

The State Survivor's Association.

The fourth annual meeting of this Association will be held in the City of Columbia on Saturday, the 9th instant. So says the Charleston Courier. General John B. Gordon, of Georgia, will deliver the address on that occasion. By reference to our local columns, it will be seen that a Committee from our District Association has been appointed to attend the annual meeting.

We hope that the celebration will be well attended, and that the true and brave will again meet, not amid the clash of arms and the roar of battle, but amid the no less stirring scenes of busy life, and there recall their deeds of valor, and mourn over those who went to the front and found a bloody grave in battling for the cause which they held dear.

Death of Mrs. Greeley.

This sad event occurred in the city of New York last week. Mrs. Greeley had been a sufferer for years. During the latter part of her illness, her husband devoted his entire time and attention to her.

It is to be regretted that Mrs. Greeley's illness prevented Mr. Greeley from attending to the duties which pressed upon him as a candidate for the Presidency, and if defeated, it may be attributed in part to his devotion to his wife. Yet, every true man will think more of Mr. Greeley for acting as he has done, than if he had thrown away natural affection, and gone into the canvass more actively.

Gov. Perry's Letter.

We have not published the letter which emanated from the pen of this distinguished Carolinian about ten days ago, but we presume that most of our readers have seen it.

The letter is written in very good spirit, but contains, in our opinion, some bad advice. It advises that all persons who employ colored laborers should contract with them that they vote as their employers do. The Governor says that this can be done without violating the law, and instances the English peasantry as examples of the manner in which in that country, they vote "like master, like man." And he goes on to say that unless they agree to vote as indicated, they should not be employed.

We are not sure upon the law of the case, but we do not believe that the law would permit any man to act thus, because it would amount to an actual deprivation of a man's free will, and any interference with that is directly opposed not only to the statute law, but to the spirit of Republican principles, and is a step towards the enslaving of the mind which is a slavery tenfold more horrible than any other species of that curse. Of one thing, however, we do feel sure, that is, no man could exact such terms from his fellow, and were such a contract made, it would not be binding and could not be enforced. No argument is needed to establish this point, and what would be the advantages of a contract which cannot be enforced, and for the breach of which there is no remedy?

As to the policy of such a step, we consider that it does not rest upon any surer foundation than the principle. There is no doubt that if the State was prosperous, (as we believe it to be every year growing more so,) and every citizen had money or property, the pressure of taxation or any of the other evils imposed upon the people, would not make any material difference or offer any notable check to her prosperity. Wealth is more evenly distributed now than ever before, and the burden of supporting the State is universal instead of confined to a few as before the war. The great lesson which we have been endeavoring to teach the colored laborers for these six years has been that they pay the taxes, not the property-holder. This great truth nobody denies. If it be a truth, where is the sense of Governor Perry's theory? He wants the employer to refuse to hire the colored man, because the latter are the moving cause of the infliction of bad legislation upon us. The principal evil is that of taxation. If the laborers, of whom the great majority are colored, pay the taxes, why should they not continue to suffer the consequences of their actions, in small wages, a decrease of prosperity and a continued lack of the acquisition of property?

The cure for our evils is not such as Gov. Perry suggests. His letter has gone to the country and has had its effect, which is by no means good. Some of our Radical exchanges call it a first-rate Grant and Wilson campaign document. While we do not believe all they say, we regard it as very probable that there is "more truth than poetry" in that statement.

DEPARTMENT OF AGRICULTURE.—We have received from the Chief of this department of the October report, just published.

Among the many items of interest it contains, we find that the total crop of cotton of 1870-'71 numbered 4,347,006 bales, while that of 1871-'72 numbered but 2,974,351, or a falling off of a million and a half bales. The exports for the first year above named were 3,169,009, leaving a million and a quarter for home consumption, and in 1871-'72 the exports were 1,954,314, or on

ly about one million for consumption at home. The crop of 1872-'73 is estimated not to exceed three million bales.

Official Vote for Governor.

