M. on Sunday: Prayer Meeting Wednesday at Presbyterian Church, DcKalb street-Rev. S H. Hay, Pastor - Services at 11 A. M. and 41 P. M. on Sundsy; Prayer Meeting on Wednesday

EFISCOPAL CHURCH. REV. B. F. D. PERRY .-Sunday, at 11 o'clock A. M. and 5:30 P. M. Welfusley, at 5:30, P. M. Baptist Christia, Broad Sired Rev. A. K. Durham, Pastor-Services at -11 A. M. and 74 P. M. on the second and fourth Sundays of each month: Prayer Meeting Thursday at 8 P.

Meetings.

WATEREE DIVISION NO. 9, S. OF T .- Attend the regular meeting of your Division a Temperance Hall on Monday evening at 8 o' clock. By order of W. P. D. C. KIRKLEY, R. S.

OUR AGENTS IN CHARLESTON .- Thendvertising agency of Walker, Evans & Cogswell, represent-ed by Roswell T. Logan. Esq. is the only author-ized agent for this paper, in Charleston.

Mesers. GRIFFIN & HOFFMAN. NEWS-PAPER ADVENTISING AGENTS, No. 4 South Street, HALTIMORE, Mb., are duly authorized to contract for advertisements at our lowestrates. Advertiser, in that city are requested to leave their f-vors with this bouse. This firm has exceptional facilities for placing advertisements cheaply, and ve take plosa-are in reterring all who device to advertise in our of-town papers, especially those having real estate to sell-pto-these gentlemen.

CONCERT OF THE WATERRE CORNET BAND .- This Concert, on Wednesday, 14th inst., was, in many respects, a decided success The audience was larger than was anticipated, but not so full as it should have been, when we consider the merit of the performers, the exceedingly small price of admission, and the many really excellent features of the entertainment. The programme was purely musical-the pieces be ing of a high order-and was not marred by thing of the minstrel, or low-comedy charneter. We cannot too highly commend the good taste manifested in the selection of the music, and the conduct of the whole affair. We were pleased to see the proficiency to which our young friends of the Wateree Cor net Band have attained. All of the pieces were well played, although some of them were quite complicated, and required very good performance to make them acceptable.

We were especially pleased with the openand "Lucinda .Waltz." Several other fea- | s close. tures of the entertainment were pleasing, and we would recommend to but friends further cultivation and expansion in the same direction. We refer to the pieces played by the violin, flute, guitar and piano in concert. The "Polka Quintette," and "Twilight Dews," rendered in this way, were very good, and were received with applause and encores by the audience, "Norma," upon the flute and piano, was very pleasing, and many of the andience wished to hear more of it, but we suppose that the managers saw that time was passing, and that it would be a late hour before the programma was finished, so they would not delay. We also noticed very favorably, "Faust," as a piano solo, by Prof. Fons. "Alonzo the Brave," sung J. T. Arthur was admirable, and "took" very decidedly, as was apparent from the voeiferous applause by the audience. The stage was tastefully arranged, and there was very little of that delay in bringing on the the precessive pieces which is so the some b the audience, and is often more excusable than the public will admit. Some incidents of the entertainment were not so pleasant as those just narrated. The heat was intense, and it is difficult even to enjoy music when breathing is a labor. We were also troubled at times by confusion among the andience.

- LARGE EAR OF CORN-Mr. Leonidas Baxley has left at our office the largest ear of corn we ever recollect seeing. It measures about 14 inches ly length, and has on it 20 rows of grain. The whole ear contains 1.100 grains. This remarkable car of corn was grown on a lot of about fourteen acres belong to Mr. Baxley, near the depot, and he tells us that the whole crop approximates the ear he has shown us. The corn is of the common gourd-seed variety.

CHEAP PEACHES .- There were large quanties of peaches offered for sale on our streets during last week. They seemed to meet with poor sale, as we noticed some very fine onesoffered at fifty cents per bushel, and even at that price could not be sold; the persons offering them being compelled to hand their fruit back home, for want of buyers.

ALARM OF FIRE .- The fire-bell rang the alum of fire on last Saturday evening, but it turned out to be a false alarn.-Mr. Jno. Meroney's chimney burning out-and beyoud creating considerable commotion, no damage was done.

