L in bringing this preparation of SARSAPARILLA to its present state of perfection; and the experience of fourteen years has turnished them the most ample opportunity of study, in their various forms, the diseases for which it is recommended, and to adapt it exactly to their relief and cure Patients who wish a really good Medicine are invited to give it a trial, and satisfy themselves of its superiority, and the invaluable property it possesses of arresting and curing disease. The bottle has been enlarged to hold one Quart, and in its present improved form may safely claim to be the best and cheapest medicine of the age. Its progress to the fame it has attained may be traced by a long line of facts and cures, that stand as landmarks and beacons for the invalid, pointing the way to the haven of health, and what it has already done for the thousands who have used it, it is capable of doing for the millions still suffering and struggling with disease. It purifies, cleanses, and strengthens the fountain springs of life, and infuses new vigor throughout the whole animal frame.

REMARKABLE CURE OF BRONCHITIS.

New York. Feb. 17, 1848. Messrs. Sands :- Having suffered many years with a disease of my throat, affecting the larynx, during which time I was treated by the most distinguished physicians in Europe and the United States, without receiving any permanent benefit, but all the time my general health and strength declining, and the disease making fearful progress: caustic applications were used, and whatever else was thought most efficient for producing a cure; but I am confident the deplorable situation I was in, the laryngitis being accompanied with phthisis and great difficulty in breathing, would soon have terminated my life, had I not obtained relief through the medium of your invaluable Sarsaparilla. I must say, gentlemen, when I commenced using the Sarsaparilla. I did not place much confidence in its virtues, and this will not surprise you, when you are informed I had tried more than fifty different remedies during the past four years, without any success; but after taking your Sarsaparilla a few weeks, I was obliged at last to yield to evidence. This marvellous specific has not only relieved, but cured me; and I therefore think it my duty, gentlemen, for the benefit of suffering humanity, to give you this attestation of my cure.

Yours very truly, Consulate of France in the United States. The above statement and signature were acknowledged in our presence by Mr. D. Parent as

LIVER COMPLAINT.

The following is an extract from a letter receivd from Rev. William Galusha:

BERKSHIRE, Vt. Oct. 22, 1848. Messrs. Sinds: I have been afflicted with a severe pain in my side, occasioned by a diseased liver, for the last twenty years, suffering at times what language cannot convey; but since taking your Sarsaparilla I have been greatly relieved, so much so that I have been able to attend to my business, and preach occasionally, for the last eighteen months. I wholly discarded all other medicine, and thoroughly tried the Sarsaparilla, which I can recommend in truth and sincerity to all those who are in any way afflicted with any species of scrofulous complaints. There have been some remarkable cures effected by its use in this vicinity. Mrs. J. Shaw, by the use of six bottles, was restored to better health than she had before enjoyed for ten years; and Mr W. Stevens, who had been severely afflicted with crysipelas, was entirely cured by the use of a few bottles.

Yours tru y, WM. GALUSHA SCROFULUS AFFECTION OF THE EYES.

SOUTH KINGSTON, R. L., Oct. 11, 1847. Messrs. Sands: Gentlemen-My little daughter, when one year old, was attacked with a scrofulous humor on her face, which soon after extend ed into her eyes, causing almost total blindness in one of them, and disfiguring her whole face. I employed two physicians to attend her, who exhausted their utmost skill to give her relief, but it all proved useless, and finally one of them remark. ed to me that he had known of some striking cures effected by Sands' Sarsaparilla, and advised me to try it. I obtained one bottle, which she commenced using, and before it was all used up it had effected an entire cure. It is now over four years since she was cured, and there has been no reappearance of the disease, and we are satisfied that it is a perfect cure. It gives me great pleasure to add that I can recommend it to every sufferer from any similar complaint. Respectfully yours,

ISAAC BROOK'S, JR., CASE!!

GO AND SEE HIM AND YOU WILL SAY THE HALF HAS NOT BEEN TOLD !!

We the undersigned, having visited Mr. Isaac Brooks, kr., at the office of Messrs. Rowand & Walton, 376 Marlet street, Phila., consider his case the most remarkable one we have ever witnessed or heard of.

one we have ever witnessed or heard of.

