to its present state of perfection; and the exp rience of fourteen years has turnished them the most ample opportunity of study, in their various forms, the diseases for which it is recommended, and to adapt it exactly to their relief and cure Patients who wish a really good Medicine are invited to give it a trial, and satisfy themselves of its su periority, and the invaluable property it possesses of arresting and curing disease. The bottle has been enlarged to hold one Quart, and in its present improved form may safely claim to be the best and cheapest medicine of the age. Its progress to the fame it has attained may be traced by a long line of facts and cures, that stand as landmarks and beacons for the invalid, pointing the way to the haven of health, and what it has already done for the thousands who have used it, it is capable of doing for the millions still suffering and struggling with disease. It purifies, cleanses, and strengthens the fountain springs of life, and infuses new vigor throughout the whole animal frame. REMARKABLE CURE OF BRONCHITIS.

New York, Feb. 17, 1848. Messrs Sands:—Having suffered many years with a disease of my throat, affecting the larynx, during which time I was treated by the most distinguished physicians in Europe and the United States, without receiving any permanent benefit, but all the time my general health and strength declining, and the dise see making fearful progress: caustic applications were used, and whatever else was thought most efficient for producing a cure; Messrs Sands :- Having suffered many years was thought most efficient for producing a cure; but I am confident the deplorable situation I was in, the laryngitis being accompanied with phthisis and great difficulty in breathing, would soon have terminated my life, had I not obtained relief through the medium of your invaluable Sarsaparilla. I must say, gentlemen, when I commenced using the Sarsaparilla I did not place much confidence in its virtues , and this will not surprise you, when you are informed I had tried more than fifty different remedies during the past four years, without any success; but after taking your Sarsaparilla a tew weeks, I was obliged at last to yield to evidence. This marvellous specific has not only relieved, but cured me; and I therefore think it my duty, gentlemen, for the benefit of suffering humanity, to give you this attestation of my cure.

New York, May, 10, 1848. LIVER CC TPLAINT.

The following is an exeract from a letter receivd from Rev. William Galusha: BERKSHIRE, Vt. Oct. 22, 1848.

Messrs. Sands: I have been afflicted with a severe pain in my side, occasioned by a diseased liver, for the last twenty years, suffering at times what language cannot convey; but since taking your Sarsaparilla I have been greatly relieved, so much so that I have been able to attend to my business, and preach occasionally, for the last eighteen months. I wholly discarded all other medicine, and thoroughly tried the Sarsaparilla, which I can recommend in truth and sincerity to all those who are in any way afflicted with any species of scrofulous complaints. There have been some remarkable cures effected by its use in this vicinity. Mrs. 1. Shaw, by the use of six bottles, was restored to better health than she had before enjoyed for ten years; and Mr W. Stevens, who had been severely afflicted with erysipelas, was entirely cured

by the use of a few bottles. Yours tru'y, WM. GALUSHA SCROFULUS AFFECTION OF THE EYES. SOUTH KINGSTON, R I., Oct. 11, 1847.

Messrs. Sands : Gentlemen-My little daughter, when one year old, was attacked with a scrofulous humor on her face, which soon after extended into her eyes, causing almost total blindness in one of them, and disfiguring her whole face. I employed two physicians to attend her, who exhausted their utmost skill to give her relief, but it all proved useless, and finally one of them remarked to me that he had known of some striking cures effected by Sands' Sarsaparilla, and advised me to try it. I obtained one bottle, which she commenced using, and before it was all used up it had effected an entire cure. It is now over four years since she was cured, and there has been no reappearance of the disease, and we are satisfied that it is a perfect cure. It gives me great pleasure to add that I can recommend it to every sufferer from any similar complaint. Respectfully yours, GEORGE ROBINSON.

We the undersigned, having visited Mr. Isaac Brooks, kr., at the office of Messrs. Rowand & Walton, 376 Marlet street, Phila, consider his case the most remarkable one we have ever witnessed or heard of.

His disease was Scrofula, and terrible must have been his twelve years' conflict with the destroyer! His Palate, the entire roof of his mouth, Nose, Upper Lip, and lower lid of the right Eye have been destroyed, his Face nearly eaten up, and part of the Juw Bone carried away. And yet we can give no description of his case.

disease in a few days, and from that time the cure has pro-

gressed without intermission.