We copy below, the completed table of the vote for Governor of South Carolina, at the late election, for which we are indebted to the Charleston Courier.

The figures (says the Courier,) are taken from the official returns of the Commissioners in the various Counties in the State, and are reliable. It will be seen that Gen. Moses received 71,383, and Mr. Tomlinson 36,478 votes. As compared with the vote of 1870, this is a light vote. In the election for Governor of that year Gov. Scott received 85,071 votes, and Judge Carpenter 51,537. Scott's majority was 33,534.—There has been a falling off in the total vote as compared with the vote of 1870, of 28,747. General Moses' majority is 34,905.

BWARE OF CALOMEL.—And all Mercurial Compounds. Better, far better, endure disease than tamper with this mineral poison, no matter how carefully prepared. Its extensive use has already proven the cause of great and distressing injury. Dr. Tutt's Liver Pills contain not a particle of Mercury, and can be taken at all times with perfect safety.

YAZOO COUNTY, MISS., May 3, 1869.  
Dr. Wm. H. Tutt:

I have been a martyr to Liver Complaint for three years, and after employing the best of doctors, and spending almost all I was worth for different kinds of medicine, your agent induced to make a trial of your Liver Pills. I have taken them regularly for several weeks, and have been so much benefited by them that I feel confident of a perfect cure. I consider them the best Liver Medicine ever discovered. J. CRAPON.

Dr. Tutt's Hair Dye requires but a few minutes.

SYMPTOMS OF CATARRH.—Dull, heavy headache, obstruction of nasal passages, discharge falling into throat, sometimes profuse, watery, acid, thick and tenacious mucus, purulent, muco-purulent, bloody, putrid, offensive, etc. In others a dryness, dry, watery, weak or inflamed eyes, ringing in ears, deafness, hawking and coughing

to clear throat, ulcerations, scabs from ulcers, constant desire to clear nose and throat, voice altered, nasal twang, offensive breath, impaired smell and taste, dizziness, mental depression, tickling cough, idiocy and insanity.

All the above symptoms are common to the disease in some of its stages or complications, yet thousands of cases annually terminate in consumption, and end in the grave without ever manifesting one-third of the above symptoms.

No disease is more common or less understood by physicians. The Proprietor of Dr. Sage's Catarrh Remedy will pay \$500 reward for a case of Catarrh which he cannot cure. Sold by druggists.

THE JUSTICE OF THE VERDICT rendered by the public years ago in favor of the Mexican Mustang Liniment must be apparent to all who have used that famous preparation or seen it used. Its healing influence is irresistible. The most obstinate forms of neuralgic or rheumatic disease are totally cured by it, and that in an inconceivably space of time. External injuries or sores, whether of man or beast, as well as all equine or human maladies for which a liniment may be used, are speedily remedied by its use. Remember it is not merely a palliative but an eradicator of disease.

The greatest want of the present age is men & women, healthy & vigorous in mind & body. The continued headaches, weaknesses, nervousness, & varying ailments which afflict women are generally the result of imperfect action of the stomach and other vital organs. DR. WALKER'S CALIFORNIA VINEGAR BITTERS, being composed entirely of vegetable substances indigenous to California, may be taken with perfect safety by the most delicate, and are a sure remedy, correcting all wrong action & giving new vigor to the whole system.

Since the exposure of the attempts made by certain unscrupulous local dealers to palm off their coarse astringents, made from cheap and impure materials, in the place of the great national tonic, Hostetter's Stomach Bitters, public opinion has set strongly against these empirics and their preparations. Their occupation is gone or soon will be. When the light is let into deception it soon wills down. Persons who trifle with their own health by using unknown preparations, with no guarantee to sustain them, when an established specific, proven by twenty years experience to be exactly what it is claimed to be, is within their reach, are sure to repent their temerity. Many have done so in this instance, but it is hoped that the truth plainly spoken has arrested the evil. In the meantime the demand for the leading protective and restorative medicine of America was never so great as it has been this season. From the fever and ague districts of west, south west and south, it is literally overwhelming, and it may be said of the advices from all parts of the country of the cures it is effecting in dyspepsia, bilious complaints, and chronic constipation, that their number is legion. Everywhere the sick and feeble seem to have realized the importance of "holding fast which is good," and avoiding that which is spurious and dangerous.

