Dr. Hoofland's German Bitters, manufactured Dr. Hoofand's German Bitters, manufactured by Dr. Jackson, are now recommended by some of the most prominent members of the faculty as an article of much efficacy in cases of male weakness. As such is the case, we would advise all mothers to obtain a bottle, and thus save themselves much sickness. Persons of debilitated constitutions will find there Bitters advantageous to their health, as we have for each other health, as we know from experience the salutary effect

of Pennsylvania Another Scientific Wonder! GREAT CURE FOR DYSPEPSIA!

DR. J. S. HOUGHTON'S PEPSIN, THE TRUE DIGESTIVE FLUID, OR GASTRIC JUICE

of Reast Reef, in about two hours, out of the Stomach.

Uepsin is the chief element, or Grent Digesting Principle of the Gastric Juice—the Solvent of the Food, the Parifying: Preserving, and Stimula ing Agent of the Stomach and Intestines. It is extracted from the Digestive Stomach of the Ox, thus forming an artificial Digestive Fluid, precisely like the natural Gastric Juice in its Chemical powers, and furnishing a Complete and Perfect Substitute for it. By the aid of this preparation, the pains and ovils of Indigestion and Dyspersia are removed, just as they would be by a healthy Stomach. It is doing wenders for Dysteptics, curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption, supposed to be on the verge, of the grave. The Scientific Evidence upon, which it is based, is in the highest degree Curious and Remarkable.

SCIENTIFIC EV DENCE!

SCIENTIFIC EV DINCE!

Paron Liebig in his celebrated work on Animal Chemistry, says: "An artificial Digestive. Fluid, analogous to the Gastric Juice, may be readily preserted from the auteous membrane of the stomach of the Calf, in which various artificies of food, as meat and eggs, will be softened, clanged and digested, jut in the same manner as they would be in the buman stomach."

Dr. Combe, in his valuable writings on the "Physio egy of Digestion," observes that "a diminution of the due quantity of the Gastric Juice is a promisent and all-prevailing cause of Dyspepsia;" and he states that "a distinguished grofessor of medicine in London, who was severely afflicted with this complaint, finding every thing else, to fail, had recourse to the Gastric Juice, obtained from the stomachy of living animals, which proved completely successfully."

Professor Dunglison, of the Jefferson College

Dr. John W. Draper, Professor of Chemistry, in the Medical College of the University of New York, in his "Text Book of Chemistry," rage 386, says,: "It has been a question whether artificial digestion could be performed—but it is now universally admitted that it may be." Dr. Carpenter's standard work on Physiology, which is in the lib-ary of every physician, and to need as a Text Book in all the Colleges, is full of evidence similar to the above, respecting the remarkable Digestive power of Pepsian, and the fact that it may be readily separated from the stomach of the calf or Ox, and used for experiments in Artificial Digestion, or as a cancely for discusses of the Stomach, and deficient secretion of Gastric Juice.