New flesh has supplied the place of the deep ulcers, and though badly disfigured, his face is sound and his general

health is restored.

We are assured that in the treatment of Mr. Brooks' case no Mercurials, Ointments, or Caustic applications have been used,—in fact, the Panaccea alone has wrought this wonderful change.

Purifying the Blood.

The Nearly every individual now burdened with disease and shut out from the most of the pleasures of this life, as well as oppressed with an intolerable load of both mental and physical suffering, and doomed perhaps to enter an act y grave; might have lived long, happy and useful life had they but taken proper pains to preserve their health To preserve health is easy; to restore it difficult and often impossible. The old adage, "An ounce of preventive is worth a pound of cure," should be the polar star of every one's actions in relation to health. If disease generally is the result of a violation of physical laws effecting vegetative life—nine-tenths of all chronic diseases, are so—then it follows as a consequence that the only rational means of cure is through the Bloop. That this is so, facts clearly show. That diseases springing from this tional means of cure is through the Bloop. That this is so, facts clearly show. That disenses springing from this source are curable by ALTERATIVES, experience fully demonstrates. Reader, if it is your misfortune to be afflicted with any of the above disenses, you have a remedy in the Panacea that will not disappoint your most sanguine expectations. Remember a medical and responsible person tells you so.

Despair not though your Physicians and Friends give you up to die!!!

Your condition cannot be more helpless than hat of Mrs. Rowe.

This is to certify that I was taken with a pain in my side and breast, attended with a distressing cough, and for the space of one year grew rapidly worse. Although I had in attendance three physicians, one of whom was considered very skillful, all of their efforts proved alike unavailing. At last one of the physicians came in, and decided that I could not live more than one day longer! All of my friends believed that a few days at most

would end my earthly career. My brother at this crisis, hearing of the astonishing cures made by Dr. Rodgers' Liverwort and Tar, went to Chillicothe, distant thirty miles, to procure the above medicine; and, strange to tell, before I had used half a bottle my cough was entirely cured, and when I had used two bottles I was able to attend to my family vocations as usual HARRIET ROWE.

Mr. Merriweather writes as Follows: Mr. A. L. Scovill, Dear Sir-Dr. Rogers' Liver wort and Tar came safe to hand. I have sold a number of bottles. I has met with great success. A young man of this place, supposed to have the

consumption, has been entirely cured. D. MERRIWEATHER.

OF The following certificate from one of the most distin, guished physicians in Cincinnati, is entitled to great credit. I feel constrained from a sense of duty to make the following statement conscious that it may appear unprofessional. Mr. Charles Wade, of t discity, was quite low with Pulmonary Consumption, for which I had been treating with less than usual success. At his request, and that of his friends, I permitted him to try Dr Rogers's Liverwort and Tar; and I must confess that its effects were really surprising. After using the second bottle my visits were discontinued, and he was soon restored to health. I do conscientiously recommend my brother practitioners to prescribe this remedy in all pulmonary complaints which baffle the ordinary mode of treatment. Denmark, Tenn, June 30, 1848.

"One of the most renowned physicians, one of the greatest benefactors of modern times, was born of Langen Salza, Germany, on the on the 12th day of angust 1762.

After a careful scholastic education, he, like his father and grandfatter, (two celebrated 1 octors,) voluntarily devoted himself to the study of Medicine, at Jena and Gottingen, and un 1783 obtained the degree of Doctor of Medicine, at the latter University. From 1793 to 1891, he officiated as Professor at the University of Jena. In 1891, he was appointed Private Physician to the aing of Prussa. Member of the Academy of Science, and upon the establish ment of the near College at Berlin, Professor and Comt Physician by the Ministry of the interior. His clearacter istic his profoundness and deep penetration enabled him to combit e the theoretical and practical, to unite new and old systems; produce in common the practical and useful, and thus draw therefrom the results and necessary applicable means.

and thus draw therefrom the results and necessary approache means.