Funious Wind .- On Sunday afternoon, about two o'clock, quite a gale swept over town, breaking off dead branches of trees, and causing quite a dispersion among the ladies who were afraid as the wind played such pranks with them as it does on the Seach at "Long Branch."

A NEEDED EXPLANATION .- A week or two since; a local item had it that there was considerable sickness and mortality in the vicinity, of Camden. Now, in town, all the those of the summer. physicians say that it never was more healthy. and the dreadful charge above recited was intended to apply only to the low places on the river and among the swamps.

We hope that the exchanges which copied the item, will do us the favor of publishing this explanation.

CAMBEN ORPHAN SOCIETY .- This society held its regular quarterly meeting on Monday last at 111 o'clock, in the Directors' room of the Bank of Camden.

The Standing Committee were authorized to go on and finish the repairs on the castern academy, which have been going on for some time under the efficient supervision of Mr. D. R. Kennedy, and the Secretary was authorized to advertise in the Charleston News for a teacher to take charge.

The society evinces a determination to establish that great desideratum, a first class school at low rates of tuition, so as to open it to all persons desirous of educating their

We hope that their efforts will be crowned with success, and the community will give them a cordial support, which they well de-

APPROACHING TERM OF COURT. -On the ixteenth day of September, the regular term of the Court of Sessions will conven . We are informed that our young friends, J. W. Del'ass and W. D. Trantham, who have been diligently pursuing the study of the law for some time post, will then then apply for admission to the bar. -

By the way, we wonder if Rap. Gary still intends to apply for admission at the same time ? He will make a "wheel horse."

LAID OVER .- Owing to the absence of the editor-in-chief, the communication of a distinguished contributor, on the subject of cultivated farming, has been laid over, but will appear next week, on the fourth page, under our agricultural head. We regret the delay very much.

GRAND CONCERT .- The Wateree Cornet Band, encouraged by the flattering reception warded them last week, will give another concert at the Town Hall, this evening, at which the celebrated "Anvil Chorus" will be produced. As our readers are doubtless in possession of the programme we refrain from reproducing it here. We hope, however, that the concert will be well atten ded.

Posting the Books .- Our neighbor, Donald McQueen County Auditor, is hard at work receiving returns of property for taxation, and posting his books. From earing piece, "The Grand Symphony," and ally morn to dewy eve, he can be seen at his so with "Don't be angry with me Darling," post. We hope his labors will soon draw to

> BOUND OVER .- Commissioner Gayle has bound over, Tom Taylor and Henry Boykin, colored, accused by Henry McRae of conspiracy etc., under the Enforcement Act, to natisfactorily cleared himself. The U.S. were represented by Mr. Leitner, and the any political question was involved in the care. Harry McRae is the man who was beaten several weeks ago by a distinguished party of negroes, a full account of which was published in the Jourdal at the time. The reasons then alleged were that Harry had Sutherland, to whom Harry first applied for redress, anxious to save the bounty the ex pense of a prosecution, kindly consented that the case should be referred to Commissioner Gayle, as an offence against the United States, under the Enforcement Act. On behalf of the county, we return our sincere thanks to the Judge.

> QUITE A COLLAPSE.—The editor, being la cly returned from the mountains, has suffered quite a collapse, since his return, the hear having completely taken the starch out of him. The "spinal column" of the summer, however, is broken, and the few remaining weeks of hot weather will not be hard to get through with.

> BUST IN COTTON .- Our farming friends complain of rust in cotton, owing to the late rains following the previous drouth. The corn crops are pronounced the best that have been grown in several years. We hope the cotton is not materially injured.

> A VALUABLE PAPER .- We have received the August number of the Piantation, an agricultural paper, published at Atlanta, Georgia. Nothing can prove of more benefit to our farming community, than the 'experiences and experiment made public through the columns of agricultural papers, and no agricultural paper can be of so much benefit to Southern farmers, as those published in our own vicinity. The Plantation is exactly what is wanted by a great majority of our of our Planters. We would advise our friends to subscribe for this valuable pa-

CRUMBS .- Painting and repairing is still continuing on our streets.

The DeKalb House is advertised for sale under execution.

The County Treasurer left for Co'umbia on Monday, to attend the nominating Convention, though he is not a delegate.

The freights on the Camden Branch begin to exhibit a considerable increase over

The Weteree river commenced to rise on Saturday last, but not sufficiently to overflow its banks. It has since fallen.

