NEW YORK, Aug. 20. The Cotton market is unchanged-the for-

eign news having no effect on prices. NEW YORK, Aug. 21. Cotton to-day is unsettled; sales have amounted to 1000 bales, and the prices tend in favor of buyers. The steamer Philadelphia arrived this morning from Chagres with dates from San Francisco to the 15th of July. She brings 131 passengers and one million of dollars in gold.

Improvements in California continue, and the accounts from the newly discovered gold regions are still favorable. Murders and robberies have become common occurrences at

BALTIMORE, Aug. 20. The sales of Cotton have amounted to 2500 bales, and prices have advanced a quarter of a cent: Middling 12 1-2 and 12 5-8; Good Middling 12 3-8.

BALTIMORE, Aug. 21. Yesterday and to-day 8000 bags Rio Coffee have been sold at 93-4 a 10 3-8. Flour has declined 1-8.

FROM TAMPA.-The schr. T. P. Sprague, Booth, master, arrived at this port on Saturday, Jeft Tampa on the 29th ult.

By a passenger on board the T. P. Sprague, we learn that the U. S. steamer De Rossett arrived at Tampa on Sunday, the 28th ult., from Fort Myers, on the Carloosahatchee, where she had been for the purpose of bringing the Arkansas Indians to Fort Brooke, to leave upon the U. S. steamer Fashion, daily expected, for New Orleans, on their way home. One of their party was out on a visit to the Florida h. dians, and they did not come up on the De Ros. et. The U. S. steamer Planter left for Fort Myers a few days before the De Rossett arrived, and the Indians will come on her to Fort Brooke. The delegation will take about twenty of the Seminoles to the West with them. Sam Jones and Billy Bow Legs decline leaving for the present, and it is doubtful whether they will leave at all, unless compelled. This much has been gained by the Western Indians communicating with them: Sam Jones says that all who are disposed to go can go; that he will not interfere to prevent their leaving if they wish to do so. Bow Legs changes his mind very frequently on the subject. So often has he changed it, that little or no dependence is placed upon what he says The delegation have come to the conclusion that it is useless for them to remain any longer in Florida.-They are of the opinion that it is unnecessary to have any further talk with Sam Jones and Bow Legs. Sam Jones will never consent to leave. Bow Legs may be induced to go after a

It is said that in a talk held at Carloosahatchee between Gen. Twiggs and Bow Legs the General observed to Bow Legs that he did not care to have any further talk with him; that he had lied to him from the beginning; and that he did not care whether he left Florida or not; that he, General Twiggs, intended to leave, and take all the regulars with him; and that next fall the Governor of Florida would send the cow drivers down upon them; that he, Bow Legs, was well acquainted with them and that they would drive him and his warriors out of the country. Bow Legs appeared much affected, and said he would go; but declined going on board the steamer, preferring to wait for a more convement opportunity.

PROSPECTUS OF THE "Hornets' Nest and True Southron."

In giving this pyper an additional or sir-name, we deem it due to the readers of it, especially those who have approven of its course for the past twelve months, to give an expose of its future conduct.

It is well known to those who have been observers of political events for some time past, that since we commenced the publication of this paper, the abolition question which took root long ago, and which has been growing until its upas branches threaten to poison the country, with its nalignant shade, has worn a more aggravated aspect than it ever did before. Upon the first apprei:ension felt by us that the question was growing more serious and important; upon the first jealous misgiving we experienced that the northern fanatics had so far succeeded, as to be marshalling their forces beneath the very caves of our national capitol, we became alarmed for the safety of the South. and had our every impulse enlisted in her behalf. This, every number of our paper for a long time has been proof to.

We saw as every one may have seen, that a crisis was approaching which must result in entirey denationalizing the whole of the slave States, acing them in a State of bondage, of complete vassalage to those at the north, who with pretend ed sympathy for our slaves were making every effort to become themselves our masters.

Seeing this, every feeling of our nature, every conviction of our reason, every spark of sympathy in our bosom impelled us to fling our feeble aid in wi h those who were battling for the South. Southern therefore has been the character of this paper, and Southern it shall continue to be.

Pursuing a policy suicidal to themselves and dangerous to the South, the Whigs in this State, have as a party, opposed the Southern movement in all its phases, and thus are we, while consistently, and aswe believe righteously acting so far as our efforts go, for the best interests of the South, brought up antagonistic to that party upon the only issues now before the people for the salvation and prosperity of the South.

It whiggery consists in opposition to what the South has rought as remedies to prevent disunion and sustain her position, to guard her rights and reserve her institutions, then we are no whig. If it consists in opposition to the Nashville Con

vention in opposition to the Missouri Compromise line, in an approval of the Committee's Omnibus adjustment Compromise, we are no whig.

If it consists in approving the administration of a nortnern man, who said he would appoint no man to his cabinet that was from a State that sent delegates to the Nashville Convention, we are no

Of these things, against every protest that we have been ab e to make, is North Carolina whiggery by its leaders made to consist, and we are driven to the alternative of abjuring it while it remains such, now and henceforth. There is no escape from such a position. We must either become what we believe to be dangerous, and deadly dangerous, to the South, under the above modern platform of North Carolina whiggery, or sustain our past position of friendship to the South and ab-

jure such whiggery. We prefer the latter. Under the stringency of such circumstances as we have endeavored to explain, we shall work with whatever party at the South, seemeth to us to be aiming at the accomplishment of the same noble end—the honor, safety, and independence of the South. If it be that we labor with the democrats, so be it. They have wisely and patriotically taken the proper stand, and if we are found with them it is because with the same goal in view, we have met upon the same common highway, and not because of the least inconsistency of political conduct in either.

The course of this paper shall be in strict accor dance with the foregoing exposition, and e trust the aid we shall receive from the friends of the South will be such as to incite us to renewed exertions in her behalf. We should have put forth no manifesto in favor of ourselves, but on behalf of the South, on behalf of that democracy which carries the flag of the South, we confidently bespeak a generous support for "THE TRUE SOUTHRON."
