

Intelligence from several Southern States indicates there is considerable disorganization and want of harmony among the Southern Republicans. This is caused by local and personal quarrels between the leaders of the party in this section. In South Carolina, the chief bitter feud between Governor Scott and the delegation from that State in Congress. In North Carolina, there is the old quarrel between Governor Holden and certain members of the party there. In Texas, Governor Davis has a contest on hand with Senator Hamilton. In Louisiana, it is said that Governor Warmouth is preparing to go over to the Democrats. There is an utter want of harmony and a lack of discipline which has worked demoralization among the rank and file as well as the leaders. All through the South the Democrats claim to be making great headway.

STATISTICS OF LIFE—The yearly mortality of the globe is said to be 83, 333, 333 persons. This is at the rate of 91, 544 per day, 373 per hour, and 42 per minute. One-fourth of the population die at or before the age of seven years; one-half at or before seventeen years. Among 19,000 persons, one arrives at the age of one hundred years; one in 500 attains the age of ninety; and one in 100 lives to the age of sixty. So says an exchange.

God's word is like God's world—varied, very rich, very beautiful. You never know when you have exhausted all its secrets. The Bible-like nature, has something for every class of mind. Look at the Bible in a new light, and straightway you see some new charms.

Black and white lace is worn in the neck of dresses, instead of collars. Major J. M. Walere, proprietor of the National Hotel in Norfolk Virginia, committed suicide on the 10th.

A ridiculous story is going the rounds of the country, that Mr. Bergh had a young woman arrested the other day for beating an egg.

Fooling with a bear was the primary cause of a Detroit man's retirement from business and the settling of his estate.

A Sacramento paper says the wild geese are so plentiful in California that they give as much annoyance to railroad men as the grass hoppers in summer.

FOR THE LADIES.—The Marie Antoinette slipper, high heel, square toe and jeweled buckle, is a great favorite. The paths of fashionable life will be more slippery now than ever.

Two oyster-eaters had a contest in Charleston, on Saturday night, who one disposed of nineteen dozen and a half, and the other twenty-two dozen and a half on the half shell. How that for the championship!

A correspondent of the Boston Traveller says that if women were as particular in the choosing of a virtuous husband as men are in the choosing of a virtuous wife, a moral reformation would be soon begun.

Like a morning dream, life becomes more and more bright the longer we live, and the reason of everything becomes more clear. What has puzzled us before seems less mysterious, and the crooked paths look straighter as we approach the end.

Nothing is more easy than to get rich: It is only to trust nobody, be friend no one, to destroy all the finer feelings of nature, and be rendered mean, miserable and despised for selfishness twenty years, and riches will come as sure as disease, disappointment, and a miserable death.

"NECK TIE PARTIES" have dawned in the rural districts. A neck tie party is one where each lady attending the party makes a neck tie of the same material as the dress she wears. These are taken to where the party is to be held and placed in a bag. When the gentlemen arrive, each one must go to the bag and take out a neck tie, and it is his duty to wait upon the lady during the evening who wears the dress corresponding in material with the neck tie. The will-flowers find it a splendid way to strike an average.

Sauer Kraut and PICKLED CUCUMBERS. Nice and FRESH, at KIRKLEY'S.

TO PHYSICIANS. New York, August 15th, 1868. Allow me to call your attention to my Preparation of Compound Extract Buchu.

The component parts are BUCHU, LONG LEAF, CUBEBS, JUNIPER BERRIES.

MODE OF PREPARATION.—Buchu, in vacuo. Juniper Berries, by distillation, to form a fine gin. Cubebs extracted by displacement with spirits obtained from Juniper Berries; very little sugar is used, and a small proportion of spirits. It is more palatable than any now in use.

Buchu, as prepared by Druggists, is of a dark color. It is a plant that emits its fragrance; the action of a flame destroys this its active principle, leaving a dark and glutinous decoction. Mine is the color of ingredients. The Buchu in my preparation predominates; the smallest quantity of the other ingredients are added, to prevent fermentation; upon inspection, it will be found not to be a Tincture, as made in Pharmacy, nor is it a Syrup—and therefore can be used in cases where fever or inflammation exist. In this, you have the knowledge of the ingredients and the mode of preparation. Hoping that you will favor it with a trial; and that upon inspection it will meet with your approbation. With a feeling of confidence, I am, very respectfully, H. T. HELMBOLD, Chemist and Druggist, of 16 years Experience.

