIQUID HAIR DYE, which is now generally admitted to be the best, and indeed, the only article which will dye the hair in an indellible manner, without the slightest injury to it or the sk r. It is entirely harmless, and yet it gives to red of gray hair the most natural and beautiful colors and is adapted to all comptexions, as black, brown, or cheshut color, may be instantaneously produced, and cannot be removed by the action of heat, perspiration, water, or other hostile agents. This simple and excellent article is the only hair eye which is compounded in a scientific manner, warranted free from all injurious substances; and the immediate effect of which is truly wonderful.— Be sure to ask for Jules Hauel's Vegetable Liquid Hair Dye, as there are many imitations on sale against which the proprietor of the above would caution the public.

A slight cold upon the lungs, neglected at first, became so severe that spitting of blood, a violent cough and profuse night sweats followed and fastened upon me. ALBANY, N. Y., April 17. 1848.

Dr. Ayer, Lowell—Dear Sir:—I have four years been afflicted with Asthma in the worst form; so that I have been obliged to sleep in my chair for a large part of the time being unable to breath on my bed. I had tried a great many medicines to no purpose, until my physician precribed, as an experiment, your Cherry Pectoral.

At first it seemed to make me worse, but in less than a meek I began to experience the most gratifying relief from its use; and now in four weeks the disease is entirely removed. I can sleep on my bed with comfort, and enjoy a state of health which I had never expected to enjoy.

After a careful scholastic education, he, like his father and grandfather, (two celebrated 1 octors,) voluntarily devoted himself to the study of Medicine, at Jena and Gottingen, and in 1783 obtained the degree of Doctor of Medicine, at the latter University. From 1793 to 1891, he officiated as Professor at the University of Jena. In 1801, he was appointed Private Physician to the King of Prussia, Member of the Academy of Science, and upon the establish ment of the near College at Berlin, Professor and Court Physician by the Ministry of the interior. Independent of his practical usefulness as Physician and Professor of the healing art, he has earned undying fame for his superior knowledge in 'Meteria Me. dica' as well as for his manifold works on Medical jurisprudence. Dr. C. M. Jackson's preparation of this medicine has obtained the same celebrity in this western world. The testimonials and innumerable confirmation of thousands of the most severe and difficult cases cured, is ample proof of this. The medicines compounded by Dr. C. M. Jackson have produced the very effects and the same happy results, which the immortal inventor indicated and intended, and consequently must be prepared with scrapulous accuracy. In view of the above facts it seems singular, that any body could have the hardihood and impudence to abuse the uame of this distinguished Doctor, who died thirteen years ago. To pass off a charlitan quack preparation as the real and genuine medicine, and to give a semblance of originality by affixing a for, simile, of the deceased, is indeed extraordinary! Purifying the Blood.

30 Nearly every individual now burdened with disease and shut out from the most of the pleasures of this life, as well as oppressed with an intolerable load of both mental and physical suffering, and doomed perhaps to enter an a. y grave; might have lived long, happy and useful life, had they but taken proper pains to preserve their health? To preserve health is easy; to restore it difficult and often impossible. The old adage, "An ounce of preventive is worth a pound of cure," should be the polar star of every one's actions in relation to health. If disease generally is the result of a violation of physical laws effecting vegetative life—nine-tenths of all chronic disease, are so—then it follows as a consequence that the only rational means of cure is through the Blood. That this is so, facts clearly show. That diseases springing from this source are curable by ALTERATIVES, experience fully demonstrates. Reader, if it is your misfortant to be afflicted with any of the above diseases, you have a remedy in the Panacea that will not disappoint your most sanguing expectations. Remember a medical and responsible person tells you so.
