

News by the Mails.

THE CHARLESTON ARTESIAN WELL.—Mr. Welton has now reached 825 feet, not having yet penetrated the stratum of marl, in boring which he has now for some time been engaged.

ARRESTING PHYSICIANS.—Warrants have been issued at Cincinnati for the arrest of several medical gentlemen, charged with the non-compliance of an ordinance requiring every physician to report the number of cases of spasmodic cholera or any malignant or unusual disease, occurring within the limits or vicinity of the city, that come under their treatment.

The business at the Welland Canal is increasing. The number of vessels passing through this work up to the 2d April is 193, against last year.

GUARD AGAINST PREMATURE BURIAL.—A learned Belgian, M. Mainple, has recently discovered a very simple means of distinguishing between real and apparent death. It consists in creating a small burn; if there is life, a blister is always formed even in the absence of apparent insensibility. If death has already intervened, nothing of the kind occurs.

It is said the maple sugar crop of Vermont this spring is uncommonly large, and that the amount of maple sugar made in the Northern States this year will exceed the product of the cane of the Southern States. Caleb Aldrich, of Sutton, Vt., has made 6000 pounds from 1700 trees.

The Religious Anniversaries commenced in Boston on Monday last, with the Bible Society. The attendance was large, but four-fifths of those present were ladies.

At the Polytechnic Institution in London, is exhibited one pound of glass, spun by steam into four thousand miles, and woven with silk into beautiful dresses and tapestry!

The Small Pox exists to an alarming degree in and about Greensborough in N. Carolina.

Annexation.—A paper is about to be started in Montreal, for the advocacy of annexation to the United States.

Late from Buenos Ayre.—Capt. Beauvais, of the barque Mary and Martin; arrived at New-York, from Buenos Ayres state that the blockade had been raised, but the Argentine government would not allow English or French vessels to enter the port.

The war steamer *United States*, sailed from New-York for England, on Tuesday last, on her way to Germany. *Gunga*, the celebrated musician, with a remnant of his band, went out in her.

For California.—The *J. Walls, Jr.* sailed from New-Haven 28th ult., under the command of Capt. J. Sandford, with the Brothers Mining and Trading Company and Williams & Stanley's Company bound for California. A large number of people assembled on the wharf, to witness her departure.

Fire.—The large frame building a little North of the Rail Road Depot Wilmington, N. C. built for and used as a Lampblack Factory, took fire on or near the roof (how is not known) on Saturday morning, and was entirely destroyed, together with all the apparatus used in the manufacturing process, and about 100 barrels of Lampblack. The loss is estimated at \$5000.—*Wil. papers* 28th inst.

Remarkable Voyage.—The brig *Rattler*, Mosely, arrived at Salem on Friday last, from Para, having completed the entire voyage in *forty-nine days*—the shortest ever made between the two ports. The *Rattler* sailed from Salem April 6, and arrived at Para, on the 26th. Sailed from Para May 6th—river 8th—and arrived in Salem May 25th—having been absent just *seven weeks!*—*Salem Reg.*

The body of Dr. Silas Holmes, of the U. S. Navy, drowned a few days since in Mobile Bay by the upsetting of a boat, was recovered on yesterday morning and interred in the afternoon. His remains were escorted to the grave by detachments of the Cadets and Fusiliers of the First Volunteer Regiment, and a detachment from the U. S. Exploring Squadron, under command of Major R. W. Smith.—*The City Authorities* also accompanied the escort.—*Mobile Advertiser*, 25th ult.

THE GOLD DOLLAR.—The following political description of this new coin, appeared in the N. Y. Tribune and bears the impress of a *Dana* or a *Taylor* on its visage.—It has come at last! Adams & Co.'s express brought yesterday from Philadelphia several of the glittering diminutive gold drops, and through this source we are indebted for a sight of it. In size it is somewhat larger than a Tuscan quattrino, (one-sixth of a cent), which you never find again after you drop it into your pocket, but it is considerably smaller than a half-dime, heretofore the smallest of all American coinage. The dies are exquisitely cut, which accounts for the length of time in preparing them. The dollar is undoubtedly the neatest, tiniest, lightest coin in this country, if not—value considered—in any other. There is no "hard money" feeling about it. It is too delicate and beautiful to pay out for potatoes and sauerkraut and salt pork. Oberon might have paid Puck with it for bringing the blossom which bewitched Titania. Ladies might wear one pendant in each ear, or a number of them as a bandeau, like the women of the Greek Archipelago. The only objection they could have would be that rival belles could tell the exact value of their *parure*. The principal convenience of the gold dollar in its adaptation for making small remittances by letter. In this respect it will no doubt have a wide circulation. Its appearance strengthens our original notion that the little dollar will prove a great favorite. In spite of the poets, we all have a weakness for the "shining drops," while very few are able to indulge it otherwise than Homeopathically.—*The gold dollar*, therefore, meets a universal want, and will be generally welcome.

The Cross.—The Martinsburg (Virginia) Gazette of the 24th ult., speaks in high terms of the flattering prospects of the Wheat crop of that region. It says, "If there is a fairer prospect for 'seed to the sower' and 'bread to the eater' any where than upon the fields of old Berkeley, the farmers in that favored region have reason to congratulate themselves."

One thousand, six hundred and ninety emigrants arrived at Boston during the week ending 29th ult.

The agricultural wealth of Ohio is strikingly exemplified in the statistics for the year 1848, presented in the report of the Board of Agriculture. The Cincinnati Atlas estimates the wheat crop of that year, from the data thus furnished, at 25,000,000 bu. Eighteen counties only, not including several of the largest wheat growing counties, produced upwards of 8,000,000 bushels. The statistics of corn are not full, but in ten counties only, where there are returns, the product is estimated at 12,000,000 bushels; in the whole State it is supposed to be 70,000,000 bu. Of wool, the Atlas estimates that 8,000,000 lbs. were shorn in 1848—2,000,000 in eleven counties. This productiveness is scarcely excelled by the gold bearing soil of California.

A Religious Fish.—A short time ago, mine host, Stewart, of the Denton Hotel, purchased a rock fish weighing about sixty pounds. Upon opening it he found in it a certificate of membership of the M. E. Church, which we read as follows:

METHODIST E. CHURCH,
FOUNDED A. D. 1784.

Quarterly Ticket, 18
Minister.

Our light affliction, which is but for a moment, worketh for us a far more exceeding and eternal weight of glory.—2 Cor. iv. 17.
O what are all my sufferings here
If Lord thou count me meet,
With that unrippen host appear,
And worship at thy feet.
The paper was of course in a crumpled and wet condition, but upon exposing it to the sun, and ironing the kinks out of it, it became quite legible.

(Denton (Md.) Journal.)

MARRIED.—At Winnsboro', on Tuesday, 24th inst., by the Rev. Mr. FRANK COLLEGE EARLE of Greenville, to Miss MARY L. CLOUD, daughter of Dr. Wm. Cloud, of Chester District.

In Jefferson county, Va., on the 26th March, Mr. JOHN LAY, aged eighty-five years to Miss CATHERINE LARENT, aged seventy-five years and six months, after a courtship of forty years.

DIED.—At her residence, in Sumter District, on the 25th inst. Mrs. WINIFRED WINGATE, in the 58th year of her age. She was exemplary in all the relations of life, and died in the full hope of a joyful resurrection, in Christ her redeemer.
