fruit any injury. Whatever it is that causes the worm is deposited on the fruit during the process of drying.—*Southern Cultivator.*

SENATOR JEFF. DAVIS.—We publish the following extract (says the Mississippi Free trader) from a letter of our worthy Senator to his constituents at Columbus, on an invitation tendering him a dinner, and approving of his public acts:

I look forward with confidence to the action of Mississippi, and hope it will be sustained by general action in the South; upon which hangs another hope, that the Union of the South will produce reaction in the public feeling of the North, and th t our constitutional Union may be preserved, a monument more lasting than brass to the wisdom and virtue of our revolutionary fathers; and a temple of true liberty for posterity through all endless ages. But if this fondly cherished hope cannot be realised, the Union of th South will in any event enable us to preserve the principles on which our Federal Union was based and to transmit them to posterity, with all the glorious memories of the Union, and to leave the laurels gathered in common toil and danger, unstained by the blood of civil war.

In other words we must stand up for our rights in the Union or out of it. They must be insisted on, and maintained at all hazards.

ANOTHER ASTONISHING GAS DISCOVERY.—Mr. Paine, who claims to have invented a method of producing light and heat by the combustion of water, not satisfied with this discovery, has hit upon a still cheaper and more abundant fuel. The Worcester *Spy* of yesterday says:—"Although the Patent of the Hydro Electric Light has been secured, Mr. Paine has not remitted his investigations, and at last has discovered a process of catalizing the oxygen of the atmosphere, and rendering it highly luminferous at a mere nominal expense, without the cost of machinery, or any other apparatus than an air receiver, capable of holding common air. We saw it in operation last evening in our office, examined it minutely, catalized the oxygen ourself, and read by the light so produced, which is equal, if not superior, to the best gas burned in the cities. The flame is peculiarly bright and brilliant, burns with a clear, steady light, is entirely inodorous, and during the half hour that we watched its operation, we could see no consumption of the catalizing material. The whole apparatus which we saw, could not have cost more than a couple of dollars, and it was capable of furnishing all the light needed for the illumination of an ordinary sized room."

ANTI-RENT OUTRAGE.—The Albany Register states it has been impossible for Mr. Van Rensselaer, a large land proprietor, to collect his rents in that county, within many years, because of the difficulty of serving legal papers, the proper officers being chosen by anti-rent votes. He had, however, secured the services of a resolute man in another county, who had served his processes, and against whom the vote-them-selves-a farm gentry had sworn vengeance, and recently when acting under a Surrogate's commission to lay off a widow's dower in the town of Bern, with two other persons, he was seized by a band of twenty or thirty "Indians,"—as the marauders call themselves—armed with rifles and tomahawks, who bound and blinded him, stripped off his clothes, and covered him with tar and feathers from the top of his head to the soles of his feet. They then tarred the inside of his clothes and put them on him, tarred them outside, and covered them with feathers, and marched him round the neighborhood for some hours, and sent him home to his family at midnight, after repeating the process two miles from his house.

The Madison Courier relates the following piece of financiering: McElevey the tailor, who bought the prize ticket to Jenny Lind's first concert in Cincinnati, is one of the few men in the world who are sharp as Barnum. The way he worked things was this; for some days before the concert he went around among his friends betting ten dollars with this one, twenty dollars with that one, and so on until he had a thousand dollars bet that he would buy the prize ticket. The ticket was knocked down to him at $575, thus leaving him $125 in pocket.

WHITEWASH EQUAL TO PAINT.—Take clean lumps of well burnt White Lime—say 6 quarts, slack the same with hot water, in a tub, covered to keep in the steam. Pass it in a fluid state, through a fine sieve, add one fourth of a pound of burnt Alum, pulverized, or Whiting, one pound of good Sugar, 3 pints good Rice, made into a paste well boiled, 1 pound clean Glue, dissolved by first soaking well, then putting it into a large pot filled with water, the whole mixture. Put on the wash warm outside, or cold inside. One pint will cover a square yard. The second coat should not be put on under four or six days—or until the first coat is thoroughly hardened.

Improved Cotton Gins.

Thankful for past favors the subscriber wishes to inform the public that he still manufactures Cotton Gins at his establishment in Stateburg, on the most improved and approved plan, which he thinks that the cotton ginned on one of those gins of the late improvement is worth at least a quarter of a cent more than the cotton ginned on the ordinary gin. He also manufactures them on the most simple construction, of the finest finish and of the best materials; to wit, Steel Saws and Steel Plated Ribs Case hardened which he will sell for $2 per Saw.—He also repairs old gins and puts them in complete order at the shortest notice. All orders for Gins will be promptly and punctually attended to.

EXECUTIVE OFFICE.

CHARLESTON, APRIL 10, 1851.

By his Excellency J. H. MEANS, Governor and Commander in Chief, in and over the State of South Carolina.

WHEREAS, information has been received at this Department that JACKSON VAIGNEUR, charged with the commission of an atrocious Murder, has escaped from jail at Gillisonville, in the State aforesaid: Now, therefore, in order that the said Jackson Vaigneur may be brought to trial, I, JOHN H. MEANS, Governor of the State of South Carolina, do hereby offer a reward of TWO HUNDRED DOLLARS for the apprehension and delivery of the said Jackson Vaigneur to the Sheriff of Beaufort District, or into any jail in this State.

The said Vaigneur is about five feet nine inches high; black eyes, hair and beard; dark complexion, about twenty three years of age, and has the end of his right forefinger cut off about the middle of the nail.

Given under my hand and the seal of the State, at Charleston, the 10th day of April, L. S. in the year of our Lord one thousand eight hundred and fifty-one, and in the seventy-fifth year of the Sovereignty and Independence of the United States of America.

By the Governor. J. H. MEANS.

BENJ. PERRY, Secretary of State.

The several papers in this State, also the Augusta Republic, Columbus Times, and Savannah Georgian, are requested to give the above three insertions, one each week, and forward their accounts for payment to this Department.

GIN MAKING, &C.

We are prepared to execute orders to any extent in the above line, both for new work and repairs. Our Gins are not surpassed by any made in the State, possessing all the advantages of the Falling Breast and Sliding Ribs, which saves a great deal in way of repairs. We also use the Steel Plate Saws, with teeth set in an angle that cannot possibly injure the finest staple, with an improvment to regulate the moting of the cotton; our brush is constructed on a plan, giving at once, the advantages of lightness, strength and force—all very material in the successful operation of a Gin. We would invite planters to call at our shop and examine for themselves, whilst we would assure the public generally, that they shall have no cause to complain either of our work or prices.

CABINET MAKING.

We are also prepared to do work in the Cabinet line—such as Bedsteads, Wardrobes Safes, Book cases, Stands, Tables, Cupboards, &c. &c. at short notice, on liberal terms.