The Church services on Sunday last, were well-attended, although the heat was almost sufficient to cause persons to keep in doors.

The nights, for some time past, have been rendered quite musical by the practisings of both the white and colored bands.

The beautiful moonlight nights at present, attract many lovers to a promenade in the many groves and squares of our town .-Riding too, is not neglected.

Water melons seem to have had their day. and still the JOURNAL office stands ready to receive any offers. Peaches are in full blast yet, though in quality, they are not equal to those of two years ago. Country produce, including all kinds of "garden sass," finds a ready market in Camden, at remunerative

THE FREE BRIDGE .- Mr. Las Salle, the energetic contractor, is putting forth his best efforts to complete our free bridge in time for the bulk of the cotton erop. This will be, a great Convenience to our planting friends over on the west side and will enable most of those living comparatively near town to ship two loads a day, whereas by the ferry it was not possible to make more than the one trip. We hope to see the bridge completed within a month.

CAMP MEETING -A large colored camp meeting was in progress near Liberty Hill, during the latter part of last week and the first day of the present, and many attended from Camden. Camp meetings are generally regarded by the young folks as an excellent place for entertainment and this one was no exception to the rule, we suppose.

AGRICULTURAL" FAIR. -There is a scheme on foot to form an association for the purpose of having a County Agricultural Fair, probably in the approaching fall season. These County fairs have proved a success in several localities in the State, and there are some in existence which pay good dividends. Let us have an agricultural Fair.

THE INFLUENCE OF EXAMPLE .- Paul Suwarrow, a colored wouth of imitative disposition, envious of imitating the renowned Butler, the Beast, stole five silver spoons from the Rev. B. F. D. Perry on Tuesday last, and having broken them in two, went about the streets peddling them. But his genius for concealing not being equal to that of his great exemplar, he came to grief at the hands of the police.

A Perilous Season.

Glorious and delightful as summer weather is ts tropical heat is a severe trial to the vital powers. Even the strongest are sometimes prostrated by its effects. The common phrase applied to appear at the United States Court. Mr. B. this condition of the body is "general debility." M. Pearce, white, was discharged he having Now general debility arises from and includes a variety of ailments. The liver is more or less affected, the bowels are either constipated or too much relaxed, the stomach but half performs prisoners by Mr. J. B. Kershaw. Harry the work of digestion, the appetite is poor, and McRae was and is a Democrat in politics, the spirits depressed. This is what is called and the Commissioner decided that under general debility: It is a general disarrangement the evidence, it was best to bind them of all the physical functions, and requires as a over, though it did not clearly appear that remedy, a medicine that will correct them all. Hostetter's Stomach Bitters is specially adapted to this purpose Its general operation is not confined to a single organ. If the liver is affected it restores its tone. If the stomach is torpid it regenerates it. If the nerves are tremulous and weak, it braces and reinforces them. If the mind, which ever sympathises with the body; is been guilty of witcheraft and sorcery. Judge | gloomy and despondent, it relieves the difficulty and soon brings the whole machinism of the body into harmony with the hws of health,

There is no civilized nation in the Western Hemisphere, is which the utility of Hostetter's Stomach Bitters, as a tonic, corrective and antibilious remedy is not known and apreciated .-Throughout the tropies, His considered by both the people and the profession, the standard specific. While it is a medicine for all seasons and allelimates, it is specially suited to the complaints generated by hot weather, being the purest and pest vegetable stimulant in the world.

Beware of the bitters made of serid and dangerous materials which unscrupulous parties are endeavoring to foist upon the people. Their name is legion, and the public has no guarantee that they are not poisonous. Adhere fo the tried remedy, Hostetter's Bitters, sold only in glass, never in Kegs or barrels. . .

august w4. THE VILLAGE CHURCH.-It should not look like a barn or a storehouse. It should be a building, the very sight of which would cause devout feelings in the breast. A well-carved cross should point to heaven; massive paneled doors should impress the visitor with the solemnity of the place into which he is entering; stained glass should throw a mystic light athwart the aisle; pulpit altar coiling and galleries should be ornamented with figurative mouldings, and the columns that support the galleries, and the balusters that rail them in, should be of classic patterns. Any congregation wishing such a church should send their orders for finishing material to Mr. P. P., Charleston, S. C,