From the Largest Manufacturing Chemists in the World. NOVEMBER 4, 1854. "I am acquainted with Mr. H. T. HELMBOLD; he occupied the Drug Store adjoining my residence, and was successful in conducting the business where others had not been equally so before him. I have been favorably impressed with his character and enterprise. WILLIAM WEIGHTMAN, Firm of Powers & Weightman, Manufacturing Chemists, Ninth and Brown streets, Philadelphia.

Helmbold's Fluid Extract Buchu. Is the great specific for Universal Latent Prostrations, &c. The constitution, once affected with Organic Weakness, requires the aid of Medicine to strengthen and invigorate the system, which HELMBOLD'S EXTRACT BUCHU invariably does. If no treatment is submitted to, Consumption or insanity ensue.

Helmbold's Fluid Extract Buchu. Will radically exterminate from the system diseases arising from habits of dissipation, little exercise, little or no change in diet, incontinence or exposure; complete prostration; and all other morbid and dangerous remedies, Copraiva and Mercury, in all these diseases.

Helmbold's Fluid Extract Buchu. In all diseases of these organs, whether existing in male or female, from whatever cause originating, and no matter of how long standing. It is pleasant in taste and odor, "immediate" in action, and more strengthening than any of the preparations of Bark or Iron.

Helmbold's Fluid Extract Buchu. The reader must be aware that, however slight may be the attack of the above disease, it is certain to affect the bodily health and mental powers.

All the above diseases require the aid of Helmbold's EXTRACT BUCHU, the great Diuretic.

Sold by Druggists everywhere. PRICE—\$1.25 per bottle, or 6 bottles for \$6.50. Delivered to any address. Describe symptoms in all communications.

PIEDMONT & ARLINGTON Life Insurance Company OF RICHMOND, VIRGINIA

ASSETS, over \$2,000,000 NET SURPLUS, over 700,000 POLICIES ISSUED, over 11,000

W. C. CARRINGTON, PRESIDENT. J. E. EDWARDS, Vice-President. D. J. HARTSOOK, SECRETARY. J. J. HOPKINS, ASSISTANT SECRETARY. J. E. WOLF, SUPERINTENDENT OF AGENCIES.

SOUTH CAROLINA BRANCH OFFICE, AT COLUMBIA S. C. In South Carolina National Bank Building.

J. P. THOMAS, PRESIDENT. S. L. LEAPHART, SECRETARY. DR. ISAAC BRANCH, SUPERINTENDENT OF AGENCIES.

BOARD OF DIRECTORS.—John McKenzie, John S. Preston, F. W. McManor, W. B. Oulick, John T. Sloan, Sr., Dr. R. W. Gibbes, R. C. Shiver, Thompson Earle.

STATE AT LARGE.—Ex-Governor M. L. Binham, General M. C. Butler, General J. D. Kenney, Colonel T. C. Perrin, Dr. Isaac Branch, Dr. M. B. Cook.

WE OFFER IN THE PIEDMONT AND ARLINGTON, A SOLID, RELIABLE LIFE INSURANCE COMPANY, thoroughly Southern, in the hands of men of the highest integrity, with abundant assets, recent risks, the most secure of all investments, pledged to retain within the State of South Carolina all funds accruing thereon, and, indeed, presenting every advantage that can be desired.

We confidently appeal to every one interested in Southern prosperity to look to their own interest, by sustaining their own institutions, and thereby establish that self-confidence without which there can be no permanent prosperity. Bear in mind that, already, over \$10,000,000 are annually sent North for Life Insurance, taking so much from our strength, and thereby giving additional power to our competitors.

Rights of party to non-forfeiture in all its policies. Rights of party to reinstatement paid policy, and surrender value where "intervention of armies" or any other cause cuts the insured off from home office. This feature, omitted in policies of Northern companies, cost the Southern people very heavily in the late war, and should make them seek the only company that provide against such contingency in future.

From an official exhibit, it is shown that the Piedmont and Arlington had a greater income of business in 1869 over 1868 than any company on this continent. It shows that, were only three companies in the United States that issued larger amount of risks in 1869 than it did, and only nine companies that issued more policies also, that, with their enhanced risks of fifteen or twenty years all combined, this company, though young, and twentieth in amount of risks in force.

This exhibit, among over a hundred companies, makes the Piedmont and Arlington the leading Life Insurance Company, at least of this country. It shows, not only progress, but utility and economy—its losses being light, its expenses small.

PLAN MUTUAL. Dividend paid on whole life policies, forty per cent. Dividends given at end of first year, when all cash is paid. All policies non-forfeitable.
