We were hoys together,
And never can forgat
The school-house near the heather,
In childhool where we met;
The humble home to memory doar,
Its forows and its joys;
Where wore the transient scale or tear,
When you and I were boys.

We work youths together,
And onsides built in airs
Your heart was like a feather,
And amme weighed down with care;
And amme weighed down with care;
To you came wealth with manhoods prime
I'd me it brought alloys—
Foreshadowed in the princess time,
Wish you and I were boys.

We as ald man together—
The Glouds we loved of vore,
With feaves of autumn weather.
An gone for evermore,
How niest to age the impulse given,
The hope time ne or destroys—
Which led our thoughts from earth to Heaven,
When you and I were boys!

A COMICAL SCHNE-A FOUND. LING .- As Mrs. Esther Stansbury, (residing in a Court running from Race street below Sixth,) was about to bring a bucket of water from the hydrant last night-she found an old basket suspended from the knob of her front door. Putting her hand into the basket, she felt something alive and kicking-but so enveloped in regs that no further discovery could be made without unwrapping the object. A piece of paper folded like a letter, lay by the side of the animated bundle. Mrs. Stransbury immediately returned to the house, and by the light of the lamp, examined the billet. It was addressed to her husband. She tremulously broke the seal and rend as follows:

" To Joe Stansbury : Sir : I send you the baby, which you will please to take good care of and bring up right, so that it may turn cut to be a better man than its daddy. Oh! Joseph! what a sly old rake you are! who would think that such a staid, DRAFER AND TAGEOR sober, old spindle-shanks could be such a tearing down sinner? The child is yours. You may swear to that. Look at it; it is Joe Stansbury all over. You deceived me shamefully, Joseph -- letting on to be a widower: but do a father's part hy

"P.S .- Don't let that sharp nosed wife of yours see this letter. Gammon her with some kind of a story about the baby.

Mr. Stansbury was in the basement kitchen quietly eating his sup-per, and little imagining what a storm was brewing over his head. The door of the kitchen staircase inds: Where just before nothing was violently thrown open, and Mrs. as wisible but a mass of black bats S.'s voice yelled out, 'Stansbury, come up here, you villian; here's a mess for you! The astonished Stansbury hastily wiped his mouth and obeyed the summons.

'Don't you want to see Nancythe heart-broken Nancy?" cried Mrs Stansbury, when her guilty husband had hobbled up into the room.

'Nancy? what Nancy's that?' said the sly old rogue in well-feigned perplexity.

'Why, Nancy, the mother of the baby that has been hung up at your door, Mr. Stansbury. Oh! you look mighty innocent; but just read that letter and then look in that basket. Don't be afraid, it wont bite its got no teeth poor thing! you'll know it, for as your hussy says, it is hich in long parspective were just like you all over. Please goodout before them. GIN MAKING, &C. We are prepared to execute orders to any extent in the above line, both for new workand repairs. Our Gins are not surpassed by any made in the State, possesing all the advantages of the Falling Breast and Sliding Ribs, which saves a great deal in way of repairs. We also use the Steel Plate Saws, with teeth set in an angle that cannot possibly injure the finest staple, with an improvment to regulate the moting of the cotton; our brush is constructed on a plan, giving at once, the advantages of hightness, strongth and force—all very material in the successful operation of a Gin. We would invite planters to call at our shop and examine for themselves, whilst we would assure the public generally, that they shall have no cause to com-

Improved Cotton Gins.

Thankful for past favours the subscriber wish'es to inform the public that he still manufactures Cotton Gins at his establishment in Stateburg, on the most improved and approved plan, which he thinks that the cotton ginned on one of those gins of the late improvement is worth at least a quarter of a cent more than the cotton ginned on the ordinary gin. He also manufactures them on the most simple construction, of the finest finish and of the best materials; to wit, Steel Sawa and Styll Plated Ribs Case hardened which he will sell for \$2 per Saw.—He also repairs old gins and puts them in complete order at the shortest notice. All orders for Gins will be promptly and punctually attended to.

of New Jersey, of distinguished citalinments and exaled reputation:

Signer, New Jersey, July 19, 1343.

Di. A. H. Christin, Dear Sir; You wish to know of me what has been the result in my own case, of the application of THE GALVANIC BELLT AND NECK LACE. My reply is as follows:

For about mornic years I had been suffering born by spepile. Every, year the symptoms became worm, nor could I obtain permanent relief from any course of medical treatment whatever, About Journal varies since, in consequence of frequent exposure to the weather, in the discharge of my pastoral duties. I became subject to a severe Chronic Rhemmatism, which for year after year, caused me indescribable augush. Farther: in the winter of 43 and 46, in consequence of preaching a great deal in my own size various other churches in this region, I was attacked by the Bronchitis, which stoop became as severe as he require an immediate suspension of my pastoral labors. My servent system was seen therepolyly presigned, and as my Bronchitis became worse, so also find my Dysepsia and Rhemmatism was seen therepolyly presigned, and as my Bronchitis became worse, so also find my Dysepsia and Rhemmatic affection—thue evancing that these disorders were connected with each other through the medium of the Nervous System. In the whole pharmacepeals there seemed to be no respectful agent which could reach and recuperate my Nervous System, in the whole pharmacepeals there seemed to be no respectfully entered by a find. At last I was led by my friends to examine hopes of their efficiency, I described to try the effect of the application of the Academy with no revy senguine hopes of their efficiency, I described to try the second course of the system of the second course of the system is a second of the system in the second course of the system of the second course of the second course of the second course of the second cours