"It was Dr. H. principally, who exposed and destroyed the 'Brown's system,' which notwithstanding the exterior could not conceal its many imperfections. brought to light by Hooftand's noble impartiality sound truths, and deep penetration. Independent of his practical usefulness as Physician and Professor of the healing art, he has earned undying fame for his superior knowledge in 'Meteria Me, dica' as well as for his manifold works on Medical jurisprudence. Among these may be mentioned his world renowned 'Makrobeolik,' or the art of prolonging life. System of practical healing art,' 'Ideas of Pathogenic,' 'Journal of practical Medicine,' &c. Ho has besides all this, gained eternal fame and prass from suffering humanity for the discovery and combination of several infallible mcGicinals, among which is the far famed and justiy celebrated compound, known as

After the celebration of his fifteenth professional festivity in 1833, upon which occasion the King of Prossia honored him with the insignia of the Order of the Cross of the Red Eagle, and many other Royal Orders and marks of distinction, he died on the 25th day of August, 1836, (as the King of Prussia's private Medical Councellor.) without any legitimate male heir or offspring.

The buter mixture: Hoofland's German Bitters, is the result of many years study and experience by the great inventor, and known and prized in Europe as an infalliable remedy for the cure of Liver complaint, Jaundice. Dyspepsia, &c. Dr. C. M. Jackson's preparation of this medicine has obtained the same telebrity in this western world. The testimonials and unnumerable confirmation of thousands of the most severe and difficult cases cured, is ample proof of this. The medicines compounded by Dr. C. M. Jackson have produced the very effects and the same happy results, which the immortal inventor indicated and intended, and consequently must be prepared with scrappilous accuracy. In view of the above inventor indicated and intended, and consequently most be prepared with scrapulous accuracy. In view of the above facts it seems singular, that any body could have the hardihood and impudence to abuse the name of this distinguished Doctor, who died thirteen years ago. To puss off a charlitan quack preparation as the real and genuine medicine, and to give a semblance of originality by affixing a for, simile, of the decensed, is indeed extraordinary! The public will understand what to expect, and what to do impersion of the internations."

A number of German papers copied the above and therefore entitled to our thanks.

These bitters are worth the attention of invalid. Possess. ing great virtues in the rectification of diseases of the liver and lesser glands, exercising the most searching power in weakness and affections of the digestive organs, they are withal, rafe certain, and pleasant.

Our editor and others of this office have used the German Bitters, and can recommend it with confidence to our readers. As prepared by Dr. Jockson, it fully equals if not surposses in its effects upon diseased Liver and Stomach, the fullest expectation of the distinguished physician. JOY FOR THE INVALID.—How many of our readers are afflicted with diseased liver, stomac, or nerves! Many no doubt. They are to be pixed, yet to all there is a cure Dr. Hoofland's German Bitters has already cured hundreds and that it will cure, and none who once use it will doubt, if they use it as it is directed. It has setsellished for itself an undying fame, which few have done out of the vast number that has been thrown before the public. It is one of the most perfect preparations in use: and, as German contempory has said, that as prepared by Dr. Jackson, it fully equals, if not surpasses, in its effects, in the effects, the fullest representations of the distinguished physician who first compounded it. As a spurious article is now before the public, we would caution all against using any but that signed by C. M. Jackson and sold by him at 120 Arch street.

"Hoopland's German Bittert."—"We have seen many flattering notices of this medicine, and the source from which they come induced us to make inquiry respecting its merits. From inquiry we were pursuaded to use it, and must say we found it specific in its action upon diseases of the liver and digestive organs, and the powerfuc influence it exerts upon nervous prostration is really surprising. It calms and strengthens the nerves, bringing them into a state of repose, making sleeprefreshing:

If this medicine was more generally used, we are satisfied there would be less sickness, as from the stomach. It-re and nervous system the great majority of real and imaginary diseases emanate. Have them in a healthy condition, and you can bid defiance to epidemics generally. This extraordinary medicine we would advise our friends who are at all disposed to give a trial—it will then recommend itself. It should, in fact, be in every family." No other medicine can produce such evidences of merit.

Beware of Counterputes. This medicine has attained that high character which is necessary for all medicine to attain to induce counterfeiters to put forth a spurious article at the risk of the lives of those who are innocently, deceived.