The numerous "Bitters," under various names which unscrupulous dealers endeavor to substitute for Hostetter's Stomach Bitters, should be avoided, for their own sakes, by the sick, and the public at large. Hostetter's Bitters are procurable in bottles only, and never sold in bulk.

Prospectus for 1873—Sixth Year.

THE ALDINE.

An Illustrated Monthly Journal, universally admitted to be the Handsome Periodical of the World. A Representative and Champion of American Taste.

Not for Sale by Book or News Stores.

THE ALDINE, while issued with all the regularity, has none of the temporary or timely interest characteristic of ordinary periodicals. It is an elegant miscellany of pure, light, and graceful literature; and a collection of pictures, the most specimens of artistic skill, in black and white. Although each succeeding number affords a fresh pleasure to its friends, the real value and beauty of THE ALDINE will be most appreciated after it has been boud up at the close of the year. While other publications may claim superior cheapness, as compared with rivals of a similar class, THE ALDINE is a unique and original conception—alone and unapproached—absolutely without competition in price or character.

ART DEPARTMENT.

Notwithstanding the increase in price of subscription last Fall, when THE ALDINE assumed its present noble proportions and representative character, the edition was more than doubled during the past year; proving that the American public appreciate, and will support, a sincere effort in the cause of Art. The And the plans for the coming year, as unfolded by the monthly issues, will astonish and delight even the most sanguine friends of THE ALDINE.

The publishers are authorized to announce designs from many of the most eminent artists of America. In addition, THE ALDINE will reproduce examples of the best foreign masters, selected with a view to the highest artistic success, and greatest general interest; avoiding such as have become familiar, through photographs, or copies of any kind.

The quarterly tinted plates, for 1873 will reproduce four of John S. Davis' inimitable child sketches, appropriate to the four seasons. These plates, appearing in the issues for January, April, July, and October, would be alone worth the price of a year's subscription.

The popular feature of a copiously illustrated "Christmas" number will be continued. The publishers propose to make "assurance double sure," by the following unparalleled offer of

PREMIUM CHROMOS FOR 1873.

Every subscriber to THE ALDINE, who pays in advance for the year 1873, will receive, without additional charge, a pair of beautiful oil chromos after J. J. Hill, the eminent English painter. The Pictures, entitled "The Village Belle," and "Crossing the Moor," are 14 x 20 inches—each printed from 25 different plates, requiring 25 impressions and tints to perfect each picture. The same chromos are sold for \$30 per pair, in the art stores. As it is the determination of its conductors to keep THE ALDINE out of the reach of competition in every department, the chromos will be found correspondingly ahead of any that can be offered by other periodicals. The distribution of pictures of this grade, free to the subscribers to a five dollar periodical, will mark an epoch in the history of Art; and, considering the unprecedented cheapness of the price for THE ALDINE itself, the marvel falls little short of a miracle, even to those best acquainted with the achievements of inventive genius and improved mechanical appliances. (For illustrations of these chromos, see November issue of THE ALDINE.)

THE LITERARY DEPARTMENT.

will continue under the care of Mr. RICHARD HENRY STODDARD, assisted by the best writers and poets of the day, who will strive to have the literature of THE ALDINE always in keeping with its artistic attractions.

TERMS.

\$5 per annum, in advance, with Oil Chromos free.

THE ALDINE will, hereafter, be obtainable only by subscription. There will be no reduced or club rate; cash for subscriptions must be sent to the publishers direct, or handed to the local agent, without responsibility to the publishers, except in cases where the certificate is given, bearing the fac-simile signature of JAMES SUTTON & Co.