His disease was Scrofula, and terrible must have been his twelve years' conflict with the destroyer! His Palate, the entire roef of his mouth, Nose, Upper Lip, and lower lid of the right Eye have been destroyed, his Face nearly eaten up, and part of the Jaw Bone carried away. And yet we can give no description of his case.

Mr. R. informs us that in January last the whole interior.

Mr. B. informs us that in January last, the whole interior of his mouth, as well as most of his face, was a mass of deep and painful ulcers.

th of January last, he commenced taking Dr. lous affection, &c. with the most beneficial effect | Cullen's Indian Vegetable Panacea, which checked the Cullen's Indian Vegetable Panacea, which checked the disease in a few days, and from that time the cure has progressed without intermission.

New flesh has supplied the place of the deep ulcers, and though badly disfigured, his face is sound and his general treater.

health is restored.

We are assured that in the treatment of Mr. Brooks' case no Mercurials, Ointments, or Caustic applications have been used,—in fact, the Panacca alone has wrought this wonderful change. W. Jones, M. D.

Purifying the Blood. Purifying the Blood.

To Nearly every individual now burdened with disease and shut out from the most of the pleasures of this life, as well as oppressed with an intolerable load of both mental and physical suffering, and doomed perhaps to enter an any grave; might have lived long, happy and useful life, had they but taken proper pains to preserve their health. To preserve health is easy; to restore it difficult and often impossible. The old adage, "An ounce of preventive is worth a pound of cure," should be the polar star of every one's actions in relation to health. If disease generally is the result of a violation of physical laws effecting vegetative life—nine-tenths of all chronic diseases, are so—then it follows as a consequence that the only rational means of cure is through the Blood. That this is so, facts clearly show. That diseases springing from this source are curable by ALTERATIVES, experience fully demonstrates. Reader, if it is your misfortune to be afflicted with any of the above diseases, you have a remedy in monstrates. Reader, it it is your anstortune to be afflicteg with any of the above diseases, you have a remedy in

Your condition cannot be more helpless than that of Mrs. Rowe.

This is to certify that I was taken with a pain in my side and breast, attended with a discressing cough, and for the space of one year grew rapidly worse. Although I had in attendance three phy sicians, one of whom was considered very skillful all of their efforts proved alike unavailing. At last one of the physicians came in, and decided that I could not live more than one day longer t All of my friends believed that a few days at most

would end my earthly career. My brother at this crisis, hearing of the astonishing cures made by Dr. Rodgers' Liverwort and Tar, went to Chillicothe, distant thirty miles, to procure the above medicine; and, strange to tell, before I had used half a bottle my cough was entirely cured, and when I had used two bottles I was able to attend to my family vocations as usual. "One of the most renowned physicians, one of the greatest benefactors of modern times, was born at Langen Salza, Germany, on the on the 12th day of august 1762.

After a careful scholastic education, he, like his father and grandfather, (two celebrated 1 octors,) voluntarily devoted himself to the study of Medicine, at Jena and Gottingen, and un 1783 obtained the degree of Doctor of Medicine, at the latter University. From 1793 to 1891, he officiated as Professor at the University of Jena. In 1801, he was appointed Private Physician to the king of Prossia, Member of the Academy of Science, and upon the establishment of the near College at Berlin, Professor and Court Physician by the Ministry of the interior. His characteristic his profoundness and deep penetration enabled him to combit e the theoretical and practical, to unite new and old systems; produce in common the practical and neful, and thus drive therefrom the results and necessary applicable means.

and this drive increases and the start of the 'Brown's system,' which notwithstanding the exterior could not conceal its many imperfections, brought to light by Hoofland's nob!: imperioritist, sound truths, and deep penetration. Independent of his practical usefulness as Physician and Professor of the healing art, he has earned undying fame for his superior knowledge in 'Meteria Medica' as well as for his manifold works on Medical jurisprudence. Among these may be mentioned his world re nowned 'Makrobeolik,' or the art of prolonging life. 'System of practical Medicine,' dec. He has besides all this, gained eternal fame and practe from suffering humanity for the discovery and combination of several infallible medicinals, among which is the far famed and justiy celebrated compound. Dr. HOOFLAND'S GERMAN BITTERS.

