CAMDEN COTTON MARKET. CAMDEN, S. C. December 27, 1871. Market unchanged in prices. We report sales of only 177 bales at 18 1/2c for middling.

PERSONAL.—We had the pleasure of a call, on Friday last, from our friend and cotemporary, Mr. E. A. BRONSON, proprietor of that sterling sheet, the Barnwell Sentinel, from whom we are glad to learn of its prosper-

A CHRISTMAS TREAT.—About 1 o'clock on Tuesday, just at a nice hour for lunch, the JOURNAL was presented by Mrs. CROSBY with an elegant repast, consisting of oysters, stewed in the best style, flanked by bread, butter and pickles, and a delightful fruit-cake and cheese for dessert, with the following auspicious accompanying it: "To the Printer, be Devil and all his Imps."

THE HOLIDAYS.—About the middle of last week the Christmas holidays commenced in earnest. The streets were full of people and the stores put on their gayest attire.—The shop windows were crowded with all sorts of ingenious tortures for the eyes, ears, and bodies of nervous persons. The timid and quiet sought the repose of home, while the gay young folks flocked to the crowded thoroughfares.

At the Episcopal church service was held by the Rev. C. Bruce Walker, on Monday, and although the weather was unsettled, quite a large congregation attended. It was on Monday that the real fun began, from early dawn till way upast "dewy eve," in fact till twelve o'clock at night, the air and ear filled with the detonations of cannon, guns, pistols, torpedoes, crackers, roman-candles, rockets, wheels and almost every other known vehicle of noise. Unwary horsemen who rode up Main Street knew no rest until they had run the gauntlet of the firing, which was vigorously kept up during their passage.

Not content with Monday, the fun was continued into Tuesday and even a larger crowd thronged the streets than on the day before. As was natural, quite a large quantity of benzine was imbibed, but we have not yet heard the first instance of a disturbance, a fact which reflects credit upon the municipal authorities, and the character of our entire people.

Siffey; Manchester Mission to be supplied; Lynchburg, J. W. Little, Dove Tiller; Manning, A. Erwin; Kinross, A. Nettles; Camden, A. J. Stokes; Johnsonville, M. L. Banks; Timmons-ville, George H. Wells; Liberty Chapel, A. J. Stafford; Lynches Creek Circuit, S. P. H. Ethell; Bishopville, Samuel A. Weber, A. McCurdy.

CHANGE OF SCHEDULE.—The following change has been made in the schedule of the Camden Branch: Leave Camden 6.15 a. m.; arrive at Columbia at 10.40 a. m.; leave Columbia 1.45 p. m.; arrive at Camden at 6.25 p. m. On Tuesdays, Thursdays and Fridays, the above schedule will be observed as far as Kingsville.

The Survivor's Association. The 20th instant, their usual anniversary was celebrated by the Survivors of Kershaw County. The Association went to the Presbyterian Church and listened to the oration of Gen. J. D. KENNEDY. This oration was, in every respect, worthy of the occasion: in the brief analysis of the causes of the late war, accurate and logical; in the estimate of the character and services of the Confederate army enthusiastic but calm, sound and eloquent; in the advice given, sober and practical. It should be preserved among the records of the Survivors' Association.

After enjoying this feast of reason, the Survivors repaired to the Kershaw House, where arrangements had been made for gratifying the palate. When we arrived at the hotel, we were glad to see that our young friends of the Wateree Cornet Band had made their first appearance in public in honor of the Survivors' Association. Their performances were very creditable to themselves, and a source of great pleasure to the Survivors, by whom their kindness is highly appreciated. The supper, furnished by Mr. RODGERS, of the Kershaw House, was abundant, good and well prepared, and was apparently much relished by the large and good-humored party who partook of it. After the appetite had been satisfied, toasts were read out and responded to by several of those present. The sentiments were well chosen. We wish that we had time and space to notice at length several of the speeches made on the occasion, but as we cannot mention all, we will not attempt to choose between those which were of equal and very great excellence.

The time was very pleasantly passed in this variety of interesting employments until a late hour, when the meeting was dissolved, and all went home well pleased with the celebration.

We think that the Survivors' Association should be cherished by its members, and that every effort should be put forth to make it strong and vigorous. It is well for those who passed through the marches, battles, hardships, privations, triumphs, reverses, hopes, joys and disappointments of the late terrible war, to meet together and recall those scenes, revive the memory of the principles for which they fought, and the efforts put forth in their defence, and encourage each other to hope, be faithful and persevere, now that our cause is prostrate in the dust, our principles despised and trampled on and our motives misrepresented.

We would especially call attention to the resolution adopted by the Association which proposes to give it a practical object, and engage it in a noble and necessary work. The claims of the widows and orphans of those fell for their country, are great, and we cannot disregard them. Many poor and humble men laid down their lives gallantly for their country. Shall we allow those who were dependent on them to suffer for food, clothing, and education? Shall we permit disabled soldiers to suffer and die? We hope the committee appointed to carry out this resolution will see to it that the charitable intentions of the Survivors' Association are accomplished.

But a few days remain to procure tickets in the South Carolina Land and Immigration Association. \$500,000 in prizes. Tickets \$5 each. It is positively determined that the drawing will take place January 8, 1872. Send your orders without delay, as no tickets will be sold after 5th January, 1872. See advertisement in another column.

MANUFACTURING ENTERPRISE IN CHARLESTON.—Charleston is fast becoming a manufacturing as well as a commercial city. The largest manufactory of doors, sashes, blinds, &c., in the Southern States is that of Mr. P. P. Toale, on Horbeck's wharf in that city, sales room at No. 20 Hayne street. Mr. Toale's advertisement appears in another column.

The Secret of Captivation.—Features of Grecian mould, a well-turned neck and beautifully rounded arms, are no doubt very nice things to have, and ladies who possess these charms have reason to be thankful to Mother Nature; yet, after all, the most captivating of all womanly charms is a pure, fresh and brilliant complexion. This superlative fascination any lady may secure by using HAZARD'S MACROTONA, the standard beautifying preparation of the present age. It differs from all ordinary cosmetics in three essential particulars, inasmuch as it contains no injurious ingredients, does not contract or shrivel the skin as all the astringent "blooms," "lotions" and "powders" eventually do, but produces a lasting loveliness by improving the health of the skin. Under its operation the texture of the epidermis becomes finer, and the surface soft as velvet and smooth as porcelain. Features cannot be changed, but complexions can, and it is quite certain that a lady with no other charm than a fresh and rosy complexion, will attract more admiration in company than her neighbor with a classic face but a sallow skin.

A WONDERFUL ENGINE.—A jeweller of Worcester, Mass., has constructed the smallest steam engine ever seen. The material is gold and silver, comprising 143 pieces, fastened to gether with screws the largest of which is one-eighth of an inch in size. The engine, boiler, governor and pump stand in a space seven-sixteenths of an inch square, and are five-eighths of an inch high. The engine alone weighs but fifteen grains, and yet every part is complete, and it may be set in motion by filling the boiler with water and applying heat, being supplied with all valves, &c., to be found upon an ordinary upright engine. It is a marvel of mechanical ingenuity.
