BALTIMORE, June 14th, 1849. The steamer Cambria arrived at Hali fax on Wednesday noon from Liverpool, whence she sailed on the 2d of June .-There had been an improvement in business at London, and money was more easy. American Securities were in good demand. Government Stock closed at 10 1-2 prem. At Liverpool on the 2d, Fair Upland Cotton commanded 4 3.8d changed, The Flour market was dull and prices had declined. Western was heavy at 22s 9d to 23s; and Ohio at 33s 6d to 24s 6d. Indian Corn had advanced, and sold freely at 35s 5d for White. Corn Meal commanded 16s to 16s 6d by the barrel.

Bacon was in better demand-choice brought 40s. Hams had declined, and are now quoted at 13s per cwt. Mess Pork had declined.

Rice (Carolina), sales of 600 tcs. at 17s to 18s -- a falling off.

English Parliament in reference to Canadian affairs. There is no reason to believe that the State prisoners, under sentence of death in Ireland, will receive the royal

The most intense misery prevails in Ireland. In one district, the inhabitants are in such a state of starvation as to be actually compelled to feed on corpses that are washed ashore.

ROMANISH AFFAIRS.

The French army had not yet entered Rome. The negotiations of the French Ambassador with the existing Roman government, had not proved successful. The Romans refused to admit the French into the city on any terms, either as enemics or friends. The French troops show evident disposition to sympathise with the Romans. Gen. Oudinot, from his position, was exposed to the effects of malaria, and disaffection was increasing among his troops. The Neapolitans had withdrawn from the vicinity of Rome. Austrians also inactive in Italy. CONTINENTAL.

There is nothing decisive from Hungary. Vast armies of Austrian and Russian troops continue to advance. The Hungarians are retiring to their fastnesses. where their chances of success are much better. The city of Buda is in their hands, and it is reported that they massacred from five to six hundred of the inhabitants. The Maygars are said to hold Fiume, the only Hungarian sea-port, and a place of great strength.

The Danish war continues, and although nothing of particular interest has tran spired, still there is no prospect of peace.

The town of Frederica has been taken by the Prussians. Commotions still tinue to prevail in Germany.

Road.
The Board of Directors of this Company at their recent meeting in Charleston, it will be perceived by the article from the Charleston Mercury, copied in our last issue, have made arrangements, mutually satisfactory with the South Carolina Railroad Company, for the junction of the two roads, and the President of the South Carolina Railroad Company has subscribed, in the name of the Company, for \$20, 000 in the stock of our Road to be paid in the transportation of iron and materials upon their road, which of course is equal, in any sense, to money, as the freights of such articles are usually for cash.

The Board have ordered contracts to be made for the completion of the entire Road, including timbers superstructure, bridging, depots, water stations, &c if they can be let out to be paid for in stock, with a view of increasing the subscription as practicable, to \$750,000, which is a necessary per quisite to obtaining the sub-scription of this State, which is \$200,000. This latter sum as soon as the Company are ready for it, is to be appropriated to the purchase of iron (now very low in England) to be laid on the first forty miles of Road, from the Camden Branch, and it & Bossards Drug Store. Also, the New and England) to be laid on the first forty miles not doubted when that much is laid, the laying of the iron to the Great Pecdee will soon follow, and the Road go into operation from that point. It is a matter of the highest importance then to the Company, especially to the stockholders and community in that section, to use every means to get the subscription up to \$750,-000 at an early day, as they will not only have the benefit of the Road, but will be assisted by its income to go and complete

Our North Carolina friends are pushing zenlously forward. The Board of Directors of the Wilmington and Raleigh Railroad Company have passed a resolution unanimously to subscribe \$100,000 to the stock of this Company, and no doubt is entertained that the State of North Carolina will contribute her aid, and commence the eastern end of the road, and have it in progress at the same time that our end is progressing. We are informed that in Charleston, among the citizens of influence and position, the very best feelings prevail towards our Company, and

that we will not look in vain for subscripions from that quarter to help us out. The Mercury but expresses a general sentiment of the liberal community in that city, when it speaks of the success of our enterprise as a subject of "sincere congratulation." Why should it not be to all? traversing as it does a section of country, blessed with a population, productiveness,

and climate, known to few others; rich in its undeveloped resources, and holding thin its bosom the best elements for so-Fair Upland Cotton commanded 4 3.8d and Fair Orleans 4 3.4d. At Havre, the market was dull, but prices were unconsummation of a work holding out so many inducments, and stimulants to enterprise and industry, offering so many cheap facilities to social intercourse, and opening so many channels of intelligence. Should there be one among us unwilling to contribute something from the means with which Providence has been blessed him, to aid in its speedy accomplishment, let it be remembered that a subscription to the stock is no gift to the Company, but an investment that must yield an income in money that ought to satisfy the stockholders, and that it will be like "bread cast upon the water," to return after many days, richly freighted with blessings to the contributor and the community.