The application of aridnous earth for the cure of Sulphuric diseases. The celebrated Diaphoretic remedy—and numerous invaluable recorded recipes.

After the celebration of his fifteenth professional festivity in 1833, upon which occasion the King of Prussia honored him, with the insignia of the Order of the Cross of the Red Eagle, and many other Royal Orders and marks of distinction, he-died on the 25th day of August, 1836, (as the King of Prussia's private Medical Councellor.) without any legitimate make heir oroffspring.

"Dr. C. M. Jackson of Philadelyhia, has had the means of octaining the genuninen recipes of the great menical councellor 'Christhpe Wilhel Hufeland,' and these invaluable medicines are prepared with the numest care at the German Medicine Score. The bitter mixture: Hoofland's German, Bitters, is the result of many years study and experience by the great inventor, and known and prized in Europe as an infalliable remedy for the cure of Liver complinit, Janudice, Dyspepsia, &c. Dr. C. M. Jackson's preparation of this medicine has obtained the same celebrity in this western word. The testimonials and impunemental the confirmation of thousands of the most severe and difficult cases circul, is sample proof of this. The mediciness compounded by Dr. (z. M. Jackson have produced the very, effects and the same happy results, which the immortali inventor indicated and intended, and consequently must be prepared with scrappilors accuracy. In view of the above facts it seems singular, that any body could have the hardihood and impudence to above the uame of this distinguished Doctor, who died thirteen years ago. "To pass off a charlian quack preparation as the real and genuins medicines, and to give a semblance of originality by uffixing a foc. simile, of the deceased, is indeed extraordinary! The public will understand what to expect, and what to do under such as a charlian extraordinary and the

ler such circumstances." A number of German papers copied the above and there-fore entitled to our thanks.

These bitters are worth the attention of invalid. Possess, ing great virtues in the rectification of diseases of the liver and lesser glands, exercising the most searching powers in weakness and affections of the digestive organs, they are withal, safe certain, and pleasant.

"Illustrated News" says:
"Our editor and others of this office have used the German Bitters, und can recommend it with confidence to our readers. As prepared by Dr. Jockson, it fully equals if not surposses in its effects upon diseased Liver and Stomaen, the fullest expectation of the distinguished physician.

The "City Items" October 16th. says:

JOY FOR THE INVALID.—How many of our readers are

afflicted with diseased liver, stomae, or nerves! Many no doubt. They are to be pitied, yet to all there is a cure Dr. Hoofland's German Bitters has already cured bundreds Dr. Hoofland's German Bitters has already cured hundreds and that it will cure, and none who once use it will doubt if they use it as it is directed. It has established for itself an undying fame, which few have done out of the vast number that has been thrown before the public. It isome of the most perfect preparations in use: and, as a German contempory has said, that as prepared by Dr. Jackson, it fully equals, if not surpasses, in its effects, in its effects, the fullest representations of the distinguished physician, who first compounded it. As a spurious article is now before the public, we would caution all against using any but that signed by C. M. Jackson and sold by him at 120 Arch street.

The "Camden Democrat," the best paper in West Jersey, says, July 21. "Hoofland's German Bittert."—"We have seen

sey, says, July 21.

"Hooflano's German Bittert."—"We have seen many flattering notices of this medicine, and the source from which they come induced us to make inquiry respecting its merits. From inquiry we were pursuaded to use it, and mustsay we found it specific in its action upon diseases of the liver and digestive organs, and the powerfue influence it exerts upon nervous prostration is really surprising. It calms and strengthens the nerves, bringing them into a state of repose, making sleep refreshing:

If this medicine was more generally used, we are satisfied there would be less sickness, as from the stomach, liver and nervous system the great majority of real and imaginary diseases emanate. Have them in a healthy condition, and you can bid defiance to epidemics generally. This extraordinary medicine we would advise our friends who are at all disposed to give a trial—it will then recommend itself. It should, in fact, be in every family." No other medicine can produce such evidences of merit.

Beware of Counterpetrs.—This medicine has attained that high character which is necessary for all medicine to attain to induce counterfeiters to put forth a spurious article at the risk of the lives of those who are innocently deceived.
